(August 16, 2017)

To consider a prior fiscal year payment in the amount of $350.00 made payable to Hampstead Hospital for home tutoring services.
GENERAL BUSINESS (continued)

**gb #7-288 - Miss Biancheria**
(August 16, 2017)

Request that the Administration review program and procedural methods that are utilized to advertise the many outstanding strengths of the Worcester Public Schools in order to continue to attract new families to the system.

**gb #7-289 - Miss Biancheria**
(August 16, 2017)

Request that the Administration forward a letter to the City Manager with a request that a traffic engineer do a traffic study near Belmont Street Community School and consider:

- installing a blinking light structure before the crosswalk and
- installing lights on the crosswalk

to protect the safety of all students at the school

**gb #7-290 - Administration**
(August 16, 2017)

To discuss strategy with respect to collective bargaining for Teachers and Units A/B, if an open meeting may have a detrimental effect on the collective bargaining position of the School Committee and the chair so declares.

To discuss collective bargaining for Nurses, if an open meeting may have a detrimental effect on the bargaining or litigation position of the School Committee and the chair so declares.

To discuss collective bargaining for Custodians, if an open meeting may have a detrimental effect on the bargaining or litigation position of the School Committee and the chair so declares.

To discuss collective bargaining for Computer Technicians, (Unit D) if an open meeting may have a detrimental effect on the bargaining or litigation position of the School Committee and the chair so declares.

To consider an International Union of Public Employees (I.U.P.E.) Grievance Complaint – HVAC Technician

X. **ADJOURNMENT**

Helen A. Friel, Ed.D.
Clerk of the School Committee
The School Committee of the Worcester Public Schools met in Open Session at 4:39 p.m. in the Council Chamber at City Hall on Thursday, June 6, 2017.

There were present at the Call to Order:

Miss Biancheria, Ms. Colorio, Mr. Foley, Miss McCullough, Mr. Monfredo, Mr. O'Connell and Mayor Petty

It was moved to recess to Executive Session:

On a roll call, the vote was as follows:

For the motion: Miss Biancheria, Ms. Colorio, Mr. Foley, Miss McCullough, Mr. Monfredo, Mr. O'Connell, Mayor Petty 7

Against the motion: 0 7

The motion carried.

1. gb #7-251 - Administration
   (June 30, 2017)  

   To discuss strategy with respect to collective bargaining for Teachers and Unit A/B, if an open meeting may have a detrimental effect on the collective bargaining position of the School Committee and the chair so declares.

   The School Committee recessed to Executive Session from 4:40 p.m. to 5:20

   The meeting adjourned at 5:21 p.m.

   Helen A. Friel, Ed.D.
   Clerk of the School Committee
The School Committee of the Worcester Public Schools met in Open Session at 4:30 p.m. in the Council Chamber at City Hall on Thursday, July 20, 2017.

The invocation was given by Reverend Dimitrios Moraitis of St. Spyridon Greek Orthodox Church.

The Pledge of Allegiance was offered and the National Anthem was played.

There were present at the Call to Order:

Miss Blancheria, Ms. Colorio, Mr. Foley, Miss McCullough, Mr. Monfredo, Mr. O'Connell and Mayor Petty

1. aor #7-15 - Clerk
   (July 6, 2017)
   To consider approval of the Minutes of the School Committee Meeting of Thursday, June 15, 2017.
   It was moved and voice voted to approve the Minutes of the School Committee Meeting of Thursday, June 15, 2017.

2. ROS #7-11 - Administration
   (July 12, 2017)
   SUPERINTENDENT'S MID-CYCLE REPORT BASED ON HER GOALS
   Superintendent Binienda presented a PowerPoint relative to her Mid-Cycle Report based on her Goals and the feedback from the School Committee was extremely positive.
   Mr. Foley encouraged the Superintendent to continue to participate at the meetings for the development of a community-based Strategic Plan and stressed the need to include the voices of the community as the plan is developed.
He further stated that he was thrilled to see that Dr. O’Neil was appointed as the Deputy Superintendent and suggested that the Superintendent delegate more work to her staff and consider becoming more involved in external partnerships outside the City of Worcester. He suggested that the Superintendent work collaboratively with Superintendents from urban districts to review the recommendations from the Foundation Budget Review Commission in order to put pressure on the State House to increase funding.

It was moved and voice voted to accept the report and file the item.

**GENERAL BUSINESS**

3. **gb #6-153.10** - Administration/Miss Blancheria/ Ms. Colorio/Mr. Foley (June 21, 2017)

Response of the Administration to the following motions to:

- provide a report as to the dollar figure from Durham Transportation due to the failure to fulfill contract obligations
- compare the credits gained from Durham Transportation due to the failure to fulfill contract obligations to the credits received next year with a new person hired to monitor this process
- change the name of the (2000) F. Non-Recurring Textbook Purchases Account to reflect more accurately the use of the monies

It was moved and voice voted to accept and file the responses to the motions.

Miss Blancheria made the following motions:

Request that the Administration study the established bus routes and interact with the Department of Public Works to determine whether there will be any construction projects on these routes that would impact the bus routes.

Request that the Administration provide a similar updated report in January 2018.

On a voice vote, the motions were approved.
Buses/leasing

4. gb #6-328.2 - Administration/Miss Biancheria (June 21, 2017)

Response of the Administration to the request to provide a report on the success of leasing buses.

It was moved and voice voted to accept the report and file the item.

Tatnuck Magnet School/defects and conditions affecting the wall

5. gb #7-103.2 - Administration/Mr. O'Connell/Mr. Foley/Ms. Colorio/Mr. Monfredo/Miss Biancheria (June 21, 2017)

Response of the Administration to the request to address the varied defects and conditions affecting the wall separating the property of Tatnuck School from that occupied by the Tatnuck Square Center, 1097-1099 Pleasant Street, and the land in the vicinity of the wall, which include, and are not limited to:

- the deterioration of parking lot paving in the Center due to erosion from water flowing through the wall
- the location of the Tatnuck School dumpster adjacent to the land of the Center
- the exposed wires along the wall, and
- the deteriorating segments of the wall itself.

It was moved and voice voted to refer the item to the Administration for a report in a Friday Letter.

Mr. O'Connell made the following motion:

Request that the item be referred back to the Administration for a report in a Friday Letter indicating:

- that it assessed the condition of the wall to determine whether or not it would survive until 2019/20 and investigate ways to slow down the deterioration
- that it clean the property around the wall

On a voice vote, the motion was approved.
6. **gb #7-148.3 - Administration/Miss Biancheria**  
(June 28, 2017)  

Response of the Administration to the following motion:

Request that when the Administration provides the report on Durham Transportation at the next meeting that it also reflect if there is an increase in the Capital Budget from the City Manager.

It was moved and voice voted to accept and file the Administration's response to the motions.

Miss Biancheria made the following motion:

Request that the Administration provide an update on the FY18 Capital Improvement Plan in December on what has occurred with the plan from September – December especially the safety issues at the Harlow Street site.

On a voice vote, the motion was approved.

