The survey also noted the use of school staff personal fans being used in schools (but not captured in numbers above).

</tr>
</tbody>
</table>

At this point in the fiscal year, a total of $177,640,875 (49%) has been expended or committed. A description of the projected balances is as follows:

**Budget Impacts:**

**Transportation (-$243,682):** The projected deficit in this account includes the recent agreement of prior year credits, as well as the addition of two mid-size contracted routes due to increased special needs programming.

**Facilities Ordinary Maintenance (-$242,637):** This account reflects an increase in contracted services resulting from vacant maintenance salaries in order to accomplish necessary building repairs and maintenance. The projection assumes the replacement of the vacant positions through the end of the school year, but will be adjusted accordingly based on actual usage.

**Custodial Salaries (-$185,825):** The projected deficit in this account represents the backfill of staff currently receiving workers compensation benefits. The district no longer maintains those positions as vacant due to the ongoing needs at the school locations.

**Transportation Overtime (-$176,709):** The projected deficit in this account represents the transportation for the additional middle school and freshman athletic teams that have been added in the final state budget, as well as the necessary overtime during the startup of school through September to address vacant positions.
Transportation Salaries (-$130,482): This account includes the addition of two large bus drivers due to increased secondary routes for city-wide programming.

Unemployment Compensation (-$88,184): This account represents approximately 50 claims processed through the month of December, approximately 10 claims were carried over from the prior fiscal year. The projected deficit also includes additional potential claims through the end of the fiscal year.

Accounts with Projected Balances to Offset Deficit Accounts:

Teachers ($1,182,101): The projected balance represents vacancy savings of payrolls through the end of December. This is approximately less than 1% of the total budgeted amount. The projection includes the cost of replacement positions through the end of the school year.

Maintenance Salaries ($308,550): The projected balance in this account represents several vacant positions through the end of December. The projection includes the cost of replacement positions through the end of the school year, however some district maintenance will be provided by vendor services.

Health Insurance ($156,995): The projected balance in this account reflects the vacancy of positions in the salary accounts as described within this report.

School Nurse Salaries ($108,495): The projected balance represents vacancy savings of payrolls through the end of December. The projection includes the cost of replacement positions through the end of the school year.

Educational Support Salaries ($104,120): The projected balance represents vacancy savings of payrolls through the end of December. The projection includes the cost of replacement positions through the end of the school year.

Based on the projected balance, the Administration recommends the following actions:

- Provide a new central storage video camera repository to comply with the City of Worcester’s 32 day video storage requirement. By the end of 2020, the district will have more than 1,000 live video cameras operating in the district and will need sufficient storage to handle this capacity. Each day of video will require almost 10 TB of storage and the district will require increasing capacity by 50%, from 196 TB to 331 TB to meet this need. The cost of this equipment upgrade is approximately $400,000.
• Provide a new Custodial Supervisor position as detailed in a recent communication and restructuring of the Facilities Department. The work of addressing outstanding work orders, addressing deferred maintenance projects, ensuring clean and safe work space in all schools and buildings, coordinating all environmental management projects within the district, and managing new school construction and major building projects are the priorities of the district’s Facilities Department. This new organizational structure allows for better alignment within these resources to best support schools and programs. The cost of position is estimated at $40,000 for the remainder of the year and will be added to the FY21 budget.

• Provide an English Language Learner Dual Language Coach for district programming. The cost of position is estimated at $40,000 for the remainder of the year and will be added to the FY21 budget.

• Provide a content teacher to support the recently filled Drug Educator position for secondary students. The cost of position is estimated at $40,000 for the remainder of the year and will be added to the FY21 budget.

• Provide a Guidance Counselor position to support the College and Career Planning program. The cost of position is estimated at $40,000 for the remainder of the year and will be added to the FY21 budget.

• Provide School Adjustment Counselor and Teacher to the Safety Center. The cost of these positions is estimated at $80,000 for the remainder of the year and will be added to the FY21 budget.

• Provide Special Education Teachers to (1) Chandler Magnet and (1) Woodland for increased enrollments. The cost of these positions is estimated at $80,000 for the remainder of the year and will be added to the FY21 budget.

• Provide a Psychologist for system wide for student supports. The cost of position is estimated at $40,000 for the remainder of the year and will be added to the FY21 budget.

• Provide BCBA for system wide Stabilization Team for student supports. The cost of position is estimated at $40,000 for the remainder of the year and will be added to the FY21 budget.

• Provides School Year Clerical position to support the Translation Department volume of processing of all materials that are required for translations. The cost of position is estimated at $20,000 for the remainder of the year and will be added to the FY21 budget.

• Provides additional curriculum for student needs for specific prompting guides estimated at $18,709

• Provides additional instructional assistant for the dual language program located at Woodland Elementary. The cost of position is estimated at $20,000 for the remainder of the year and will be added to the FY21 budget.
In order to provide funds necessary to reflect recent actions, the Administration recommends the following transfer of funds:
