Community Visioning Review Session

Please join us on the evening of Monday, June 22, 2026, from 6:00–8:00 PM for the Community Forum led by Dore and Whittier, Lamoureux Pagano & Associates Architects, and New Vista Design.

The workshop will include a brief overview of the Burncoat Building Project Feasibility Study, its current status, a summary of community visioning feedback including educational priorities and design patterns, and an overview of the project’s key recommendations. Participants will also have the opportunity to share their thoughts, feedback, and concerns regarding the findings presented.

The goals and priorities identified through this and future community engagement sessions will have a direct and tangible impact on the design approach and features of the renovated and/or new school facility. We hope you will consider joining us and sharing your ideas and aspirations for the future of the Burncoat Building Project.

The workshop will start and end on time and cover the following topics:

- Project Overview and MSBA timeline
- Project Update
- Overview of Visioning Feedback including educational priorities and design patterns
- Overview of Key Recommendations
- Question and Answer session in which community members can voice their questions and concerns