7. **gb #7-218.2 - Administration/Miss Biancheria/  
Mr. O'Connell/Mr. Monfredo/  
Ms. Colorio**  
(June 21, 2017)  

Response of the Administration to the request to provide a grid on the locations and costs for both middle and high school graduations for 2016-17.

It was moved and voice voted to accept and file the item.

8. **gb #7-219.1 - Administration/Miss Biancheria/  
Mr. O'Connell/Ms. Colorio**  
(July 11, 2017)  

Response of the Administration to the request to provide copies of the old and new Job Descriptions for the Clinicians.

It was moved and voice voted to file the item due to the fact that the jobs have been advertised.

It was moved and voice voted to suspend rules to take up the following items together:
9. gb #7-221.2 - Administration/Ms. Colorio
   (June 21, 2017)

To discuss the feasibility of consolidating recognitions to one meeting every two months.

   gb #7-230.1 - Administration/Mr. Foley
   (June 21, 2017)

To ask the Mayor and the Superintendent to develop a new approach to the School Committee agenda that will make the meetings more effective, productive, and deliberative. Suggestions would include the establishment of a consent agenda for items such as routine approvals of donations and recognitions, the development of criteria for recognitions, designated meetings for honoring recipients of recognitions, and the presence on the agenda at each meeting or every other meeting an important educational policy issue facing Worcester Public Schools that school committee members would learn about (through materials distributed prior to the meeting) and discuss with administrators at the meeting.

   gb #7-240.1 - Administration/
               Mr. O'Connell/
               Mr. Monfredo/
               Miss Biancheria
   (June 21, 2017)

To revise the meeting calendar of the School Committee for 2017-18 to add additional meetings of the Committee on the following dates: July 6, August 3, August 31, November 30, March 29, and May 31, so the Committee will meet twice each month during the summer, and on each "fifth Thursday" of months having five Thursdays, to allow the Committee more time in which to address issues of policy, strategic planning, budget planning, and instructional improvement.
To consider an amendment to Rule 20 of the School Committee Rules:

20. Motions requiring a two-thirds (2/3) vote shall be as follows:

   a. amend, repeal, rescind or annul any part of the By-Laws or Rules of Order (It also requires previous notice.)
   b. suspend the Rules
   c. move the question
   d. rescind previous vote
   e. limit or extend one's limit of debate

The City Charter requires the School Committee to obtain five votes to pass any measure which requires a two-thirds vote.

Ms. Colorio made the following motion:

Request that recognition items at a given meeting that are on the agenda merely to set a date be subsumed under one single item with one vote.

On a roll call, the vote was as follows:

For the motion: Ms. Colorio, Mr. Foley, Miss McCullough, Mayor Petty 4

Against the motion: Miss Biancheria, Mr. Monfredo, Mr. O'Connell 3

The motion carried.

Ms. Colorio made the following motion:

Request that all donation items at a given meeting that need roll call approval be subsumed under one item with a single roll call.
On a roll call, the vote was as follows:

For the motion: Ms. Colorio, Mr. Foley, Miss McCullough, Mayor Petty 4

Against the motion: Miss Biancheria, Mr. Monfredo, Mr. O'Connell 3

The motion carried.

Ms. Colorio made the following motion:

Request that all recognitions that require letters of congratulations be included under one item for approval on a voice vote with the caveat that any member can ask to discuss a particular item at the meeting.

On a roll call, the vote was as follows:

For the motion: Ms. Colorio, Mr. Foley, Miss McCullough, Mayor Petty 4

Against the motion: Miss Biancheria, Mr. Monfredo, Mr. O'Connell 3

The motion carried.

Ms. Colorio made the following motion:

Request that items gb #7-221.2, gb #7-230.1, gb #7-240.1 and gb #7-257 relative to issues regarding the current format of the School Committee agenda and items that are filed be referred to the Mayor and Superintendent for further suggestions on how to make the meetings more efficient.

On a roll call, the vote was as follows:

For the motion: Miss Biancheria, Ms. Colorio, Mr. Foley, Miss McCullough, Mr. Monfredo, Mayor Petty 6

Against the motion: Miss Biancheria 1

The motion carried.
10. gb #7-231.1 - Administration/Mr. Monfredo/ 
Mr. O'Connell/Miss Biancheria  
(June 21, 2017) 

To send the backup as was featured on NBC 
"Inspiring America Series" to our elementary 
schools and have them consider working with 
their business partner or PTO on establishing a 
"buddy bench" as we enter the 2017-18 school 
year.

It was moved and voice voted to refer the item to 
the Administration for a Report of the 
Superintendent in October 2017.

11. gb #7-232.1 - Administration/Mr. Monfredo/ 
Mr. Foley/Mr. O’Connell/ 
Miss Biancheria/Mayor Petty  
(June 21, 2017) 

To send letters of congratulations to the following 
students who were selected as the Telegram and 
Gazette’s Student Achievers for 2017:

- Valeria Bergier Burncoat High School 
  (Boston University)
- Viet Le Claremont Academy 
  (Boston College)
- Lindsay Ho North High School 
  (UMass Amherst)
- Travis Tran South High Community School 
  (Yale University)
- Le Tran University Park Campus School 
  (Umass Amherst)
- Lindsey Allen Worcester Technical High School 
  (Bentley University)

It was moved and voice voted to forward letters.

12. gb #7-234.1 - Administration/Miss McCullough/ 
Mr. Foley/Mr. O’Connell/ 
Mr. Monfredo/Miss Biancheria  
(June 21, 2017) 

Request that the Administration report on best 
practices as they relate to itinerant special 
education staff caseloads, specifically for 
occupational therapy and physical therapy 
employees, and what agreements currently exist 
between the Boston Public Schools and the Boston 
Teachers Union related to itinerant special 
education staffing levels and/or caps.
18. gb #7-254 - Mr. O'Connell/Mr. Foley/
Miss Biancheria/Mr. Monfredo/
Ms. Colorio/Mayor Petty
(June 20, 2017)

To congratulate the members of the Worcester
Technical High School Girls 800 Meter Sprint
Medley Relay Team for placing 15th out of 47
teams at the New Balance Nationals Outdoor
competition at Aggie Stadium, in Greensboro,
North Carolina during the weekend of June 17-18,
the 3rd consecutive trip to Nationals for all 4
athletes:

Leilani Torres
Bernice Mensah
Acja Sackor
Stevenna Bowhile
Worcester Technical High School
Worcester Technical High School
Worcester Technical High School
North High School

It was moved and voice voted to forward letters.

19. gb #7-255 - Administration
(June 20, 2017)

To accept a donation in the amount of $350.00 to
Clark Street Developmental Learning School from
the Boston Museum of Science to reimburse the
cost of bussing for the 4th grade field trip that was
held on May 10, 2017.

It was moved to approve the item.

On a roll call, the vote was as follows:

For the motion: Miss Biancheria, Ms. Colorio,
Mr. Foley, Miss McCullough,
Mr. Monfredo, Mr. O'Connell,
Mayor Petty

Against the motion:

The motion carried.

