

Dear Worcester resident or property owner,

- **Are you looking for ways to save money?**
- **Is your home drafty or too cold in the winter?**
- **The City's Energy Advocates can help!**

Our two Energy Advocates are city employees, funded by Eversource and National Grid via the Mass Save® Community First Partnership. They can answer your questions and guide you to access energy-saving programs. You'll get a no-cost Home Energy Assessment to evaluate your energy usage and identify ways to save. There is no obligation to act on the recommendations. It's totally up to you.

Whether you own or rent – get started by requesting a no-cost Home Energy Assessment at MassSave.com/Worcester or by calling (508) 372-8389.

Massachusetts is one of the most energy efficient states in the nation, due in large part to the Mass Save programs, which are supported by a utilities' energy efficiency charge that is paid by all of us on our gas and electric bills. Here's how you* may be able to save money:

- **75%-100% off approved insulation upgrades** to help improve year-round comfort and cut your heating and cooling usage by an average of 20%
- **Up to \$16,000 in heat pump rebates** that heat *and* cool your home
- **0% financing** (up to \$50,000) for qualifying energy efficiency upgrades
- No-cost air sealing improvements
- No-cost energy-saving products like programmable thermostats, water-saving devices, and advanced power strips

I hope you will take the first step by taking advantage of this City service to help you access these great opportunities to save on your energy bill.

Visit MassSave.com/Worcester or call (508) 372-8389 to schedule a no-cost no-obligations **Home Energy Assessment** or to talk to our **Energy Advocates** first!

Together we can reduce energy use and save money, and make our buildings healthier, more comfortable, and more sustainable.

WE ARE MASS SAVE®:

**If you live in a single-family home or 2-4 unit building, you are eligible to participate. If you or your tenants qualify as low-income, you may be eligible for even greater benefits through the Worcester Community Action Council. There are also benefits for 5+ unit buildings and small businesses. Learn more at MassSave.com/Worcester.*

What incentives and rebates may be available for my home?

If you live in a single family home or 2-4 unit building, you may qualify for the energy efficiency upgrades below, based on your household's income.

Income chart* Effective November 1st, 2023 - October 31st, 2024

Number of Household Members	Annual Household Income		
	Income Eligible	Enhanced Residential	Standard offers
1	Up to \$45,392	\$45,393 - \$60,523	\$60,524 and higher
