all, the project is in good shape and Consigli has done a great job with items that have come up
along the way with handling them as they arise and not adding much additional time to the project.

Commissioner Harrity inquired about the status of the ice plant and why a 5 year old chiller
has rusted out already. Sandy reported that the City is facilitating a portable chiller to be
staged on Commercial Street to make ice for the first several months of the season. While
one could speculate on initial reports, Paul Moosey stressed that it is important to receive all
the facts prior to determining what the causes may have been. The City is in the process of
conducting the investigation. In the meantime, he stated that the City will do whatever it
takes to not jeopardize the Sharks contractual schedule.
Chairman Pietrewicz motioned to have research done on why the chiller is inoperable; Commissioner Harrity seconded the motion. (4 yeas, 0 nays) *Motion passed.*
