**NEW BUSINESS**

**BUILDING DEMOLITION DELAY WAIVER**

   Petitioner: James Cunningham  
   Year Built: 1925  
   Historic Status: MACRIS listed, FKA M.H. Laipson & Company Dairy

   Petition Purpose:
   • Replace or add 6 architecturally similar windows to the façade  
   • Replace two overhead doors with glass entrances and fieldstone on east elevation of rear addition  
   • Insert one 4’x’ window on the second floor of the north (rear) elevation of rear addition

**BDDW Constructive Grant Deadline: March 20, 2020**

James Cunningham spoke on behalf of the petition. He stated his company has been involved with historic buildings in the past. He stated that with the subject building, both he and the City missed the fact that it was a historic building, and permits for exterior work were issued. When they went for additional permits, the City notified the applicant at that point that it is a historic building. No additional permits were issued. Mr. Cunningham got in touch with Michelle Johnstone in the City’s Planning Division. Ms. Johnstone went to the building to tour it with the applicants and reviewed the MACRIS inventory form with them. Mr. Cunningham stated that no additional improvements have been made since finding out the subject
property is historic. Mr. Cunningham stated he wants to add architecturally similar windows to the building and make general improvements to it.

Mr. Rolle did a roll call for comments from the commissioners.

Commissioner Bloom asked for clarification on what had already been done. He specifically was confused about which windows were going to be replaced. Mr. Cunningham said that the only windows that have been touched thus far were those on the first floor. He stated that the second-story windows have not been touched as they are architecturally sound and there are no plans to remove them. Mr. Cunningham clarified further that two windows previously bricked-in have been replaced with glass windows to match the two existing first-story windows.

Mr. Rolle suggested the Commission go through the items on the petition one by one.

Four new windows on the one-story addition will be inserted and two formerly bricked-in windows would have windows added. The bricked-in openings have already been filled with glass, and the four new windows on the addition have not been added.

Commissioner Long stated that the explanation for why the application is retroactive is solid. Commissioner Wamback agreed. Commissioner Long also stated that she thinks that adding windows to the previously bricked-in openings is an improvement. Commissioners Wamback, Theerman, and Bloom agreed.

Commissioner Bloom stated that he understands that modifications such as those proposed to make the building more functional are sometimes needed and are acceptable. Commissioner Long agreed.

No Public Comment.

Mr. Rolle stated that there is also work proposed in the back of the building, including the replacement of all bay doors on east elevation of rear addition with glass entrances and fieldstone or windows and fieldstone, the replacement of two second-story entrances on the east elevation of rear addition with windows, cutting three additional windows into the second story of the east elevation of rear addition, and inserting four (4) 4'x8' windows on the second floor of the north (rear) elevation of the rear addition. The rear portion of building has already been significantly altered and is not of the same vintage as the main block of the building.

Commissioner Wamback asked if the work would be easily visible from the street. Ms. Johnstone stated that it is visible from Oleum Court but not Shrewsbury Street. The Commission members stated that they were comfortable with the work as proposed.

Upon a motion by Commissioner Long and seconded by Commissioner Theerman, the Commission voted 5-0 to close the public hearing.

Upon a motion by Commissioner Long and seconded by Commissioner Theerman, the Commission voted 5-0 that the proposed demolition is not detrimental to the historical or architectural resources of the City.

List of Exhibits:

Exhibit B: Postponement form dated February 27, 2020, received March 2, 2020.

A short recess was called to get ahold of the applicant.

The applicant identified herself, and the recess was terminated.

5. 179 Shrewsbury Street – HC-2020-023 (MBL 16-033-001+7)

Petitioner: Teresa Travaglio
Year Built: 1925

Historic Status: MACRIS listed; FKA Reliable Auto Radiator Company

Petition Purpose:

- Replace front door
- Open windows on side of building to create opening for patio space
- Remove awning on side of building
- Work is retroactive

_BDDW Constructive Grant Deadline: March 29, 2020_

Teresa Travaglio spoke on behalf of the petition. She stated that the front door has been taken out and a new door has been installed. She did not know that the building was historic. She stated that some walls on the side of the building were opened to allow for a patio space for her restaurant.

Commissioner Wamback asked if the applicant pulled a permit for the work. She stated that she did. After the permit was pulled and the front door had already been removed, she was notified that she would need her work to be reviewed by the Historical Commission. After she found out, she met with Ms. Johnstone to get an application put together. She also stated that the original door was unsafe and couldn’t be locked. She stated that she would be willing to do anything the Commission wanted in order to preserve the building.

