(Dr. Perda) Mr. Monfredo requested that the Administration review the prior action for the item, in particular a public relations plan and a fifth grade student and parent program to introduce the excellent opportunities available at the various middle schools. Mr. Monfredo requested that the Administration provide its responses in February 2014.
Family and Community engagement is a district priority and is a standard of practice under the superintendent evaluation process. The standard reads: “Promotes the learning and growth of all students and the success of all staff through effective partnerships with families, community organizations and other stakeholders that support the mission of the school and district.” As such the district concentrates its efforts to promote the portfolio of options available to our students and parents and advertise the Worcester Public Schools as the preferred school of choice for the Worcester community.

PRIOR ACTION (continued)

10-4-12 - SCHOOL COMMITTEE MEETING - The School Committee approved the action of the Standing Committee as amended. Mr. Monfredo made the following motions:
Request that the School Committee accept the recommendation of the Administration to establish a Title 1 Parent Advisory Council at each Title 1 elementary school to:
- review current district guidelines relative to Title 1 Parent Advisory Councils
- analyze individual schools' PAC Title 1 practices
- review samples of school/family compacts developed during the 2011-12 school year
- make recommendations that will assist schools on strengthening the overall process, to include greater parent participation and the crafting of working/active school/family compacts and to consider holding school meetings during the months of October, December, February, April and June Request that the Administration consider holding a Title 1 District Parent Advisory Council meeting with the co-chair parents of all Title 1 elementary schools in October of each year to set guidelines for the next school year.
On a voice vote, the motions were approved.
Mr. O'Connell made the following motion:
Request that the following motion be amended to read as follows: Request that the Administration provide a report in December with timelines for implementation of the above mentioned motions and consider that all Parent Advisory Council meetings take place during the months of October, December, February, April and June of each school year.
On a voice vote, the motion was approved.

Mr. Monfredo made the following motion:
Request that the Administration provide in May 2014 an update on the progress of the Title I Parent Advisory Council meetings highlighting events that have taken place throughout the year and information regarding the Statewide Parent Advisory Council Program.
On a voice vote, the motion was approved.
Request that the School Committee accept the recommendation to reestablish the Title 1 Parent Advisory Council for the Worcester Public Schools:

The No Child Left Behind Parental Involvement: Title I, Part A Non-Regulatory Guidance (U.S. Department of Education, April 23, 2004), defines parental involvement "...as the participation of parents in regular, two-way, and meaningful communication involving student academic learning and other school activities, including ensuring –

- That parents play an integral role in assisting their child’s learning;
- That parents are encouraged to be actively involved in their child’s education at school;
- That parents are full partners in their child’s education and are included, as appropriate, in decision-making and on advisory committees to assist in the education of their child; and
- That other activities are carried out, such as those described in section 118 of the ESEA (Parental Involvement, section 9101(32)ESEA).

Under the above guidelines and as stipulated by the above definition, districts’ efforts to promote both parental involvement and parental engagement should be diverse so as to accommodate multiple levels of meaningful involvement/engagement by parents/guardians in the education of their children. Congruent with other evidenced based research models to support parental and community engagement, such as the Coalition for Community Schools (www.communityschools.org), and the School and Main Institute from Boston (www.schoolandmain.org), effective models that support sustainable family and community engagement practices by school districts, especially urban school districts are based upon the districts’ development of a diverse portfolio of practices, programs, supports and strategies to actively engage parents/guardians at their level. These recent models of fostering parent and community engagement have been developed as a result of the overwhelming evidence from nation-wide practices that promoting parental participation under discrete forms, such as the proposed form of a Parent Advisory Council, would only make parental involvement/engagement accessible to a small group of parents and under a circumscribed forum, one that does not necessarily maximizes the potential for input and participation from all parents/guardians.

The Worcester Public Schools (WPS) embraces the notion that parents/guardians are invested in the education of their children and are eager to participate in promoting success for their children when meaningful activities, safe and supportive forums, and engaging programs are provided to the student
community and parents/guardians. To this effect, the Division of English Language Learners and Supplemental Support Services (ELL and SSS) has already implemented multiple strategies to craft a portfolio of activities and offerings that not only would maximize opportunities for all parents to become involved in schools and their children’s education but also provide parents with options that allow them to engage and participate at whatever level they are able to, based upon their circumstances. Under such model of promotion of parental involvement/engagement, barriers that typically interfere with parent/guardian participation are either eliminated or accounted for, so that the goals of reaching out and communicating to parents in multiple modalities, and offering options to parents for involvement/engagement at their comfort level are both met. The ultimate goal of the ELL and SSS division is to develop embedded practices of family engagement within the schools, students’ homes and the community, so that schools, parents/guardians and community organizations are all partners in promoting academic excellence and citizenry for all students.

