No change to existing structure and/or parking area proposed or required. The 216 Park Avenue property was a three family dwelling when the property was acquired by the Applicant's parents in 1985. Date of conversion to three family status is unknown. Building constructed in 1890 according to Assessor's records.
VARIANCE FINDINGS OF FACT

Complete the following questions. Your responses should provide justifications as to why the requested Variance(s) should be granted. Attach additional documentation as necessary.

1. Describe how a literal enforcement of the provision of the City of Worcester Zoning Ordinance would involve a substantial hardship, financial or otherwise, to the petitioner or appellant:

   In the absence of zoning relief the Petitioner can not make full use of the excess land area available for productive purposes which presents a financial hardship for the owner of the premises notwithstanding the fact that ample area exists for an additional house lot meeting all applicable dimensional controls to be established.

2. Describe how the hardship is owing to circumstances relating to the soil conditions, shape, and/or topography of the land or structures and how the hardship especially affects said land or structures, but does not affect generally the zoning district in which it is located:

   The requested side yard setback relief is related to the placement of the existing structure on the lot and the need to meet current frontage and area requirements for the new lot to be established in conformity with current dimensional controls. The excess land area available for additional development is atypical for RS-7 zoned lots previously developed.

3. Describe how desirable relief may be granted without detriment to the public good and without nullifying or substantially derogating from the intent or purpose of the City of Worcester Zoning Ordinance:

   The proposal takes into account the underlying intent of the Zoning Ordinance to provide suitable housing for City residents with sufficient area for the use of residents being available. The new lot to be established is to be used for an allowed by right use for a single family dwelling. The remaining area and frontage available for the three family use is more than adequate for said use.

4. Describe how the dimensional variance as it relates to floor space, bulk, number of occupants or other relevant measures, if granted, shall be no greater than the minimum necessary to provide relief from the statutory hardship:

   The requested relief is the minimum required to provide adequate area and frontage for the purposed lot to be established.
SPECIAL PERMIT FINDINGS OF FACT

In the spaces below explain how the adverse effects of the proposed use will not outweigh its beneficial impacts to the City with respect to each of the following considerations per Article II, Section 6(A)(2) of the Zoning Ordinance. (Attach additional supporting documentation as necessary.)

1. Social, economic or community needs that are served by the proposal:
   The proposal will allow for the creation of an additional single family dwelling house lot with no added infrastructure costs to the City while still maintaining adequate area for the existing three family dwelling.

2. Traffic flow and safety, including access, parking and loading areas:
   Applicant anticipates no undue traffic impacts or safety concerns. No change to existing parking for three family dwelling proposed.

3. Adequacy of utilities and other public services:
   Existing utilities and other public services are more than adequate for the proposed use.

4. Neighborhood character and social structure:
   No adverse impacts are expected as a result of the addition of one single family house lot to the neighborhood.

5. Impacts on the natural environment:
   Minimal impacts on the natural environment are expected due to the ability to utilize existing roadways to access the new house lot with limited disturbance to site required.

6. Potential fiscal impact, including city services needed, tax base, and employment:
   Proposal will increase the City’s tax base, provide construction employment when a house is built on the new lot and will utilize existing roadways for access with no additional maintenance costs to be incurred by the City.
WHEREFORE, the applicant(s) requests that this Board grant the special permit(s) as requested above.

Extension, Alteration or Change of a Privileged Pre-existing, Nonconforming Use

(Article XVI, Section 4)

1. Describe what is currently nonconforming about this use:

   The use is nonconforming in that it is a three family dwelling situated in an RS-7 Zone. The property ample area and frontage but the use is no permitted under current zoning.

2. Indicate how long the nonconforming use has been in existence? What year did the use begin? (Check with the zoning ordinance, as amended, that would have been in effect at the time of construction. Past zoning ordinances are available for research at the City Clerk’s office. Past zoning maps are available at the Division of Planning and Regulatory Services)

   The existing house on the property was constructed in 1890 prior to Zoning.

3. At the time the use was initiated, was the use allowed under the then applicable Zoning Ordinance?

   The house on the property is believed to have been built in 1890 and presumably meet zoning requirements, if any, in effect at that time.

4. Describe the proposed extension, alteration or change of use and the total square footage utilized for that use:

   No change to existing structure or associated parking proposed. Alteration seeks to reduce lot area from 24,184 sq. ft. to approximately 16,900 sq. ft. to better utilize area available for housing.

5. Explain how the extension, alteration or change itself complies with the current requirements of the Ordinance:

   Lot reconfiguration will establish a new conforming house lot while meeting all applicable setbacks.

6. Indicate the number of off-street parking spaces currently provided and to be provided for the proposed use; Note:

   In residential districts, the use as extended, altered or changed shall meet the off-street parking requirements of the zoning ordinance.

   No change to existing parking for three family dwelling proposed.

7. Explain how the use as extended, altered or changed will not be substantially more detrimental to the neighborhood than the existing use:

   The lot reconfiguration will still leave substantial area and parking for the existing structure. No change to the structure or the use of the building are required or proposed.

Residential Use allowed only by Special Permit in a particular zoning district

(Article IV, Section 2, Table 4.1)

1. Describe the proposed residential use:

2. Total number of dwelling units proposed, number of bedrooms per unit, and square footage of units:

3. Number and dimensions of off-street parking spaces to be provided and location (garage, driveway). Off-street parking spaces must be located outside of the front yard and exterior side yard setbacks.