20. gb #7-256 - Mr. O'Connell/Mr. Foley/
Miss Biancheria/Mr. Monfredo/
Ms. Colorio/Mayor Petty
(June 26, 2017)

To recognize, with gratitude and appreciation, the
members of the Worcester Public Schools' staff
who retired during the 2017 fiscal year.
15. gb #7-245.1 - Administration/Administration  
(June 21, 2017)  
Recognition/set date

To set a date to recognize the Alternative School Team for receiving the "Most Creative Use of Materials" Award for the Furniture Trust's Annual Signature event, The Eco Carpentry Challenge 2017, that was held on May 4, 2017 at District Hall in Boston.

It was moved and voice voted to set the date of Thursday, September 7, 2017.

16. gb #7-252 - Mr. O'Connell/Mr. Foley/  
Miss Biancheria/Mr. Monfredo/  
Ms. Colorio/Mayor Petty  
(June 14, 2017)  
Recognition/set date

To set a date to recognize the following Claremont Peer Mediators, who donated a segment of their 2016 summer vacations to be trained through the Center for Nonviolent Solutions, who have helped to resolve the conflicts of their peers throughout the 2016-17 academic year, and who have built a solid foundation for expansion of the program in future years, thus contributing to the peaceful and supportive environment and culture of Claremont Academy:

Yaw Amponsa  
Marigona Bacalau  
Keyla Blanco  
Mileyda Cruz  
Yellybeth Diaz  

Fathi Horror  
Rodrigo Portillo  
Oscar Rosario  
Steven Robles  
Michelle Veth

It was moved and voice voted to set the date of Thursday, September 7, 2017.

17. gb #7-253 - Mr. Monfredo/Mr. Foley/  
Mr. O'Connell/Miss Biancheria/  
Ms. Colorio  
(June 19, 2017)  
Recognition/  
forward letter/  
Simon Eber

Request that the Administration forward a letter of thanks to Simon Eber, grade 8 student at Forest Grove Middle School for giving backpacks to the students in grade six at Columbus Park School and Woodland Academy through the nonprofit organization he established in Worcester, Simon Says Give-Worcester.

It was moved and voice voted to forward a letter.
18. **gb #7-254 -** Mr. O'Connell/Mr. Foley/
Miss Biancheria/Mr. Monfredo/
Ms. Colorio/Mayor Petty
(June 20, 2017)

To congratulate the members of the Worcester Technical High School Girls 800 Meter Sprint Medley Relay Team for placing 15th out of 47 teams at the New Balance Nationals Outdoor competition at Aggie Stadium, in Greensboro, North Carolina during the weekend of June 17-18, the 3rd consecutive trip to Nationals for all 4 athletes:

Leilani Torres
Bernice Mensah
Adja Sackor
Stevonna Bowhille

Worcester Technical High School
Worcester Technical High School
Worcester Technical High School
North High School

It was moved and voice voted to forward letters.

19. **gb #7-255 -** Administration
(June 20, 2017)

To accept a donation in the amount of $350.00 to Clark Street Developmental Learning School from the Boston Museum of Science to reimburse the cost of bussing for the 4th grade field trip that was held on May 10, 2017.

It was moved to approve the item.

On a roll call, the vote was as follows:

For the motion: Miss Biancheria, Ms. Colorio,
Mr. Foley, Miss McCullough,
Mr. Monfredo, Mr. O'Connell,
Mayor Petty

Against the motion:

The motion carried.

20. **gb #7-256 -** Mr. O'Connell/Mr. Foley/
Miss Biancheria/Mr. Monfredo/
Ms. Colorio/Mayor Petty
(June 26, 2017)

To recognize, with gratitude and appreciation, the members of the Worcester Public Schools’ staff who retired during the 2017 fiscal year.
It was moved and voice voted to forward letters.

21. **gb #7-258** - Mr. O'Connell/Mr. Foley/
Miss Biancheria/Mr. Monfredo/
Ms. Colorio/Mayor Petty
(June 28, 2017)

To forward a letter of appreciation to AbbVie, Inc. for its efforts in renovating and refurbishing the science laboratory of Worcester East Middle School.

It was moved and voice voted to forward a letter.

22. **gb #7-259** - Miss Biancheria/Mr. O'Connell/
Mr. Monfredo/Ms. Colorio
(July 10, 2017)

Request that the Administration provide a report relative to the alternative programs at the Gerald Creamer Center to include the day time programs, the evening classes for credit recovery and the work based learning plan opportunities.

It was moved and voice voted to refer the item to the Administration for a Report of the Superintendent in November 2017.

23. **gb #7-260** - Miss Biancheria/Mr. Foley/
Mr. O'Connell/Mr. Monfredo/
Ms. Colorio
(July 10, 2017)

Request that the Administration review the School Choice Program Summary Report which indicated:
- the number of students who opted for inter-district School Choice (502) and the names of the receiving schools and
- the number of students who opted into the Worcester Public Schools (85) from other districts

It was moved and voice voted to refer the item to the Standing Committee on Accountability and Student Achievement.

Ms. Colorio asked the Administration if deadline dates for acceptance into the School Choice Program are the same for inter and intra School Choice students.
Ms. Colorio requested the policy in place for students who enroll in kindergarten from another district and indicate whether the inter-district students get priority over the intra-district students for placement in the first grade if the classrooms are overcrowded.

Mr. O'Connell requested that the Administration consider developing programs in Worcester to accommodate on-line school programs similar to the Mass Virtual Academy in Greenfield and the on-line based school on the South Shore for Worcester and out-of-district students in order to retain those students who desire an on-line school education.

Recognition/set date

24. gb #7-261 - Mayor Petty/Miss Biancheria/
   Ms. Colorio/Mr. Foley/
   Miss McCullough/Mr. Monfredo/
   Mr. O'Connell
   (July 12, 2017)

To set a date to recognize David Perda, Ph.D., Chief Research and Accountability Officer, for his seven years of dedicated service to the students and staff in the Worcester Public Schools.

It was moved and voice voted to set the date of Thursday, August 24, 2017.

Donation/S and S Kitchen/$100

25. gb #7-262 - Administration
   (July 12, 2017)

To accept a donation in the amount of $100.00 from S and S Kitchens for Woodland Academy.

It was moved to approve the item.

On a roll call, the vote was as follows:

For the motion: Miss Biancheria, Ms. Colorio,
   Mr. Foley, Miss McCullough,
   Mr. Monfredo, Mr. O'Connell,
   Mayor Petty 7

Against the motion: 0

7

The motion carried.
26. gb #7-263 - Administration (July 12, 2017)

To accept a donation in the amount of $221.87 from CEC Entertainment, Inc. for Woodland Academy.

It was moved to approve the item.

On a roll call, the vote was as follows:

For the motion: Miss Biancheria, Ms. Colorio, Mr. Foley, Miss McCullough, Mr. Monfredo, Mr. O'Connell, Mayor Petty 7

Against the motion: 0

The motion carried.

27. gb #7-264 - Administration (July 12, 2017)

To accept a donation in the amount of $402.74 from Scholastic, Inc. for Woodland Academy.

It was moved to approve the item.