The current instituted practices and initiatives by the Worcester Public Schools that show evidence of the district’s family and community engagement work are listed below:

1. All district schools develop Family and Community Compacts as part of the School Accountability Plan process where they detail events, practices and meetings that will take place at the schools in support of parent/community engagement (attached).
2. All schools have regular School Site Councils with parent representatives.
3. Most schools have Parent Organizations.
4. District conducts yearly surveys to obtain parent input.
5. The Division of ELL and SSS instituted parent surveys for Summer School as of summer 2014. Parent Surveys will also be instituted as common practice for after school and summer programs as of SY 2014-15.
6. The Division of ELL and SSS has formed strong and sustainable partnerships with several community organizations for a variety of purposes, including improvements in family and community engagement practices through community based offerings.
7. Since SY 2013-14, some after school and summer school programs integrated family engagement events to either kick-off programs, promote parental participation and to showcase students’ outcomes. A few examples include theater productions for theater afterschool programs in three schools, and Celebration of ELL Summer Academy both at Worcester state University (ELL Academy Brochure attached). In addition, multiple Family Academy events were held at districts’ schools throughout the year with much success in promoting parent attendance and participation in meaningful activities connecting parents, schools and youth around education.
8. The Founding of the Family and Community Academy of Worcester, a partnership organization that includes the Worcester Public Schools, to support parents/guardians’ engagement in education and the overall development of the whole child. Such organization has already started to develop a portfolio of program offerings for parents/guardians, as well as events that create common-places for parents/guardians, community organizations and schools to communicate, collaborate and innovate within their partnership on behalf of WPS students’ success (Information attached; power point on SC file).

ITEM: Ms. Colorio/Ms. Novick (December 11, 2013)

To refer Health Bill H450 to the Standing Committee on Governance and Employee Issues.

PRIOR ACTION:
12-19-13 - Referred to the Standing Committee on Governance and Employee Issues.
Ms. Novick made the following motion:
Request that the item be amended to read as follows:
   To refer Health Bill H450 to the Standing Committee on Governance and Employee Issues.
On a voice vote, the motion was approved.
Mr. O'Connell made the following motion:
Request that the Ms. Colorio be notified when the item is discussed at the Standing Committee level.
On a voice vote, the motion was approved.

BACKUP: House Bill 450 has been refiled as House Bill 3793.
Annex A (2 pages) contains a copy of H3793.
An Act relative to healthy youth.

Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:

1 SECTION 1. Chapter 71 of the General Laws, as appearing in the 2012 Official Edition, is hereby amended by inserting after Section 32A the following:—

3 Section 32B. (1) For the purposes of this Act, the following terms shall have the following meanings:

5 “Age-appropriate” means topics, messages, and teaching methods suitable to particular ages or age groups of children and adolescents, based on developing cognitive, emotional, and behavioral capacity typical for the age or age group;

8 “Department” means the Department of Elementary and Secondary Education;

9 “Medically accurate” means supported by peer-reviewed research conducted in compliance with accepted scientific methods, and recognized as accurate and objective by leading medical, psychological, psychiatric, and public health organizations and agencies, and, where relevant, published in peer-reviewed journals.

13 (2) Each school district or public school that offers sexual health education shall provide medically accurate, age-appropriate education. Sexual health education under this section shall: teach the benefits of abstinence and delaying sexual activity; stress the importance of effectively using contraceptives and barrier methods to prevent unintended pregnancy and sexually transmitted infections, including HIV/AIDS; teach students the skills to effectively negotiate and implement safer sexual activity; help students develop the relationship and communication skills to form healthy, respectful relationships free of violence, coercion, and intimidation and make healthy decisions about relationships and sexuality; and be appropriate for students regardless of gender, race, disability status, or sexual orientation.
(3) Any school district or public school that utilizes the curricula consistent with the Massachusetts comprehensive health curriculum framework shall be presumed to be in compliance with this section.

