 2. What is the tire size needed or can the trailers be viewed?
The tire sizes vary between ST205/75D15 and ST205/75D14 and appear to be about a 50/50 split. Attached are photos for reference.
 3. Interior lighting electric powered or battery
Electric; some trailers already have battery powered lighting.
 4. Are we to supply the plastic shelving or just install what you have purchased and is it both sides of trailer or one side also dimensions if possible.
The bidder will supply the plastic shelving. Two shelving units should be installed in each trailer, both alongside the same wall. Dimensions aren't available, but a photo of a completed shelving installation is attached for reference.
