SUMMARY

KGSNE JV II, LLC. (KGSNE) has completed a Phase I Environmental Site Assessment (ESA) of the property located at 6 Claremont Street in Worcester, Massachusetts (Subject Property). The parcel comprising the subject property is identified by the City of Worcester Assessor's office Tax Maps as 6 Claremont Street (MBL ID: 06-036-00030).

The Subject Property consists of a 0.26-acre property that is currently a vacant lot. The Subject Property is owned by the City of Worcester and was acquired through a tax taking in 2013.

Site Description. The Subject Property is a one quarter acre parcel located at 6 Claremont Street in Worcester, MA, southwest of downtown. The Subject Property is a vacant lot. Subject Property has been developed since at least 1892, according to Sanborn maps. The Subject Property was formerly used as an automotive garage and had several commercial operations including a data processing company, an appliance company, a restaurant supplier, and a central air company.

Previous Environmental Investigations. No previous environmental investigations have been identified for the Subject Property.

Surrounding Area Properties. The Subject Property is in a mixed residential and commercial area of Worcester. Residential properties surround the Subject Property to the north and west. Claremont Street borders the Subject Property to the southwest. Residences lie beyond. To the east of the Subject Property is a parking lot associated with a neighboring residential multi-family home.

Historical Site Use. Sanborn maps show that the Subject Property was developed as early as 1892. By 1936, a new building had been constructed and was used as a garage. A representative of the City of Worcester indicated that the site was used for automotive repair and included the use of oil and automotive fluids. Additional businesses operated from the building beginning in 1968 including a data processing company, an appliance company, a restaurant supplier, and a central air company. In 2013, the Subject Property was foreclosed on after the owner failed to pay taxes.

The Subject Property is in a residential area of Worcester that has been densely populated as early as 1892. Use of the surrounding area mainly includes residential buildings, and some commercial buildings including a piano manufacturer, an undertaker, offices, and auto repair. A review of the surrounding area did not identify any sites that are likely to affect the Subject Property.

Observations. KGSNE observed the Subject Property to be a vacant lot and did not observe evidence of a REC during the site walk.

Environmental Professional Opinion. Based on review of the documentation available for the preparation of this Phase I ESA and the observations made on the Subject Property, it is the opinion of the Environmental Professionals who prepared this assessment that one RECs exist relative to the Subject Property.

REC-1:
The Subject Property was previously used for automotive storage and repairs. Anecdotes from a representative of the City of Worcester revealed use of oil and spills related to automotive fluid on the Subject Property. No reports for previous investigations were available for KGSNE to review to determine whether contamination exists at the Subject Property or not. The possible presence of hazardous materials in soil from historic automotive use constitutes a REC.

1.0 INTRODUCTION

KSGNE JV, LLC. (KGSNE) has completed a Phase I Environmental Site Assessment (ESA) for the property identified by the City of Worcester Assessor's office as 6 Claremont Street (Parcel ID: 06-036-00030) located in Worcester, Massachusetts (Subject Property). The Subject Property is a vacant lot. The location of the Subject Property is depicted in Figure 1 and a Site Plan is included as Figure 2.

This work was performed in accordance with American Society for Testing and Materials (ASTM) E 1527-21, "Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process". This Phase I ESA was completed as part of due diligence requirements in connection with potential purchase and sale of the subject property. ASTM E 1527-21 was approved by the Environmental Protection Agency (EPA) on February 13, 2023.

1.1 Purpose

The objective of this Phase I ESA was to assess environmental conditions at the subject property and vicinity for Recognized Environmental Conditions (RECs), historical RECs (HRECs), Controlled RECs (CRECS) and de minimis conditions associated with the presence of *petroleum products* or *hazardous substances* in conformance with ASTM E 1527-21, "Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process". The ASTM Standard Practice E 1527-21 defines these terms as follows:

> *RECs are the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: (1) The presence of hazardous substances or petroleum products in, on, or at the subject property due to a release to the environment; (2) the likely presence of hazardous substances or petroleum products in, on, or at the subject property due to a release or likely release to the environment; or (3) the presence of hazardous substances or petroleum products in, on, or at the subject property under conditions that pose a material threat of a future release to the environment.*
>
> *HRECs are a past release of any hazardous substances or petroleum products that has occurred in connection with the property and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted use criteria established by a regulatory authority, without subjecting the property to any required controls.*
>
> *CRECs are a recognized environmental condition resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority, with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls.*

De minimis conditions (DMCs) are those situations that do not present a material risk of harm to public health or the environment and generally would not be subject to enforcement action if brought to the attention of the regulating authority.