SECTION 2. Said Chapter 71 is hereby amended by striking out said section 32A in its entirety and inserting in place thereof the following section:-

Section 32A. Every city, town, regional school district or vocational school district implementing or maintaining curriculum, which primarily involves human sexual education or human sexuality issues shall adopt a written policy ensuring parental or legal guardian notification of the comprehensive sexual health education that the school will provide and the right of the parent or legal guardian to withdraw his or her child from all or part of the instruction, and the process by which said withdrawal is communicated to the school. Said policy shall also advise parents and legal guardians that instruction materials and related items for said curriculum shall be made reasonably accessible to parents and guardians for inspection and review, and shall specify when and where such materials will be available.

To the extent possible, such notification shall be provided in English and in the native language of the parents and legal guardians. If the arrangements for such instruction are made after the start of the school year, to the extent possible, this notification shall be sent out no later than 10 days prior to the start of instruction.

Students whose parents or legal guardians have withdrawn them from all or part of sexual health instruction shall not be subject to disciplinary action, academic penalty, or other sanction. An alternative educational activity shall be made available to students whose parents have excused them from the instruction.

SECTION 3. Section II of Chapter 69 of the General Laws, as appearing in the 2012 Official Edition, is hereby amended by inserting at the end thereof the following:—

(a) No sooner than the academic year 2015-2016, each school district and Commonwealth charter school shall file a report regarding sexual health education in the district with the department every year by a date and in a format determined by the board. Said report shall include, but not be limited to, the following data for each public school district and Commonwealth charter school, by grade level:

a. a description of any sexual health education curricula offered;

b. the approximate number of hours spent on sexual health education;

c. the number of students receiving sexual health education; and

d. the number of students who withdraw from sexual health education, pursuant to section 32A.

Annex B (2 pages) contains a copy of the Superintendent’s bulletin the policy for computer use for staff members.
Worcester Public Schools

Proposed Policy Regarding Employee Use of Social Media, Websites, Blogs, and Other Online Social Tools

I. Purpose
The Worcester Public School District recognizes the importance of technology and the use of modern online tools as a means to educate our students. The District also acknowledges that it has an obligation to protect student data and to maintain professional boundaries between our staff and the community. Everyone working for the District is a public employee and has an obligation to represent themselves responsibly within the community. Employees at all levels are role models for our students, both within the school and out in the community. This policy addresses staff’s use of online tools such as websites, social networks, forums, virtual environments, and other online social tools. The District does not prohibit staff from using social media tools for personal use, but such use is prohibited during the work day except on breaks or when authorized by the principal, Superintendent or designee. In addition, the District prohibits posting any information online that violates state or federal laws or District policies.

II. Statement of Policy
The School Committee recognizes the importance of social media for its employees, and acknowledges that staff has the right under the First Amendment, to speak on matters of public concern. Further, this policy is not meant to infringe on the rights of both union and non-union employees to engage in lawful, concerted activities under MGL Ch. 150E for the purpose of collective bargaining or other mutual aid or protection on social media sites. However, the School Committee will regulate the use of social media by employees, including employees' personal use of social media, when such use:

- interferes or disrupts the work of the school district
- is used to harass coworkers or other members of the school community
- creates a hostile work environment
- breaches student or employee confidentiality, including but not limited to posting data, documents and photographs
- crosses professional conduct or professional boundaries as defined in the Superintendent’s annual bulletins.
- implies that the employee is acting as an agent of the school district by referencing school or district images, logos, official names, or proprietary property

Employees who violate this policy may face discipline up to and including termination, consistent with School Committee policies and/or collective bargaining agreements, if applicable.
III. Definition

Public social media networks are defined as online tools that allow interaction between one or more parties through postings, comments, or messages.

IV. Requirements

All Worcester Public employees are expected to act professionally. Those viewing social media sites may view the employee as a representative of the school and/or the District. This is especially true when the employee is referring to the District, its schools, students, families, programs, activities, employees, or volunteers. The District requires employees to observe the following rules on any social media networks:

A. The employee must not post any information online that violates state or federal laws or District policies.
B. Employees should not use their Worcester Public School’s email address for communications on public social media networks that have not been approved by the District.
C. Employees may not act as a spokesperson for the District or post comments as a representative of the District, except as authorized by the Superintendent or the Superintendent’s designee.
D. Employees may not disclose information on any social media network that is confidential or proprietary to the District, its students, or employees or that is protected by data privacy laws.
E. Employees may not use or post the District logo on any social media network without express written permission from the Superintendent, or designee.
F. Employees may not post images of students on any social media network without written parental consent, except for images of students taken at public events.
G. When referring to the District, its schools, students, families, programs, activities, employees, or volunteers on any social media network, employees must be professional in all communications (text, images, or other). Employees shall not engage in communications or conduct that is harassing, threatening, bullying, libelous, or defamatory, or that encourages illegal activity or the inappropriate use of alcohol, use of illegal drugs, or sexual behavior, or an act recognized as discriminatory under the law.
H. The District recognizes that students, staff, or other members of the public may create social media sites representing clubs, teams, or other student groups within the District. When employees choose to join or interact with these social networking sites, they do so as a de facto representative of the District.
I. Employees have responsibility for maintaining appropriate employee-student relationships at all times and have responsibility for addressing observed inappropriate behavior or activity on these social media networks.

An employee who is responsible for a social media posting that fails to comply with the rules and guidelines set forth in this policy may be subject to discipline, up to and including termination.

SUBJECT: POLICY FOR COMPUTER USE FOR STAFF MEMBERS

- All computers are the sole property of the Worcester Public Schools. All hardware, software, files and documents contained therein are considered to be exclusively the property of the Worcester Public Schools.

- Any unauthorized non-educational use of these resources for personal or business purposes may be cited as a violation of the Worcester Public Schools Policy and may result in possible loss of computer access privileges and/or disciplinary action to the persons or department found in violation.

- Any employee who knowingly misuses the system, including, but not limited to, loading unapproved software which corrupts the system or in any way causes system corruption, may be subject to disciplinary action.

- The Worcester Public Schools reserves the right to remove from the Educational Computer Network at any time, any computer system, hardware, or software which is deemed to be a security risk or is found to be the source of any intrusive hardware, software, or virus.

- Internet use within the Worcester Public Schools Educational Network is for educational research purposes only. Please refer to the WPS Worcester Acceptable Use Policy and EdNet Manual for any and all use of the Internet within the Worcester Public Schools.

For additional information the complete acceptable use policy is attached.

If you have additional questions about these guidelines please contact your supervisor of the Human Resource Manager, Stacey Luster at 508-799-3020.

Attachment

The Worcester Public Schools is an Equal Opportunity/Affirmative Action Employer/Educational Institution and does not discriminate regardless of race, color, gender, age, religion, gender identity, national origin, marital status, sexual orientation, disability, or homelessness. The Worcester Public Schools provides equal access to employment and the full range of general, occupational and vocational education programs. Acceptable Use Policy for Worcester Public Schools Staff

The Worcester Public Schools is pleased to offer staff access to a computer network for Internet use. Access to the Internet and email will enable staff to explore thousands of libraries, databases, museums, and other repositories of information and to exchange personal communication with other Internet users around the world. Staff should be aware that some material accessible via the Internet might contain items that are illegal, defamatory, inaccurate, or potentially offensive. The Internet is to be used for constructive educational purposes only. A filtering system is in place that attempts to deny access to educationally inappropriate sites. It is important to understand that no solution is perfect and at times educational sites may be incorrectly blocked, and conversely, inappropriate sites might not be blocked. The staff is advised never to access, keep, or send anything that they would not want made public.

Privacy - Drives and files may be reviewed by network administrators occasionally to maintain system integrity.

Storage Capacity -- Users are expected to remove or delete unused files or other material that take up excessive storage space.

Software Installation – Commercial software, shareware, or freeware will not be downloaded or installed onto network drives unless approved by the principal and installed by the on-site contact person. Any software that interferes with the operation of the WPS network will be removed.

Inappropriate Materials, Language, or Usage – No impolite, profane or threatening language should be used. A good rule to follow is never view, send, or access materials that you would not want to be made public. The WPS disk space or Internet will not be used for any commercial purposes.

These are guidelines to follow:

1. Do not use a computer to harm other people or their work.
2. Do not damage the computer or cause harm to the network in any way.
3. Do not install any software, shareware, or freeware without going through the contact person.
4. Do not violate copyright laws.
5. Do not view, send, or display offensive messages or pictures.
6. Do not waste limited resources such as disk space or printing capacity.
7. Do not trespass in another’s folders, work, or files.
8. Do not use WPS email or Internet access for any commercial purposes or personal announcements.
9. Do not use WPS email to broadcast announcements or messages to multiple-user groups without prior approval of building or network personnel.

STAFF USER AGREEMENT

As a member of the WPS staff, I have read and agree to comply with this policy. I understand this agreement will be kept on file at the school. (Questions should be directed to the principal for clarification.)