On a roll call, the vote was as follows:

For the motion: Miss Biancheria, Ms. Colorio, Mr. Foley, Miss McCullough, Mr. Monfredo, Mr. O'Connell, Mayor Petty 7

Against the motion: 0

The motion carried.

28. gb #7-265 - Administration (July 12, 2017)

To accept a donation in the amount of $200.00 from Ballard Mack Sales & Service, Inc. for the South High Community School's Diesel Program.

It was moved to approve the item.
On a roll call, the vote was as follows:

For the motion: Miss Biancheria, Ms. Colorio,
Mr. Foley, Miss McCullough,
Mr. Monfredo, Mr. O'Connell,
Mayor Petty 7

Against the motion: 0
7

The motion carried.

29. gb #7-266 - Administration  
(July 12, 2017)

To accept a donation in the amount of $200.00 from D. Murgo Trucking, Inc. for the South High Community School's Diesel Program.

It was moved to approve the item.

On a roll call, the vote was as follows:

For the motion: Miss Biancheria, Ms. Colorio,
Mr. Foley, Miss McCullough,
Mr. Monfredo, Mr. O'Connell,
Mayor Petty 7

Against the motion: 0
7

The motion carried.

30. gb #7-267 - Administration  
(July 12, 2017)

To accept a donation in the amount of $5,000.00 from the Unum Group as a portion of the costs for the guest speaker for the Opening of Schools Program.

It was moved to approve the item.

On a roll call, the vote was as follows:

For the motion: Miss Biancheria, Ms. Colorio,
Mr. Foley, Miss McCullough,
Mr. Monfredo, Mr. O'Connell,
Mayor Petty 7

Against the motion: 0
7

The motion carried.
31. gb #7-268 - Administration
   (July 12, 2017)

To accept the Level 3 Turnaround Grant for the Goddard School of Science and Technology in the amount of $375,000.

It was moved to approve the item.

On a roll call, the vote was as follows:

For the motion: Miss Biancheria, Ms. Colorio,
   Mr. Foley, Miss McCullough,
   Mr. Monfredo, Mr. O'Connell,
   Mayor Petty
   7

Against the motion: 0

7

The motion carried.

32. gb #7-269 - Mr. Monfredo/Mr. O'Connell/
   Miss Biancheria/Ms. Colorio
   (July 12, 2017)

Request that the Administration provide an update on the feasibility of producing a marketing video about the Worcester Public Schools, in conjunction with key partners within the community, and share it, upon completion, with parent groups, realtors and the business community.

It was moved and voice voted to refer the item to the Administration for an update in October of 2017.

33. gb #7-270 - Mr. Monfredo/Mr. O'Connell/
   Miss Biancheria/Ms. Colorio
   (July 12, 2017)

Request that the Administration continue to develop ways to market the accomplishments of the Worcester Public Schools by increasing the number of media press releases and by encouraging the principals to forward to the media outstanding events that are taking place at their schools.

It was moved and voice voted to refer the item to the Administration.
Mr. Monfredo suggested that the Administration set up an Ad Hoc Committee to better market the Worcester Public Schools by:

- having a quarterly column of student achievements published in all local newspapers in conjunction with assistance from each media outlet
- continuing to have the Superintendent participate in the monthly radio programs
- sharing successes of the school system with the Worcester Chamber of Commerce
- continuing to have the Opening of School Program at the DCU Center.

To consider approval of the enVisionmath 2.0 textbooks, published by Pearson Education, Inc., for students in grades K-6.

Vice-Chairman Monfredo chaired the meeting from 7:20 p.m. to 7:22 p.m.

Ms. Colorio made the following motion:

Request that the Administration provide in a Friday Letter the results of the math assessments in order to have a baseline for comparison purposes for the next academic year.

On a voice vote, the motion was approved.

Mayor Petty made the following:

Request that the School Committee authorize the Superintendent to select the math textbook that will best meet the needs of the students in the Worcester Public Schools.

On a roll call, the vote was as follows:

For the motion: Miss Biancheria, Mr. Foley, Miss McCullough, Mr. Monfredo, Mr. O'Connell, Mayor Petty 6

Against the motion: Ms. Colorio 1

The motion carried.
To discuss strategy with respect to collective bargaining for Teachers and Unit A/B, if an open meeting may have a detrimental effect on the collective bargaining position of the School Committee and the chair so declares.

To consider an International Union of Public Employees (I.U.P.E.) Grievance Complaint – HVAC Technician

To discuss collective bargaining for Nurses if an open meeting may have a detrimental effect on the bargaining or litigation position of the School Committee.

To discuss collective bargaining for Custodians if an open meeting may have a detrimental effect on the bargaining or litigation position of the School Committee.

To discuss collective bargaining for Computer Technicians (Unit D) if an open meeting may have a detrimental effect on the bargaining or litigation position of the School Committee.

It was moved to recess to Executive Session.

On a roll call, the vote was as follows:

For the motion: Miss Biancheria, Ms. Colorio, Mr. Foley, Miss McCullough, Mr. Monfredo, Mr. O'Connell, Mayor Petty 7

Against the motion: 0

7

The motion carried.

The School Committee recessed to Executive Session from 7:31 p.m. to 9:15 p.m.

Mr. Foley left the meeting at 8:40 p.m.

The meeting adjourned at 9:15 p.m.

Helen A. Friel, Ed.D.
Clerk of the School Committee
Educating Teachers

Harvard gets serious about training undergraduates for the classroom.

by Sophia Nguyen
Some of the fellows had graduated from the College, were fluent in left-leaning liberal-arts classroom etiquette. Yet the conversation grew tenser, then tearful, even as everyone insisted they had no real conflict. Someone burst out, frustrated, “I agree with you!”

“It’s not like class,” one of them said, finally, face in hands. “It really matters to me. I feel really attacked. I care so much about this stuff, and when the whole group disagrees with me, I can’t take it.”

Noah Heller, HTF’s master teacher-in-residence for math, interceded gently. “We need to work on tuning together. I don’t hear people disagreeing with you, I really don’t. We’re having a robust discussion.”

“It’s so exhausting. I’m so sorry, I cry all the time.” The fellow took a break. “I’m getting really defensive. I think we all really need to remember that we’re all here to help kids.” At some point, everyone in the circle of chairs had begun holding hands. “There’s not always agreeing or disagreeing,” someone offered helpfully. “Sometimes it’s just—this stuff is really hard, and we’re just trying to figure out what we feel.”

Meanwhile, their other classmates were wrapping up an amicable group problem-solving session, supervised by the English language arts (ELA) master teacher, Sarah Leibel. Told about what had happened on the other side of the room, Leibel responded with upbeat equanimity. It had been a tough first week: “There have been a lot of successes, a feeling of real delight and triumph, as well as feeling discouraged and disappointed in themselves.” Those fellows who’d been educated in excellent, competitive high schools might be experiencing culture shock, she said, while others, more accustomed to under-resourced institutions, saw a school “working hard to turn around.” Leibel continued: “There are all kinds of emotions around that, connected to the kind of schooling you’ve had.”

