New Business

2. 25 Union Street – HC-2019-013 (MBL 02-001-00019)

Petition: Building Demolition Delay Waiver
Petitioner: Angelo Gianakis
Year Built: c1879
Historic Status: MACRIS listed and National Register listed, fka Salisbury Factory Building
Petition Purpose:
• Replace windows

Angelo Gianakis, owner, appeared on behalf of the application.

Mr. Gianakis stated that the windows to be replaced are all currently boarded over or have already been removed, alterations that had been done to accommodate the building’s previous use as a restaurant. He would like to install new windows to match the existing replacements. On the 1st floor 21 windows will be replaced as nine-over-nine aluminum units to match those on the 2nd and 3rd floors. On the 4th and 5th floors 15 windows will be replaced as single pane fixed units to match the others on the corresponding floors. Mr. Gianakis stated this work is necessary for the building’s new use housing offices.

No public comment.

*Upon a motion by Commissioner Theerman and seconded by Commissioner Bloom the Commission voted 5-0 to close the hearing.*

Upon a motion by Commissioner Theerman and seconded by Commissioner Long, the Commission voted 5-0 that the proposed demolition of the historic building located at 25 Union Street is not detrimental to the historical and architectural resources of the city and voted to approve the Building Demolition Delay Waiver.

Exhibit A: Building Demolition Delay Waiver dated March 11, 2019 and received March 18, 2019.

3. 36 Abbott Street – HC-2019-014 (MBL 06-010-00008)

Petition: Building Demolition Delay Waiver
Petitioner: Micozzi Management Inc., on behalf of Abbott Street Realty Trust
Year Built: c1894
Historic Status: MACRIS listed and National Register listed, fka Abbott Street Schoolhouse
Petition Purpose:
• Replace windows

Greg Eaton and Paul Swenson, Micozzi Management, appeared on behalf of the application.

Mr. Eaton stated that they’d like to replace 124 windows. He stated that currently many of the sashes are in deteriorated condition and there have been ongoing issues with efficiency and operability. Mr. Swenson added that all windows have storms and many have interior storms, and tenants have added heavy drapes and other items to try to block air infiltration. The current windows are six-over-two, and the storms have four horizontal segments giving the appearance of the windows being six-over-four. The proposed replacements will have a fixed upper sash of six panes, over a two-over-two double hung. Mr. Eaton stated that currently the height of the meeting rail and the lock is over 70” off the floor, which makes is inaccessible to many people. The proposed new design will lower the meeting rail to be more accessible.
accessible, and the proposed replacements should improve efficiency. Commissioner Bloom expressed concern about the replacement design not matching the current layout, and questioned whether the existing units could be refurbished. Mr. Eaton stated that they spoke with G&O Construction about repairing the windows, but did not pursue this option as it wouldn't have solved the operability concern and the contractor felt that many of the windows would be nearly impossible to restore to their original condition.