1.2 Detailed Scope-of-Services

To meet the objectives of the Phase I ESA, KGSNE performed the following tasks:

- Reviewed Massachusetts Department of Environmental Protection (MassDEP) and EPA regulatory database listings concerning environmental conditions at, and in the vicinity of the subject property, as provided by Environmental Data Resources, Inc. (EDR).

- Contacted officials of the City of Worcester, Massachusetts to obtain information pertaining to present and historical environmental conditions at the subject property and adjacent environs.

- Reviewed available history of ownership and land usage records and interviewed persons with knowledge of the subject property to obtain past usage information.

- Reviewed available aerial photographs and/or topographic maps to aid in assessing local geology and in assessing past and present land use at the subject property and vicinity.

- Conducted a reconnaissance of the subject property on July 1, 2024, to assess surficial and general environmental conditions at the subject property and adjacent environs for evidence of RECs associated with past or present *petroleum product* or *hazardous substance* handling or storage activities.

- Prepared this report summarizing the results of the assessment.

No ASTM non-scope items are included as part of this Phase I ESA.

1.3 Significant Assumptions

It is assumed that federal, state, and local records are generally complete and current. The preparer assumes that all individuals contacted and/or interviewed during the preparation of this Phase I ESA have responded in good faith. KSGNE is entitled to rely on all information gathered during this scope of work.

1.4 Limitations and Exceptions

This Phase I ESA is intended to assess the Subject Property for significant environmental issues. It is not intended as a guidance document for potential future remedial action. In addition, this ESA is subject to the limitations included in Appendix A.

1.5 Special Terms and Conditions

No special terms or conditions apply to this project.

1.6 User Reliance

This Phase I ESA has been prepared exclusively for the use of KGSNE's Client. With the exception of release to any third party by KGSNE or the Client, reliance on this report is for informational purposes only. KGSNE makes no warranties to person(s) or entity(ies) other than the Client to rely on the information provided in this report. Any person(s) or entity(ies) wishing to use this information shall do so with the written permission of KGSNE and the contract for which it is intended. Prior approval from KGSNE is required for disclosure of information obtained in this report.

The continued viability of this report is subject to ASTM E 1527-21 Sections 4.6 and 4.8. If this ESA will be used by a different user(s) (third party) than the user(s)for whom the ESA was originally prepared, the third party must also satisfy the user(s) responsibilities in Section 6 of ASTM E 1527-21.

1.7 User Obligations

As defined in ASTM E 1527-21, the user responsibilities are as follows:

- Check title records for environmental liens and activity and use restrictions.
- Disclose specialized knowledge and experience.
- Explain why the purchase price is below market value if it is discounted.
- Answer interview questions in good faith.
- Provide information as outlined in Section 6 of ASTM E 1527-21 including completing the User Questionnaire attached in Appendix B.

For the purpose of this ESA, the *user* is defined as the City of Worcester, Massachusetts. A representative of the *user* provided the information required under Section 3.0, as well as responses to the User Questionnaire.

1.8 Data Gaps

Efforts were made by KGSNE to obtain *user* provided information and review all reasonably ascertainable resources to determine historical uses of the subject property and surrounding properties to identify the possibility of RECs in connection with the subject property. Objectives are completed within the framework of research outlined above; however, data failure may be encountered. As defined by ASTM, data failure or data gaps occur when historical research is reasonably ascertained and reviewed, but the intended objectives have not been met. This ESA was limited by the following:

- The past owners of the Subject Property and adjoining property owners were not interviewed regarding the past usage of the target property. Mr. Peter Dunn, a representative of the City of Worcester, stated the Subject Property was acquired by the City of Worcester through a Tax Title. The property was transferred to the City of Worcester in 2016.

It is the opinion of the Environmental Professionals writing this report that the data gap noted above has not significantly impacted the ability to identify RECs in association with the subject property.

2.0 SUBJECT PROPERTY DESCRIPTION

The Subject Property is a one quarter acre parcel located at 6 Claremont Street in Worcester, MA, in the southwestern portion of the City. The Subject Property is a vacant lot. The Subject Property has been historically developed since at least 1892, according to Sanborn maps. The Subject Property was formerly used as an automotive garage and had several commercial operations including a data processing company, an appliance company, a restaurant supplier, and a central air company.