“Turn around” is something of a technical term. For years, Madison Park teetered on the edge of a “chronically underperforming” designation and state takeover. It had six leadership changes in as many years, a 65 percent graduation rate, and, at least that week, unsupplied girls’ lavatories: after several deliberate floodings, the rolls of toilet paper had been removed. “They’re not mature enough to have toilet paper!” an English instructor informed the fellows, seeming to find the situation much funnier than they did.

The fellows were teaching during a supplemental period ordinarily set aside to prep for state achievement exams. This late in the year, the students mostly spent the time watching movies. “So we’re not doing a ton of harm,” Le concluded. “Like—even if we taught badly? It’s not affecting their grades or their ability to pass these tests. I think that made us feel a bit better.” Madison Park did expose the cohort to “the reality of urban education,” in another fellow’s words; the schools where they would do their residencies the following year were uniformly stronger and better-run. Still, the fellows were troubled by their relative privilege, and more specifically by the thought that their learning resulted from their students’ deprivation. As that fellow put it, “For a lot of us, this was the first time we had seen an urban high school on the brink of failure. That was a shock. And I think there were these questions of—obviously, this is the kind of school that needs the best teachers, and we had never even taught a lesson. What are we doing here?”

Working in an adjoining room during the lab, Stephen Mahoney, HTF’s associate director, compared this classroom exposure to the experience of being a first-time parent: the fellows were shell-shocked, petrified about doing something wrong. Mahoney, who has taught for 26 years and been a school principal for 17, has the jocular energy of a coach in an inspirational sports movie. “Hey, Victor,” he called to Victor Pereira Jr., HTF’s master teacher of science, as he walked in. “Do you remember what it was like, when you and your wife brought home your first kid from the hospital?”

Pereira took up the theme. “They help you put the baby in a car seat, and you’re on your own.” His eyes widened. “You get home and”
“The Ultimate Human Endeavor”

Though the Harvard Teacher Fellows program’s unofficial mantra was, “We are a start-up” (and, later, “We have it covered—kind of”), for senior lecturer Katherine Merseth, Ed.D. ’82, “It has been a long labor of love.”

Until recently, Harvard undergraduates interested in education had two main options. There’s Teach For America (TFA), which runs its corps members through a five-week summer boot camp before the school year, and requires a two-year commitment. At peak popularity, it received applications from nearly 20 percent of the seniors. Though campus attitudes toward the organization have chilled—erupting in 2014 as protests at the College—TFA still recruits aggressively. Then there’s the Undergraduate Teacher Education Program, founded by Merseth in 1985 to certify Harvard undergraduates as teachers. The co-curricular program draws a more committed, smaller crowd—some 20 students are enrolled at any given point, she reported—but many others balk at the prospect of piling fieldwork and coursework onto their existing commitments. “It’s hard on kids’ schedules,” she said. “It’s hard when you’re the only one in your suite of roommates getting up at 7 a.m. to teach.”

Merseth imagined a new pathway: longer, more gradual, and with much more support, instilling newcomers with the practices and mindset to make teaching a sustainable career. The fellows would start coursework at HGSE in their senior year, including discipline-specific training led by “master teachers in residence.” (HTF drew their original three—Heller, Leibel, and Pereira—from the nonprofit Math for America, Brown’s master’s in teaching program, and HGSE’s own Teacher Education Program; all had taught at low-income urban high-schools.) College diploma in hand, the fellows would continue taking education courses while also teaching summer classes in the Boston area. In the fall, placed at high-needs schools in cities nationwide, they would teach a half load, spending the rest of their day on professional development—research, perhaps, or shadowing more experienced teachers. At night, they’d continue their Harvard schooling long-distance and also receive coaching from their HTF mentors. The following summer, they would return to Cambridge for a second round of student teaching and coursework to earn their teaching license, and, if desired, a master’s degree.

HTF would offer up-front, on-the-ground training, without imposing the equivalent of a full-time job on students’ schedules. It intended to ask more of its members—a four to seven-year commitment—without scaring off those undergraduates skittish about declaring themselves “career teachers.” Though the cohort is wholly devoted to the program’s overall social aims, said Mahoney, “I don’t think any of them see themselves doing anything for ‘the rest of their lives.’” Some of the fellows admitted that the four-to-seven figure gave them pause. After being accepted to the program, several gathered in the dining hall to confer: “Is this something we want to do? Is it worth it for us?”

Merseth has called herself the godmother of HTF, but Mahoney went one further: “Kay Merseth is Gaia, as far as this program is concerned,” he said. “The mother of us all.” Fellows often cite her famously oversubscribed lecture course, “Dilemmas of Equity and Excellence in American K-12 Education,” as what drew them to the field. She makes a point of inviting all her students to office hours, and maintains a stack of oversized index cards filled with her notes on their personal interests and backgrounds. “I want them all to come and talk to me,” Merseth said. She has perfected her pitch: leaning in, looking students in the eye, and saying, in no uncertain terms, that they should consider a career in education. Not just policy, but teaching; not higher ed, but children.

“If you love your subject matter, teaching is like eating ice cream,” she said. “And it is endless. Teaching is the ultimate human endeavor.”

Merseth’s original proposal, drawn up in 2003, hovered in committee purgatory until the arrival in 2013 of the school’s new dean, James E. Ryan, who raised $14.5 million for the program’s founding. HGSE unveiled HTF in the fall of 2014, including plans to enroll 40 students in the inaugural class. In the fall of 2015, the program received 28 applications, accepted 22, and wound up with 18 in its pioneering cohort. Still, Merseth holds steadfast to her vision: of a fellowship as coveted and prestigious as a Marshall
or a Rhodes, its design adopted by other universities, and with 100 fellows in each graduating class at Harvard. In a recent interview, she asserted, matter-of-factly, “They’ll get there in two or three years.”

“We Are A Work in Progress”

On a typical day in HTF’s spring semester class, “Introduction to Learning and Teaching,” students entered their lime-green classroom in Longfellow Hall to the soundtrack of Disney’s The Lion King and started on a “Do Now” warm-up activity, like writing responses to passages from the previous night’s reading. Their professor offered little encouragements, odd if heard out of context: “Grammar and spelling don’t matter for this—ideas do,” or, “If you get stuck, go back and re-read your quote,” and again, more emphatically, “If you get stuck, go back and re-read your quote.” (Describing the atmosphere, one fellow said, “In the best way possible, I felt like I was in a high-school classroom again.”) A smartphone mounted on a tripod swiveled silently in the back of the room, recording the goings-on—a test run of the technology that might be used, next year, to observe the fellows remotely in their classrooms.

Meetings often served a dual purpose. First was the content: the tools and methodologies useful for their teaching practices. They learned about Bloom’s Taxonomy of cognitive processes (understand, apply, analyze, evaluate, and create) in order to devise thorough assessments; they read Other People’s Cultural Conflict in the Classroom by Lisa Delpit, Ed.M. ’80, Ed.D. ’84, to mull over what it meant to be “social justice educators.” But the class’s format was its own object lesson. Hallway through, the fellows would be asked to reflect on the opening activity. “What did that get you?” the professor prompted. This left an opening for students who hadn’t done the homework to participate in the lesson, one fellow suggested. It had a low threshold for entry, someone else chimed in, but asked for high critical thinking.

