4. **22 & 24 Northboro Street – Frontage Subdivision (PB-2016-036)**

Zac Couture, engineer, appeared on behalf of the petitioner. Mr. Couture stated that back when the land was originally subdivided lots were given 60 feet of frontage and relief was granted by the ZBA with regards to 5 feet of frontage for both proposed lots.

Ms. Tatasciore stated that the ZBA granted the 5 foot variances from the ZBA. The frontage subdivision is the mechanism needed to divide the lots.

Mr. Mitra opened the hearing to the public.

Henry Martin, an abutter to the property, asked how the reconstruction of the portion of road after connecting utilities will be handled and by what department. Mr. Martin gave examples of patch work for roads that had been done in the vicinity of Northboro Street.

Mr. Lyford stated that whenever there are two houses in a row that are installing utilities the contractor is required to do both at the same time. He stated that since only one set of utilities is required for this
development they will only be required to do one patch and any questions should be directed to the DPW Department.

Upon a motion by Mr. Freilich and seconded by Mr. Vigliotti, the board voted 3-0 to approve the frontage subdivision and requested waiver.

He stated that he had appeared before the Zoning Board of Appeals and was advised that he needed to appear before the Planning Board for More Than One Building on a Lot. He stated that there is no new construction proposed and would request a waiver of the plan requirements and request approval of the petition.

Ms. Tatasciore stated that this is just a procedure to legitimatize the process and due to that staff would recommend a waiver of Section 8G as it pertains to Subdivision Regulations as they pertain to More than One Building on a Lot.

Upon a motion by Mr. Freilich and seconded by Mr. Vigliotti, the board voted 3-0 to approve the frontage subdivision and requested waiver.