2.1 Location and Legal Description

The Subject Property is located at 6 Claremont Street Worcester, Massachusetts, and is identified by the City of Worcester as Parcel 06-036-00030. The parcel comprises an area totaling approximately 0.2585-acres and is currently owned by the City of Worcester.

The Subject Property is split between two zoning districts, according to the City of Worcester Zoning Districts Map (updated July, 2023). The southeastern half is zoned as “Limited Business Use” and the northwestern half is zoned as “General Residential”. The Subject Property is in Worcester County.

2.2 Previous Environmental Investigations

No previous environmental investigations have been conducted on the Subject Property.

2.3 Site and Vicinity General Characteristics

The Subject Property is in a mixed residential and commercial area of Worcester. The Subject Property is a vacant lot. Residential properties surround the Subject Property to the north and west. Claremont Street borders the Subject Property to the southwest beyond which lie residential properties. To the east of the Subject Property is a parking lot associated with a neighboring residential multi-family home. Surrounding properties are zoned as "Limited Business Use" and "General Residential".

2.4 Current Use of the Site

The Subject Property is a vacant lot that is partially paved.

2.5 Descriptions of Structures, Roads, Other Improvements on Site

The Subject Property is improved with asphalt, however there is significant grass encroachment, and it is difficult to tell how much of the Subject Property is paved. The parcels are bordered by fences associated with the neighboring properties. There are no buildings on the Subject Property. Vehicular access to the Subject Property from Claremont Street and Silver Street is prevented by a chain and bollards. More details of Subject Property improvements can be found in Section 5.

2.6 Current Use of Adjoining Properties

Multi-family residential properties are situated to the north, east, and west of the Subject Property. Claremont Street borders the Subject Property to the southwest.

2.7 Subject Property Physical Setting

The Subject Property is depicted on the 2021 U.S. Geological Survey (USGS), Worcester North Quadrangle, Massachusetts, 7.5-minute topographic map (Appendix C) at an elevation of approximately 535 feet referenced to the North American Vertical Datum of 1988. The general topography of the Subject Property slopes downward from northeast to southwest.

According to the MassDEP Phase I Site Assessment Map, the Subject Property is not located within a current or potential drinking water source area or environmentally sensitive area. The MassDEP map is included in Appendix C.

Bedrock beneath the subject property is comprised of the Oakdale Formation which consists of metamorphosed thin bedded, pelitic and calcareous siltstone and muscovite schist. The depth to bedrock is unknown.

According to the United States Department of Agriculture's Natural Resource Conservation Service (NRCS) Web Soil Survey, soil beneath the subject property consists of Urban land. Soil type at the subject property is depicted in the NRCS Soil Map included in Appendix C.

The Subject Property is located on the National Flood Insurance Program Flood Insurance Rate Map (FIRM) for the City of Worcester, Massachusetts – Map Number 25027C0614E, effective July 4, 2011. The FIRM image was available in the Federal Emergency Management Agency (FEMA) online database and was reviewed as part of this assessment and is included in Appendix C. The map depicts the Subject Property in Zone X, an area which is an area of minimal floor hazard.

3.0 USER PROVIDED INFORMATION

Mr. Peter Dunn, a representative of the City of Worcester, responded to a User Questionnaire. The completed questionnaire is attached in Appendix B.

3.1 Environmental Liens

The user is not aware of any environmental liens for the subject property.

3.2 Activity and Use Restrictions

The user is not aware of activity and use limitations for the subject property.

3.3 Specialized Knowledge

The user does not possess any specialized knowledge of the subject property.

3.4 Valuation Reduction for Environmental Issues

The purchase price of the Subject Property has not been determined.

3.5 Commonly Known or Reasonably Ascertainable Information

The user indicated that they are aware the Subject Property was previously used as a parking lot.

3.6 Obviousness of Presence of Contamination

The user indicated that they are not aware of any chemicals or spills at the Subject Property. However, the user representative indicated during the Site visit that he is aware that elevated concentrations of arsenic within soil have been detected throughout the city of Worcester.

3.7 Reason for Performing Phase I

The user stated that City of Worcester is preparing to offer the Subject Property to affordable housing redevelopers. Bidders and financial institutes will require a Phase I ESA.

4.0 RECORDS REVIEW

The following sections document the information gathered during review of available environmental records, physical setting sources, and historical site use information.

4.1 Standard Environmental Record Sources

As part of this Phase I ESA, KGSNE reviewed state and federal environmental records in the form of an environmental database report provided by EDR. When available, KGSNE also obtained information from additional federal, state, and local municipal records (i.e., MassDEP and City records review/correspondence). A copy of the EDR database report is included as Appendix D.

