NEW BUSINESS

Building Demolition Delay Waiver

3. 60 Elm Street – HC-2020-059 (MBL 03-28F-60-12)

Petitioner: Scott Doughman
Year Built: ca. 1940
Historic Status: MACRIS listed, FKA Elm Manor Apartments
Petition Purpose:
- Replacement of existing wood windows with vinyl windows

Chad Minton of Home Depot spoke on behalf of the application. He stated the intent of the application, which was to remove the old windows and put new vinyl windows in. He stated that this is the fifth or sixth job he has sold at this property.

Ms. Johnstone stated that there have been a number of window replacements in the building that were not reviewed by the Commission due to an address discrepancy.

Mr. Rolle asked the applicant if the grids would be raised or if the grids are interior to the glass. Mr. Minton stated that the grids are interior.

Commissioner Theerman asked for clarification on the color of the windows. Mr. Minton stated that the windows would have a creamy white interior color and a dark bronze exterior color. Commissioner Theerman noted that the grids on the original windows are a creamy color and the new windows are brown. The applicant stated that the window color has changed over time due to sun damage.

Mr. Rolle stated that color is an important consideration when considering vinyl replacement windows because vinyl doesn’t take paint well. Commissioner Kurtz agreed, stating that he was hoping to see a consistent series of windows rather than a hodgepodge.

Commissioner Bloom stated he also is concerned with consistency.

Commissioner Kurtz asked if there is a condo directive over replacement of windows. Mr. Minton stated that condo association would need to sign off on the replacement windows.

Mr. Minto stated that he thinks the Commission is on the right path in terms of wanting consistency, and claimed that nobody makes wood windows anymore.

Commissioner Stefani asked for clarification on which windows had already been replaced in the building. Ms. Johnstone clarified.

Commissioner Bloom asked why the windows were being replaced. The applicant stated it is because they are old, single pane wood windows. Commissioner Bloom stated that his windows are approaching 200 years old, and there is no reason to replace them. He stated that windows being old are not, in his opinion, a good reason to replace them. The applicant stated that that can be subjective and it’s someone’s prerogative to replace their windows, and the reason why is none of his business. Commissioner Bloom stated it is, however, the business of the Historical Commission.

Mr. Rolle stated that in large condominium buildings, there reaches a point when some of the windows need to be replaced, so it is best for the Commission to strive for a consistent replacement window. He did note that in this
case, it is unfortunate that the Commission didn’t have an opportunity to review the other replacement windows in the building.

No public comment.

On a motion by Commissioner Theerman and seconded by Commissioner Bloom, the Commission voted 4-0 to close the public hearing.

On a motion by Commissioner Theerman and seconded by Commissioner Bloom, the Commission voted 2-2, with Commissioners Kurtz and Stefani being the yeas, and Commissioners Bloom and Theerman being the nays, that the proposed demolition consisting of replacement windows at 60 Elm Street would not be detrimental to the historical or architectural resources of the City of Worcester and voted to deny the Building Demolition Delay Waiver.
