Discussion – Item 4c.

Mr. McGourthy asked if Item 4c. could be taken out of order so that City Solicitor David Moore could make an urban renewal presentation to the board.

Mr. McGourthy reviewed with the board the partnership between the City and the Worcester Business Development Corporation (WBDC), and the WRA in order to prepare a master plan and study of an area downtown that will include the Hanover Theater District, Mechanics Street, Francis McGrath Boulevard, Myrtle Street and High Street.

Mr. Moore described the urban renewal program first with a summary of the Medical City Urban Renewal Project the last urban renewal project in the city. Mr. Moore continued with a summary of the urban renewal plan which is a statutory program that allows municipalities through their WRA to develop urban renewal projects by providing municipalities the opportunity to redevelop deteriorated areas by promoting economic development needed to attract and support private investment. Mr. Moore explained that the WRA is an independent body and is not an agency of a municipality allowing more autonomy in planning and implementing redevelopment and revitalization projects. Mr. Moore explained that there was originally a federal mandate to eliminate blight from inner cities but that program no longer exists although redevelopment authorities still play a role under Massachusetts laws. Mr. Moore stated that WRA’s have the power to establish rehab and design standards, assemble and dispose of land including taking of real estate through eminent domain, relocating business on urban renewal sites, demolishing or rehabbing substandard structures, issue bonds, borrow money and invest funds, receive grants and loans. Mr. Moore provided the board with handouts that included: Powers and Duties Under State Law, Chapter 121B – Housing and Urban Renewal; Section 1 Definitions of Housing and Urban Renewal; City of Worcester Law Department correspondence to Michael Latka, Executive Director, WRA – April 21, 1992 reviewing the urban renewal statute and regulations for the WRA; and Final Report, dated April 1, 2003 – Medical City Land Takings.

Mr. Zidelis, Chief Financial Officer for the City, reviewed the process for the Medical City project noting that $54 million dollars in bonds were issued over a 20 year period for which the State annually reimburses the City, the project will be fully reimbursed in FY13. The most recent funded urban renewal project is with the City of Worcester.

Preservation Worcester has signed an agreement to install signage promoting a self-guided audio tour created by Preservation Worcester to bring a greater awareness of the history of Worcester and the Blackstone Canal.