The Subject Property was identified in the MassDEP asbestos database. An asbestos work plan for pre-demolition abatement was This listing does not constitute a REC as the database is a historical record and does not indicate a release, and these materials were abated prior to building demolition on April 27, 2010. No abutters were identified in the databases reviewed by EDR or during additional records review performed by KGSNE.

For this database review, EDR identifies the Subject Property as the "Target Property" in the EDR® report. Distances and directions are referenced in the EDR report, and the following sections are in reference to the Subject Property.

The following table identifies and summarizes the databases evaluated by EDR and presents a count for Sites listed in each database.

4.1.1 Federal and State Regulatory Agency Reviews

DATABASE	DESCRIPTION	Radius (miles)	Listings
FEDERAL			
National Priority List (NPL)	The NPL is the EPA's database of uncontrolled or abandoned hazardous waste facilities that have been listed for priority remedial actions under the Superfund Program.	1.0	0
NPL (Delisted)	The NPL (Delisted) database is a subset of the NPL database identifying facilities that have been removed from the NPL when no further response is appropriate.	1.0	0
SEMS Formerly Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS)	SEMS (formerly CERCLIS) tracks sites and remedial activities in support of the EPA Superfund Program. This database contains data on potentially hazardous waste sites reported to EPA by states, municipalities, private companies, and private persons; site proposed for inclusion on the NPL, and sites being assessed for possible inclusion on the NPL	0.5	0
SEMS-ARCHIVE (formerly CERCLIS / NFRAP)	The SEMS-ARCHIVE (formerly CERCLIS-NFRAP) database is a database of archived SEMS facilities at which, to the best of the EPA's knowledge, assessment has been completed and the EPA has determined that no further steps will be taken to list this site on the NPL. This decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be a potential NPL site.	0.5	1
Resource Conservation and Recovery Act (RCRA) CORRACTS/ TSD	The EPA maintains a database of RCRA facilities associated with) treatment, storage, and disposal (TSD) of hazardous waste that are undergoing "corrective action." A "corrective action" order is issued when there has been a release of hazardous waste or constituents into the environment from a RCRA facility.	1.0	1
RCRA Non-CORRACTS/ TSD	The RCRA Non-CORRACTS/TSD Database is a compilation by the EPA of facilities which report storage, transportation, treatment, or disposal of hazardous waste. Unlike the RCRA CORRACTS/TSD database, the RCRA Non-CORRACTS/TSD database does not include RCRA facilities where corrective action is required.	0.5	0

DATABASE	DESCRIPTION	Radius (miles)	Listings
RCRA Generators	The RCRA Generators database, maintained by the EPA, lists facilities that generate hazardous waste as part of their normal business practices. Generators are listed as either large (LQG), small (SQG), or conditionally exempt (CESQG). LQG produce at least 1000 kg/month of non-acutely hazardous waste or 1 kg/month of acutely hazardous waste. SQG produce 100-1000 kg/month of non-acutely hazardous waste. CESQG are those that generate less than 100 kg/month of non-acutely hazardous waste.	0.25	4
Institutional and Engineering Controls	A listing of sites with federal institutional controls (IC) and/or engineering controls (EC) in place to achieve or maintain protection of human health and the environment. ICs include administrative measures, such as groundwater use restrictions, construction restrictions, property use restrictions, and post remediation care requirements intended to prevent exposure to contaminants remaining on site. Deed restrictions are generally required as part of institutional controls. EC include various forms of caps, building foundations, liners, and treatment methods to create pathway elimination for regulated substances to enter environmental media or effect human health.	0.5	0
ERNS	The Emergency Response Notification System (ERNS) is a listing compiled by the EPA on reported releases of petroleum and hazardous substances to the air, soil, and/or water.	0.5	0
STATE			
SHWS	The MassDEP maintains a database of confirmed disposal sites, locations to be investigated, waived, deleted, and reserved facilities in the Commonwealth of Massachusetts.	1.0	247
SWF/LF	State and/or Tribal database of solid waste facilities located within the Commonwealth of Massachusetts. The database information may include the facility name, class, operation type, area, estimated operational life, and owner.	0.5	1