Later in the semester, the fellows began training in their specific subject areas: math, science, English Language Arts, and history. One day in April, the history fellows pored over a text in which Hull House founder Jane Addams decried dance halls. First things first, said HTF director Eric Shed: what did the document say?

“It seems like she’s interested in, like, their bodies as this animalistic thing?” suggested one student. Shed, the unflappable former director of secondary history and social-studies education in Brown’s master’s program, didn’t blink: “How are you going to explain that to children?” he asked, not unkindly. Teaching seemed to ask that first year of teaching. In the spring, Victor Pereira hosted a retreat

Sydney Jenkins ’16, shown here at Chelsea High School, was placed at a charter school in Brooklyn to teach eighth-grade English.

“It’s Hard to Feel Deficient in Everything.”

The numbers say that Chelsea High School, located six miles north of Harvard’s campus, serves 1,521 students. More than a third of those students are considered economically disadvantaged, and more than a quarter are “English Language Learners” (versus 5.6 percent statewide). Absenteeism is chronic. The Massachusetts education department reports that in recent years, the school has narrowed proficiency gaps somewhat, but not enough. Its gains in student achievement are higher than elsewhere in the district, but compared to the rest of the state, Chelsea High especially lags in math and science.

The school could also be described in other terms. Its hallways are sunny and clean, fellow Anthony Schiappa Pietra ’16 pointed out. Student work is displayed on the walls: posters detailing science experiments, summarizing some plot point in the Aeneid. Schiappa Pietra, a self-described “class clown” and “super space cadet,” attended well-off private schools in Miami’s suburbs growing up, but he’d learned to read the walls. These are signs of a classroom culture that tells kids their work is valued, he said, that lets them contribute to their environment. You can tell when a school is cared for.

About a quarter of Chelsea’s students needed to make up classes to move to the next grade or graduate, according to Adam Goodstone, a director of its summer school. “We recruited really aggressively,” he says—visiting classrooms, sending letters to parents inside report cards, and phoning students’ homes. Some 250 students signed up for the 15-day classes, which were pass-fail and had a strict “three strikes” attendance and tardiness policy. The fellows largely ran classrooms in pairs, teaching one lesson each, while supervised by a mentor teacher from the school.

In the early days of summer school, faint anxiety thrummed in
the background. The fellows’ morale was determinedly high. Grace Kossia ’16—a mechanical engineering concentrator from the Democratic Republic of Congo, by way of Texas—conducted a lesson on metrical units. Her system of class participation, drawing names randomly from a cup, was stymied by the fact that only four students had shown up: “He’s not here...she’s not here either...” One floor down, Jonathan Young ’16—a rower who grew a mustache over the summer, perhaps to look older—was momentarily flummoxed by how to get his students started on researching historical photos with laptops. “It’s funny, the little things you don’t know at the beginning,” his mentor teacher, Sam Baker, commented with a smile. “How to break kids up into groups, how to clarify instructions without talking too much.”

Rebecca Park ’16—raised in a family of teachers in Boston—came over to ask Baker, in a whisper, “Do you think it would be good or bad to put on music?” The energy in the classroom seemed low. After a pause, more diplomatic than contemplative, he answered, “I usually don’t.” When it was Park’s turn to lead class, she told the students to stand up. “Let’s have a seventh inning stretch! Whoo!” When it was over, she asked her mentor teacher to turn on the music. “Ways to separate yourself from student pain, or student hurt?” someone asked, grinning. “Like when a kid is doing narrative composition and telling us all the things that’s happening to them,” a third specified. “Or just students.”

The mentor, entering her ninth year of teaching government, seized the room with the unsmiling decisiveness of a drill sergeant. “How big is the cafeteria?” “A murmur. “It’s big, right? If you’re on the red side, can you see what’s going on in line? Well, that would affect what the witnesses could see. Now, imagine that Max’s dad worked at Market Basket [a nearby grocery store] and imagine that Justin’s dad was the new boss...” Her local details grounded the exercise in reality—and unlike the often coaxing style of greener educators, none of her sentences really ended in question marks.

“It’s hard to feel deficient in literally everything,” Park said later. “My mentor teacher keeps telling us to accept that we’re struggling—which we are! We accept it!” She sighed. “But we want to know how to get better.”

As they got deeper into their field experience, the fellows at times seemed visibly impatient with their own coursework, for which they returned to campus in the afternoons. Some of the units were helpful—the one on special education, for instance—but in general, their papers and projects seemed disconnected from their realities. They didn’t want theory; they wanted moves. At the last session of “Education Psychology,” in late July, professor of education Jon Star opened by asking for input about how to structure the remote coursework for the coming academic year. But the requests quickly spiraled:

“I want specific strategies we can use to help students with motivation.”

“Where does empathy enter the picture? Also, maybe we’ll get to this, where does—just super loosely—where does race enter this picture? I think there’s so much there and I don’t want to damage students.”

“I don’t know if this is your area—but, ways to remain sane throughout the year?” someone asked. One of her classmates added, “Ways to separate yourself from student pain, or student hurt?” “Like when a kid is doing narrative composition and telling us all the shit that’s happening to them,” a third specified. “Or just students,” the first fellow deadpanned.

“Is that in the domain of educational psychology class?” someone else asked, grinning.
“My mentor keeps telling us to accept that we’re struggling—which we are! We accept it! But we want to know how to get better.”

Star suggested, tactfully, that their classes should be distinct from group therapy—“though it may be sorely needed,” he added. Eventually, the discussion swung back on-topic: how to instill a sense of autonomy, how important it was to make their students feel good at something. “If they think they can, they will. If they think they can’t, they might not, even if they can,” one fellow said. Another pointed out how an encouragement like, “It’s not as hard as you think,” could accidentally demoralize kids, make them feel stupid. “It is hard, miss,” one of her students had told her.

Since this class would not reconvene until the fall, Star left the fellows with some advice. Starting out, he’d adopted a “teacher persona” that he felt he had to put on and take off—a strenuous performance that had made him unhappy. But over time, those two sides of himself seemed to get closer. He was happiest as a teacher when he felt more like himself, Star said, and he was happiest in his outside life when he felt more like a teacher.

His Harvard students were not completely comforted. “Imagine becoming even more of a teacher?” one asked his peers, under his breath.

“Two more days!” said Evan Weiner ’15—tall, red-headed, unmistakably Californian—greeting the first student who ambled into his algebra classroom. Between sips from a jumbo iced latte, the student corrected him: “One more day.” “Today hasn’t even started yet!” Weiner responded, unruffled. “You’re only, what, two fingers from the end of your coffee?” He turned to greet the next arrivals. “Two more days!” “One more day,” they replied.

