

Amendment 9199

**AN ORDINANCE AMENDING ARTICLES XIII AND III
OF THE WORCESTER ZONING ORDINANCE ADOPTED
APRIL 2, 1991 RELATIVE TO PARKING OVERLAY DISTRICTS**

Be it ordained by the City Council of the City of Worcester as follows:

SECTION 1. Article XIII of the Worcester Zoning Ordinance is hereby deleted in its entirety and the following new Article XIII is inserted in lieu thereof:

ARTICLE XIII

PARKING OVERLAY DISTRICTS

Section 1 – Purpose

- A. The purposes of the parking overlay districts are:
1. To promote the health, safety and general welfare of the community.
 2. To reduce the amount of land devoted to off-street parking areas in a manner that is compatible with abutting uses.
 3. To enhance the pedestrian environment and improve site layout of properties.
 4. To foster compact development through the reduction of land devoted to parking.

Section 2 – Shrewsbury Street Parking Overlay District (SPOD)

A. Establishment

The Shrewsbury Street Parking Overlay District (SPOD) is hereby established, and the boundaries of the district are shown on the Official Zoning Map.

B. Application and Jurisdiction

1. The provisions of this article apply to all restaurant uses within the SPOD.
2. The planning board, by special permit, shall have the authority to modify the number, dimensions, layout, and landscaping requirements for off-street parking, off-street loading requirements, and/or authorize shared parking arrangements with non-residential uses subject to the provisions of Section 2(C) of this Article.
 - a) The number of required off-street parking spaces may be reduced up to a maximum of seventy-five percent of the requirements otherwise required by Article IV, Table 4.4.
 - b) An application for a special permit to reduce the number of required parking spaces shall be accompanied by a parking analysis that demonstrates, to the satisfaction of the planning board, that a sufficient number of on-street parking spaces are available to support the applicant's requested reduction.

- c) All restaurants utilizing a significant number of on-street or remote off-site parking spaces may be required to provide valet parking during peak hours of operation.

C. Shared Off-Street Parking

- 1. Notwithstanding anything to the contrary in Article IV, Section 7(1)(E)(1), the planning board, by special permit, either in conjunction with a request for a reduction in the number of required off-street parking spaces hereunder or independent thereof, shall have the authority to allow a restaurant use within the SPOD to share the off-street parking facilities of a non-residential use within the SPOD subject to the following restrictions.

- a) On-site Shared Parking

Where multiple uses occupy the same lot, a restaurant use may utilize the off-street parking spaces otherwise require for the non-restaurant use(s) upon a finding by the Planning Board that the peak parking demand of the uses sharing parking spaces are sufficiently staggered to provide adequate off-street parking for each use.

- b) Off-site Shared Parking

A restaurant use may utilize the off-street parking spaces of a non-residential use located within one thousand feet of the restaurant use upon the following findings by the Planning Board:

- i) The restaurant use provides a minimum of twenty-five percent of its required off-street parking dedicated solely to the restaurant use (i.e., non-shared parking).
- ii) The hours of operation of the uses sharing the parking facility are staggered such that the shared parking arrangements provide adequate off-street parking for each use.
- iii) The restaurant use either owns or has, at a minimum, a five year lease agreement to use the lot for shared parking. Proof of ownership or lease shall be presented to the Planning Board.
- iv) Existing legally permitted restaurants, as of right, may utilize shared parking arrangements provided that they yield a net increase in the number of parking spaces, and that they are in accordance with Section 2(C)(1)(b)(i) and (ii) of this Article. Documentation of these arrangements must be filed with the Division of Planning & Regulatory Services.

D. Special Permit Duration

- 1. Where shared parking is provided on a separate lot owned by the restaurant use, the special permit shall be conditioned on the restaurant use's continued ownership of such lot.
- 2. Where shared parking is provided on a separate lot pursuant to a lease agreement, the special permit shall be conditioned subject to a time limit that is co-terminus with the lease term.

E. Review Standards

1. In addition to the special permit review criteria under **Article II** of this Ordinance, the Planning Board shall also review the special permit application for conformance with the following planning and design objectives.
 - a) Whether the proposed modifications furthers the objectives of the SPOD.
 - b) The relationship of the modifications to other planning considerations for the area and the city of Worcester as a whole, including the plans, programs and policies of the various departments and agencies of the city.
 - c) The impact of the required modifications on neighborhood properties.
 - d) Whether the restaurant use, with the requested modifications, will have adequate parking, through a combination of on-street and off-street parking.
 - e) Whether any shared off-street parking arrangements will effectively provide sufficient parking for the uses proposed.
2. An application for a special permit shall be accompanied by such plans and information as are otherwise required in connection with the parking plan approval process set forth in **Article IV, Section-7**. Any project which receives a special permit under this article shall be deemed to have also received, where applicable, its parking plan approval for purposes of **Article IV, Section-7**.

Section 3 – Parking Overlay Districts in Special Development Areas

A. Establishment

A Parking Overlay District (POD) is hereby established in each of the following special development corridors, and the boundaries of each POD are shown on the Official Zoning Map.

1. Blackstone Canal Parking Overlay District (BCPOD).
2. Chandler Street Parking Overlay District (CPOD).

B. Off-Street Accessory Parking and Loading Requirements

Within a POD, the reuse or rehabilitation of a building existing on the date such overlay district is created shall not require any new or additional off-street parking and loading facilities. However, the provisions of **Article IV, Section-7** shall apply, except for **Tables 4.4** and **4.5**, to any new or additional off-street parking and loading facilities voluntarily provided.

C. Existing Off Street Accessory Parking and Loading Facilities

The provisions of **Article IV, Section-7** shall apply, except for **Tables 4.4** and **4.5**, to any modification of existing off-street accessory parking and loading facilities in a POD.

D. Extension, Alteration or Change of Nonconforming Structure

Notwithstanding the provisions of **Article XVI, Section-4(D)** to the contrary, within a POD, a privileged nonconforming structure may be altered or changed without a special permit from the Zoning Board of Appeals provided there is no extension or expansion of the exterior of the structure. Provided, further, that the foregoing shall not apply to alterations made to conform to the building code for health and safety purposes, nor to an extension or expansion which conforms to the dimensional requirements of this Ordinance.

SECTION 2. The list of Overlay Districts in Article III, Section 1 of the Worcester Zoning Ordinance is hereby amended by deleting “FLP Flexible Parking” and inserting the following designations at the end of said list:

SPOD: Shrewsbury Street Parking Overlay District
BCPOD: Blackstone Canal Parking Overlay District
CPOD: Chandler Street Parking Overlay District