Commissioner Bloom stated that he wanted to be sure he knew what he was voting on, noting that the photograph in the MACRIS form showed that the windows on the façade were significantly smaller than the existing windows. He also stated that he doesn’t object to the existing windows, stating that they appear more appropriate than the smaller windows seen in the MACRIS form.

Ms. Johnstone stated that the applicant has not yet done any work to the windows on the façade, and that she is asking for permission to replace them. Mr. Rolle agreed, and stated that the applicant has not done anything to the front windows.

Ms. Travaglio agreed that no changes to the front windows have been made. Work that has been completed thus far is limited to the removal of the front door and opening up the windows on the side of the building. Mr. Rolle noted that the side elevation of the building has been highly altered. Commissioner Bloom agreed that the front façade of the building is the most important piece.

Ms. Travaglio asked what the Commission would like her to do about the columns on the front of the building, and whether she needed to keep them. She asked if she could revamp them or paint them. Ms. Johnstone stated that since she did not include that proposed work on the application, she would need to reapply if she wished to do anything to the columns. Mr. Rolle stated that painting or routine maintenance, however, could be done without review of the Historical Commission.

Ms. Travagilo also stated that the awning on the side of the building has been partially removed because it was in poor condition. She wants to install an awning in its place. Mr. Rolle asked if she was referring to the drive-through section. She answered that that was what she was referring to.

_No public comment._

Upon a motion by Commissioner Long and seconded by Commissioner Theerman, the Commission voted 5-0 to close the public hearing.

Upon a motion by Commissioner Long and seconded by Commissioner Theerman, the Commission voted 5-0 that the proposed demolition, including the addition of the removal of the drive-through awning, is not detrimental to the historical or architectural resources of the City.

_List of Exhibits:_

8. 114 Austin Street – HC-2020-026 (MBL 03-024-00002)

- Petitioner: Prince Mageza
- Year Built: 1863
- Historic Status: MACRIS listed; Local Historic District (LHD); State Register of Historic Places (SR); National Register of Historic Places District (NRDIS); National Register of Historic Places Multiple Resource Area (MRS, FKA Warren Alexander House)

Petition Purpose:
- Demolish carriage house
- Move the existing east front door to the center of the façade (retroactive)
- Add one door to the east elevation (retroactive)
- Remove one door from the east elevation and convert it into a window (retroactive)

**BDDW Constructive Grant Deadline: April 25, 2020**

Mr. Rolle stated that 114 Austin Street is currently in receivership and the applicant no longer has standing for the property. He stated that it is the understanding of staff that the final receiver of the building will file an application once a scope of work is determined. He asked for a motion for a leave to withdraw for the application.

On a motion by Commissioner Long and seconded by Commissioner Theerman, the Commission voted 5-0 to issue a Leave to Withdraw.

**COMMUNICATIONS**

- a. Letter from the MHC regarding the issuance of comments from the MHC for the pending Worcester Boy’s Club National Register Nomination
- b. Letter from the MHC to the Massachusetts Architectural Access Board regarding their support for a variance for the YWCA of Worcester property at One Salem Square

- e. Section 106 Notification of Applicant/Consultant Recording at 44 Hammond Street – No Adverse Effect.
- f. Request from Epsilon Associates for updated Letter of Support for Walker Shoe Factory, 28 Water Street

Ms. Johnstone stated that several letters of support have been issued by the Commission regarding this project.

On a motion by Commissioner Long and seconded by Commissioner Theerman, the Commission voted 5-0 to issue an updated letter of support to Epsilon Associates for the Walker Shoe Factory.

- g. Communication from Bedford Historical Society re: Worcester historical postcards
- h. Request from Epsilon Associates for new Letter of Support for Commerce Building, 340 Main Street

Ms. Johnstone stated that this project will include the addition of market-rate apartment units on the upper stories of the building, and commercial space on the first floor.
Commissioner Long stated that she works in the building and she didn’t realize that apartments would be added to the building. She wasn’t sure if she should vote. Mr. Rolle stated that typically the first time the City hears about these types of projects is during the period when tax credits are applied for. Commissioner Long asked for clarification whether the vote was solely to support the application for tax credits. Mr. Rolle affirmed that that was the case. He also stated that Commissioner Long was welcome to recuse herself if she chose to.

On a motion by Commissioner Long and seconded by Commissioner Theerman, the Commission voted 5-0 to issue a new letter of support to Epsilon Associated for the Commerce Building.

i. Request from Trinity Financial for a Letter of Support for funding from the Massachusetts Preservation Projects Fund for preservation work at the Worcester County Courthouse (added during the meeting).

On a motion by Commissioner Long and seconded by Commissioner Theerman, the Commission voted 5-0 to issue a letter of support for Trinity Financial for funding from the Massachusetts Preservation Projects Fund for the Worcester County Courthouse.