The day’s class was on exponential functions, with a life lesson about the power of simple interest sneaked in at the end. But first, Weiner asked them to calculate the total price, with tax, of a pair of Steph Curry’s signature basketball shoes. The “Do Now” exercise was simple, meant to build confidence from the jump. But nearly no one came up with the answer. “I kinda forgot how to do this,” one student volunteered. “You’re already there? All right. I’ll see you in 10, 15 minutes, okay?”—and, hanging up, explained that it was one of his students, “the one who’s failing really badly.” He’d come in early, before the 8:00 a.m. start of class, for extra help.

Two more days!” said Evan Weiner ’15—tall, red-headed, unmistakably Californian—greeting the first student who ambled into his algebra classroom. Between sips from a jumbo iced latte, the student corrected him: “One more day.” “Today hasn’t even started yet!” Weiner responded, unruffled. “You’re only, what, two fingers into your coffee?” He turned to greet the next arrivals. “Two more days!” “One more day,” they replied.

The day’s class was on exponential functions, with a life lesson about the power of simple interest sneaked in at the end. But first, Weiner asked them to calculate the total price, with tax, of a pair of Steph Curry’s signature basketball shoes. The “Do Now” exercise was simple, meant to build confidence from the jump. But nearly no one came up with the answer. “I kinda forgot how to do this,” one student volunteered. Before Weiner could respond, another observed, “You look kinda surprised.”

“Well—I thought this would be an easy warm-up for you, since we talked about your summer jobs the other day. But, if this is hard, that’s fine, let’s talk about it,” Weiner said. He seemed to come to a decision, clapping his hands. “All right then! Let’s do it!”

A girl whose head had been cradled in her arms perked up to answer, “Of a hundred.”

“That’s right!” said Weiner. Her head went back down. He turned to the dry-erase board, muttering, “What’s the easiest way to do this... you can simplify the fraction. You probably know how to do that. You’ve been doing fractions since, probably, the third grade.” Then he changed his mind—they should use decimals instead. And calcula-
tors. After those were distributed, he set the example of a so tube of toothpaste—“That’s an expensive toothpaste, but so it goes”—which had a 10 percent sales tax on top of it. “Tax should only be a couple of dollars, a couple of cents. Tax should not be as much as the price. We’re not—importing caviar,” Weiner explained. “That’s always a good check: does this make sense with what I know about the world?”

The pop-culture caricature of a difficult class is noisy, disruptive, all tough talk and spitballs. What gets less play is the long, suffocating siege against a silence that can mean anything—indifference, sullenness, confusion. Weiner set up a series of problems for the students to work through, and when he was satisfied that they had a handle on percentages, they turned back to the original planned activity: writing values down in a pre-printed table to track the escalating cost of a car loan, left unpaid month to month. Circling the room, he handed out little blue paper tickets (“shout-outs”) to whoever he saw “on-task”—eventually, all of them. Unprompted, a bespectacled student looked up to inform him, “This class actually helped. I didn’t think I would get any better than before. But it’s easier.”

“When you are passing, you can be happy; you can’t be happy if you are failing,” said Yumul, “and so you have to try to pass every test.”

“I think they’re over-achievers,” said one principal. “The first year of teaching has rattled so many people.”

Everyone seemed disengaged (though one student, his curly hair squashed under a Bruins cap, took to the problem so well he asked if there were more like it on the Internet). But the cause of the disconnect was mysterious: did the students not follow the reasoning, or were they uninterested in where it led—since, at the end of the day, this hypothetical kid still had only 41 cents in his pocket.

After class, a couple of especially determined students returned for extra help. In a corner, one conferred with Weiner over a worksheet. Weiner’s Spanish, halting at first, warmed up quickly. “No tiene la misma variable,” he explained, in a murmur. “No se puede combinarlas.” (“You don’t have the same variable—you can’t combine them.”) Meanwhile, Yumul flipped through a make-up quiz while pens stuck through her long plait, Gianina Yumul ’16 sprang into action before the next group entered. Weiner’s class had been her prep period, and while working in the back of the room, she saw the trouble he had and quickly drew up a new worksheet on percentages. She cut a different figure at the front of the room: self-contained, less quick to quip. (“Emotionally level,” her mentors had told her.) Like Weiner, Yumul habitually narrated every action: “I’m going to turn off this projector.”

“This calculator is giving me a hard time.” (The fellows had been taught the value of “giving windows into” why they asked their students to do things, she explained later.) But she also paused to tell the class, “This is summer school, and it is my job to help you understand this. Not only is it my job, but I really want to be here.”

When she sensed they were totally stuck on the car-loan activity, she switched to a different exercise. A boy has a penny, a nickel, a dime, and a quarter in his pocket: how many different sums of money could he make with them? The object of the exercise was twofold: to model a problem-solving strategy, and help students visualize exponential growth by organizing the sums into a kind of tree.

“If someone name a sum for me?” Yumul asked, drawing a table to display their answers on their board. She got only a couple of volunteers, so she began cold-calling: “Not participating is not an option.”

“Thanks. I appreciate it,” Weiner replied. “I had hoped to complete that table by 9 a.m.; they were still working on it by the time the bell rang at 10:30. Weiner raised his voice above their exiting clatter to call, “Be careful with loans! Pay off all your debts! See you last day of summer school.”

Unprompted, a bespectacled student looked up to inform him, “This class actually helped. I didn’t think I would get any better than before. But it’s easier.”

“For their last day, he suggested they come up with a project for extra help. In a corner, one conferred with Weiner over a worksheet. Weiner’s Spanish, halting at first, warmed up quickly. “No tiene la misma variable,” he explained, in a murmur. “No se puede combinarlas.” (“You don’t have the same variable—you can’t combine them.”) Meanwhile, Yumul flipped through a make-up quiz while a skinny boy in a sky-blue shirt stood by, shifting nervously from foot to foot. After entering the grade into an online system, she looked up from the screen with a grin. “You’re passing!” she told him, adding, “You did so much work today.” Relief flooded his face. He asked if he could see for himself, saying, “I thought I was going to fail, like, 61 or something!”

Sitting at the back of the classroom and taking copious notes was the fellows’ Chelsea mentor, Wesley Peacock. When they were alone in the room, Peacock—a business analyst before he’d joined Teach For America—turned to Weiner and Yumul. “What do we think, team?”

“About the day?” asked Weiner.

“About the holding pattern I was in for an hour and a half?” Yumul emitted a classic Peanuts cartoon groan: “Auggghhh!”

In Peacock’s sympathetic assessment, “There was a lot of teeth-pulling today. We worked too hard today.” More experienced teachers, he explained, use less direct instruction in their lessons. Instead, they structure the hour around individual and group activities, checking in with students individually to coach them through tricky bits. “Otherwise,” he said, “it’s hard to build relationships.”

For their last day, he suggested they come up with a project for the kids to work on during class. “Do we feel happy about not doing direct instruction?”

“Somewhere between happy and overjoyed,” Yumul answered.
“I want to emphasize that this does not let you off the hook for planning,” Peacock warned. The best advice he’d ever been given, he said, was to never appear to work harder than your kids in class. All the work happened at home, preparing resources that would guide the process.

They came up with a problem set that ran the gamut of the summer’s math skills, from simplifying algebraic expressions to distinguishing between linear and exponential relationships. What about kids who just didn’t know anything, who struggled with the most basic concepts? Weiner asked. “We’re going to have to brute-force it,” Peacock replied.

