Regular Meeting (5:30 PM) – Saxe Room, Worcester Public Library

1.  Call to Order:  Chairman John Shea called the meeting to order at 5:30 PM.

2.  Approval of the Minutes – September 14, 2005 Meeting:  Upon a motion by Margaret Guzman and seconded by Scott Cashman, the Board voted 4-0 to approve the minutes of the September 14, 2005 meeting.

3.  Omnibus Zoning Ordinance:  Attorney Samuel DeSimone urged the Board to make a recommendation to the City Council and get the Ordinance done because the City has, in effect, left developers in limbo forcing them to construct projects at their own risk at times.  Attorney Jonathan Finkelstein urged the Board not to rush and to fully discuss the issues he raised in his memo to the Planning Board dated September 28, 2005 while keeping in mind it should be done quickly but thoroughly.  Joel Fontane submitted to the Board a memo dated September 28, 2005 that outlined corrections consisting of scrivener’s errors and omissions based on extensive review of the Omnibus Amendment, a comparison with the documentation the Board used to create its recommendations, comparison with the minutes from the special meetings of the Planning Board and the current Zoning Ordinance.  The Board next turned to consider the issues raised in Mr. Finkelstein’s memo.  However, Mr. Finkelstein urged the Board not to review it on an item-by-item basis at this time, citing the Board’s lengthy meeting agenda to follow.  Following a discussion on how best to proceed, it was agreed that the Board would review two items raised by Mr. Finkelstein that staff identified as representing a typographical error and a recommended clarification (several other items were already addressed in Joel Fontane’s memo.).  The balance of the issues generally reflected Mr. Finkelstein’s disagreement with certain policy changes proposed by the Board and, having read them, the Board was not inclined to revisit its previous recommendations.
There was a discussion, initiated by Margaret Guzman, relative to dimensional requirements for single-family attached dwellings in RG-5 zoning districts. She said increasing the square footage and frontage requirements would limit the ability of first time homebuyers to find affordable properties for purchase. There was a discussion relative to the Article V, Section 3(D) amendment that allows the Director of Code Enforcement to authorize de minimus modifications, amendments or alterations to a previously approved site plan. Joel Fontane informed the Board that the idea behind it was to streamline the process by which we address minor changes. Margaret Guzman and Scott Cashman expressed concern that what may be considered de minimus to one person may be important to another person. Jonathan Finkelstein opined that it would give too much discretionary power to one individual and that abutters should be notified of plan amendments. No action was taken on this particular issue. Upon a motion by Margaret Guzman and seconded by Anne O’Connor, the Board voted 4-0 to close the hearing. Upon a motion by Anne O’Connor and seconded by Scott Cashman, the Board voted 4-0 to recommend leaving the requirement at 2,200 square feet with 20-foot frontage for each dwelling unit for single-family attached in Article IV, Section 4, Table 4.2. Upon a motion by Margaret Guzman and seconded by Scott Cashman, the Board voted 4-0 to recommend in Article IV, Section 1(B) deleting, “where a split lot existed at the time of the adoption of the Zoning Map” and inserting, “where a district boundary line divides a lot”. Upon a motion by Margaret Guzman and seconded by Scott Cashman, the Board voted 4-0 to recommend deleting the reference to “Article XV, Section 3(E)” and inserting “Article XVI, Section 4(E)(3)” in Article I, Section 2 (Definitions) - Abandonment.
