FIRE ALARM INSTALLATION PERMIT APPLICATION

A permit must be obtained from the Fire Department prior to the installation of a fire protection system in any new or existing building or structure. A fire protection system (i.e. fire alarm panel) includes any device, equipment and systems used to detect a fire, activate an alarm, suppress or control a fire or any combination thereof. Permits are valid until change of use. Contractor must supply plans for new systems.

Procedure:

1. Licensed contractor applies for permit at Fire Prevention.
2. Permit Fee - \$50.00 check or money order made payable to: City of Worcester.
3. Inspection within one week.
4. **All newly wired and updated systems must first be signed-off by Wiring Inspector.**
