

May 2, 2023

To All Proposers:

Subject: **BID #: 7996-1-W3, Hot-In-Place Recycling – Mill Street (M23-2) / DPWP**

ADDENDUM NO. 1

To Whom It May Concern:

With reference to our proposal request relative to the above subject, please refer to the changes/modifications/clarifications to the original proposal request.

- **BID DUE DATE HAS BEEN EXTENDED TO FRIDAY, MAY 5, 2023 AT 10:00 AM**

- PLEASE SEE BELOW QUESTIONS RECEIVED AND RESPONSES FROM CITY:

Is the temporary paint incidental to Item 403.3 or is that paid under another item/contract? **The temporary paint is incidental to item 403.3**

Is there a plan for Item 403.2 showing the locations/limits for the milling? There is no plan. **The limits will be reviewed in the field prior to the start of construction.**

Will the berms be removed prior to the hot-in-place process? The reveal is not much right now and by adding 2" to the roadway, the reveal will be almost nonexistent after the 2" surface course is paved in M23-3 **Roadway edging will not be removed prior to hot in place recycling. The intent of the milling item is to mill 4ft of all curbing after the completion of hot-in-place recycling. The mill depth at the edge of the roadway will be 1-1/2" while the mill depth 4ft off the road will be 0". This will allow for the same reveal as existing at the curb line while allowing for a 1-1/2" overlay**

Bidders are requested to acknowledge and/or include this addendum with submission. All other terms, conditions and specifications remain unchanged.

Very truly yours,

Christopher J. Gagliastro
Purchasing Director