The team drafted a battle plan on the whiteboard, planning the flow of exercises so they built on one another, with periodic “stop and checks” where a teacher would review students’ work before they proceeded. “Imagine you’re a student who knows nothing,” Peacock instructed them. “Can you pick this packet up and get all the way to the end?”

They also needed to set a new tone for the class—rearranging the tables, putting on music. “It’ll be important to keep up momentum, going in,” Peacock said. And the students should be paired off strategically—friendly, but not so friendly that they became distracted; people with different strengths. If the pairs had “mixed abilities,” Weiner and Yumul should ask the weaker students how they’d arrived at the answer. Even if they couldn’t do all the math independently, if they at least went through each step and could explain the flow of thought, concluded Peacock, “That’s not nothing.”

“I felt hot during that percentage lesson!” Weiner said, as they exited Chelsea for the day. “Like—bam, here’s a whole lesson out of my sleeve! Check out my adaptive practice!”—the profession’s term of art for thinking on your feet—“Then...” A sigh. “The next hour and a half happened.”

“This Is Gonna Work”

Earlier, in March, Stephen Mahoney had stood at the podium during a conference at which the Harvard fellows would be matched with their schools. What the HGSE faculty so often told the fellows, he also relayed to the administrators looking to hire them: “We’re a work in progress. We’ll be a hot mess in progress, no doubt, for three, four, years.” But no one, he added, would have a bigger impact on what the program could become. “This is a moment you’re going to look back on and say, ‘I was here at the start of this thing.’”

The school leaders seemed prepared. “It’s almost hard to describe all the things that make the first year of teaching difficult,” David Krulwich, the principal of the Urban Assembly School of Applied Math and Science, in the Bronx, said during a recent phone call. He ticked off a few: lesson-planning takes far longer, and when those best-laid plans go awry, first-years are more startled, and—seeing an opening—the class misbehaves even more. Over time, though, “When a kid is doing something nutsy, you say, ‘Okay, I’ve seen this before.’”

The principals also suspected that the Harvard teachers might over-work themselves. In the spring, Shawn Benjamin, Ed.M. ’05, said that the four fellows she had hired for Leadership Public School-Richmond, in California, were already asking if they could take on Advanced Placement classes or extra-curriculars. “It makes me wonder if they’re not aware of what the challenges are. I think they’re overachievers,” she said over the phone, with a small laugh. Recalling her interviews with them, she said, “I think I probed pretty hard, with these guys, about their ability to overcome challenges. I think that might be hard for them because they have been so successful, and the first year of teaching has rattled so many people.”

Straight-A students might be used to pulling all-nighters and writing a great paper, or cramming for a midterm—but “Teaching doesn’t work that way. There is a learning curve,” she said. “How do they see feedback, and how do they see failure, and how do they respond?”

A month later, the fellows took field trips to visit the schools where they’d been placed. During the subsequent class session, they were told to write thank-you cards: one to someone—a colleague, a future mentor, a student—who had made the trip special; the second, said Mahoney, to themselves. “Everyone had a moment when you looked at yourself and said, ‘Yep, this is gonna work.’ I want you to write a note that says, ‘Hey, remember that moment?’”

Round-robin, they shared what they had written. That moment was the school guidance counselor, tearing up over the photos of college-bound students. It was meeting a bunch of juniors actively excited that there’d be math beyond pre-calculus next year. It was gossiping with a bunch of girls in the cafeteria, already feeling liked and trusted. It was sitting with the other fellows on the train to New York City, and feeling at home. It was seeing a principal watch a fellow’s sample lesson, eagle-eyed, then crack a smile.

By summer’s end, the fellows thought that their teaching experiences, from the Madison Park lab to Chelsea’s summer school, had gotten progressively easier, more structured. Another way to look at it, of course, was that they had grown more experienced, more competent. However high their aspirations about the kinds of educators they would be—loved, respected, effective, just—their self-assessments were modestlyamped-down. “We’re not starting at zero,” said Moran. They were nervous—“The first day of school is always terrifying,” Yumul said—but excited. They would get to start fresh in a classroom. They would get to know their students for 180 days, not 15, not five. They could make some real progress. This, they said to themselves, is gonna work.
**Proposed Course Name:** Conceptual Biology  
**Required Prerequisite Course/s:** N/A

**Proposed Course Description:** In the course, students will gain a basic understanding of biological sciences and build reading and writing skills in science. Students will study all levels of life including: cells, tissues, organs, species, and populations. Course topics are directly aligned with the state’s biology standards. Students will learn how observations support the major biological concepts. This course will include laboratory experiments, hands-on classroom activities, and demonstrations. It is designed to acquaint the student with current biological concepts and theories in a readily understandable fashion.

**Essential question/s for the course:**  
How does structure relate to function in living systems from the cellular to organismal to environmental level?

**Standards addressed in the course:**  
LS1 From Molecules to Organisms: Structures and Processes  
LS2. Ecosystems: Interactions, Energy, and Dynamics  
LS3. Heredity: Inheritance and Variation of Traits  
LS4. Biological Evolution: Unity and Diversity

MassCore is a rigorous and comprehensive course study recommended by the Commonwealth as preparation for college and career. MassCore is also the vehicle through which high school students can gain competence in computational, scientific, visual, creative, and critical thinking and can engage opportunities for “hands-on” application and exploration of new areas of knowledge and experiences.

**How does this course support the readiness of students for college and career?**  
Through this course students will deeping their abilities to investigate, analyze and synthesize information and draw conclusions about the world around them which is needed to be successful in college, career and life.

---

**Please Note:**  
All New Course Requests must come through the school principal.
Proposed Course Name: Integrated Math I

Required Prerequisite Course/s:

Proposed Course Credit

G.P.A. Honor Roll

Is proposed course a Career/Vocational Technical Course

Essential question/s for the course:

How are equations and inequalities used to solve real world problems? What are the undefined building blocks of geometry and how are they used? What are functions and how can they be defined? What are the characteristics of a linear function? What real world situations can be modeled by a linear relationship? How do various representations of data lead to different interpretations of the data?

Standards addressed in the course:

- MI.N-Q Quantities
- MI.A_SSE Seeing Structure in Expressions
- MI.A-CED Creating Equations
- MI.A-REI Reasoning with Equations and Inequalities
- MI.F-BF Building Functions
- MI.F-LE Linear, Quadratic and Exponential Models
- MI.G.CO Congruence
- MI.G-GPE Expressing Geometric Properties with Equations
- MI.S-ID Interpreting Categorical and Quantitative Data

MassCore is a rigorous and comprehensive course study recommended by the Commonwealth as preparation for college and career. MassCore is also the vehicle through which high school students can gain competence in computational, scientific, visual, creative, and critical thinking and can engage opportunities for “hands-on” application and exploration of new areas of knowledge and experiences.

How does this course support the readiness of students for college and career?

Through this course students will persevere in solving problems by making sense of them and applying their mathematical thinking which is needed for success in both college and career.
