2) Review and Approval of 1/20/15 and 1/29/15 Minutes

3) De-brief on New Housing Project Application Process by Housing Development Division (HDD) Director Delivered to CDAC on 1/20/15

- Discussion of preferred method of CDAC interaction/oversight

Ed Moynihan recapped the new housing project application process wherein an annual CDBG allocation will be made to the HDD, who must apply for funding as other organizations and city departments do. CDAC recommendations will be made regarding the annual allocations to HDD, but actual housing projects proposed by subrecipients will be selected by HDD staff and the administration through an open, annual process. There was considerable discussion among CDAC members with regard to the intentions for and methods of CDAC
interaction and oversight of this new process. It was generally agreed that the goal is for CDAC to be informed and to provide continued community input for housing projects.

CDAC members discussed the advantages and shortcomings of the following methods of interaction with the new housing project application process:

− The provision of semi-annual, quarterly, or project-by-project reports about housing activities to CDAC by City staff. One CDAC member voiced concern that written reports do not allow for CDAC to ask questions and may unduly burden HDD staff. CDAC members generally agreed against the provision of reports on a project-by-project basis.

− The formation of a CDAC subcommittee that could be involved in the year-round process, perhaps through briefings by HDD staff. The subcommittee would report back to CDAC as a whole. CDAC members and City staff raised concerns about the format of the subcommittee and applicable requirements of the Massachusetts Open Meeting Laws.

− Two briefings per fiscal year by HDD staff for CDAC as whole, the first in late spring/early summer and the second in October. Several CDAC members expressed support for this suggestion.

− Participation by CDAC members in on-site monitoring visits to housing projects. Concerns were raised with regard to applicable requirements of the Massachusetts Open Meeting Laws.

One CDAC member also suggested developing a short list of items that CDAC would like HDD to report on. The CDAC agreed to have Ed Moynihan develop a written document summarizing proposed methods for CDAC interaction with the housing project application process based on the above discussion and input. He agreed to submit a draft to CDAC members and HDD by the 2/17/15 CDAC meeting. This draft will be an agenda item for the 2/24/15 CDAC meeting. City staff will research and report out on rules and regulations applicable to the formation of a subcommittee and site visits by CDAC members.

5) Adjournment
