

March 26, 2025

To All Bidders:

Subject: **Bid No. 8366-1-J5 – Fire Alarm Repairs – DCU Center / DPF**

**ADDENDUM NO. 1**

To Whom It May Concern:

With reference to our bid request relative to the above subject, please refer to the changes/modifications/clarifications to the original proposal request.

**General Bid Clarification:**

**1. Please use the updated Specifications Sheet on our open bids page (“8366-1-J5 - DCU Fire Alarm Repair Specifications - Updated Per Addendum 1”, revisions detailed below.**

- a. The revisions are specific to identifying the location of Node 1 (previously noted in a separate location than Node 4) indicating it is located in the same panel as Node 4.
- b. Removing language on the reference drawings that indicated scope that was not part of this project (removed a section of notes previously shown on each reference only drawing sheet).
- c. Lastly, identified the location of the two separate trouble devices that are part of the scope (these were not identified on the reference drawings originally).

Bidders are requested to acknowledge and/or include this addendum with submission. All other terms, conditions and specifications remain unchanged.

Very truly yours,

Jerry S. Kucera  
Buyer
