January 17, 2025

To All Bidders:

Subject: **Bid No. 8356-J5, Barricades (Type 2) + Cones / DPWP**

ADDENDUM NO. 1

To Whom It May Concern:

With reference to our bid request relative to the above subject, please refer to the changes/modifications/clarifications to the original proposal request.

Questions received by this office and responses from The City:

1. Q: For Item # 2, the 36" Lime Cones, is there a certain weight you are looking for? Typically, they come in either a 10LB or 12LB but I couldn't find a weight specification in the Bid Docs.

A: Cones must be a minimum of 10lbs.

2. Q: Do you have a picture of what you're looking for? All the type II barricades I know only come with a 24" x 8" boards."

A: Minimum requirements of a type II traffic control barricade is that it must be a minimum of 24" wide x 36" high not including the flasher. The top bar must be either 8" or 12" and feature orange / white engineer grade or hi-intensity reflective stripes at a 45° angle. The bottom bar must be a minimum of 8" high and must also feature orange / white engineer grade or hi-intensity reflective stripes at a 45° angle.

3. Regarding question two, here is what we are currently using.