DATABASE	DESCRIPTION	Radius (miles)	Listings
LAST/LUST	State and/or Tribal database of leaking Aboveground storage tanks (LAST) and Underground storage tanks (LUSTs) in the Commonwealth of Massachusetts.	0.5	31
Underground Storage Tanks (UST)/Above Ground Storage Tanks (AST)	State and/or Tribal database of registered USTs/ASTs in the Commonwealth of Massachusetts which may include the owner and location of the USTs.	0.25	0
Institutional Controls	A listing of sites with state IC and/or EC in place to achieve or maintain protection of human health and the environment	0.5	22
MA HW GEN	Permanent generator identification number for Massachusetts generators of hazardous waste and waste oil that have registered with or notified MassDEP of their hazardous waste activities.	0.25	7
ADDITIONAL ENVIRONMENTAL RECORDS			
RI MANIFEST	Hazardous waste manifest information. A manifest is a document that lists and tracks hazardous waste from the generator through transporters to a TSD facility.	0.25	1
Asbestos	Asbestos Notification Listing Asbestos sites.	0.25	TP
Brownfields	State and/or Tribal database of listed and delisted Brownfields Sites	0.5	29
E Manifest	EDR's database of electronic waste manifest tracking.	0.25	2
EDR Hist. Auto	EDR's database of historical autobody shops.	0.5	2
EDR Hist. Cleaners	EDR's database of historical dry cleaners	0.25	2
EDR MPG	EDR's database of manufactured gas plants.	0.5	1
US Brownfields	Federal database of listed and delisted Brownfields Sites	0.5	9
UST Finder Release	EPA's web application of comprehensive state-sourced leaking USTs	0.5	10

Due to the vast number of Sites reported by EDR, KGSNE evaluates facilities to establish relative significance to the Subject Property (i.e., the potential to contribute to an REC at the Subject Property). When feasible, KGSNE limits the discussion of sites identified during records review to only those assumed to pose an environmental risk to the Subject Property.

Typically proximity, elevation, and regulatory status drive this significance evaluation. Active remediation and release sites tracked under the MCP, sites closest to the Subject Property, and Sites upgradient to the Subject Property (where groundwater flows from those sites to the Subject Property) may pose the greatest environmental risk.

Based on these criteria, the following sites warranted further discussion regarding potential impacts to the Subject Property because they had known releases, are located upgradient, and/or are in close proximity to (within a ¼ mile of) the Subject Property:

FACILITY NAME	ADDRESS	ESTIMATED DISTANCE (MI) / DIRECTION	DATABASE LISTINGS
Worcester Comprehensive Childcare	875 Main Street	0.062	SHWS, Release, ASBESTOS
Clark University	18 Claremont Street	0.084	SHWS, RELEASE, ASBESTOS
No. 2 Fuel Oil Release	838 Main Street	0.114	SHWS, LAST, Release, ENF
Catholic Charities of the Diocese of Wor.	15 Ripley Street	0.122	LUST, Release, ENF
Mailloux Residence	106 Woodland Street	0.155	LUST, Release

Based on the remedial actions taken, none of these Sites are likely to impact the Subject Property. Information gathered during the MassDEP file reviews for these sites is provided in Section 4.2. In addition, KGSNE did not identify any open, upgradient MCP sites within a half of a mile of the Subject Property.

4.1.2 Orphan Sites Summary

According to EDR, orphan sites are unmapped facilities that do not contain sufficient address or location information for EDR to evaluate the facility listing locations relative to the Subject Property. The orphan summary contained 21 unmapped facilities. Further research indicated that

all but four facilities were greater than a ½ mile from the Subject Property. The four facilities within a ½ mile all have closed regulatory status and are unlikely to affect the Subject Property.

4.2 Online Resources

Based on the database listings provided by EDR, KGSNE also completed an online database search using the MassDEP Energy and Environmental Affairs Data Portal for select listed facilities. Information pertaining to the select listed facilities identified above are summarized below.

Worcester Comprehensive Childcare – 875 Main Street (RTN 2-15982)
This site is located at 875 Main Street, 0.062 miles south of the Subject Property. This site is downgradient of the Subject Property but was evaluated further due to its proximity. In October 2005, soil samples from test pits had arsenic detections above the reportable concentrations. After the condition was reported, MassDEP assigned the site RTN 2-15982. Corporate Environmental Advisors, Inc., (CEA) drilled fifteen additional soil boring in January 2006 which revealed more arsenic contamination. CEA submitted a Release Abatement Measure (RAM) Plan in August 2006 for soil excavation. MassDEP assigned a second RTN to the site (2-16367) later in August after a soil sample collected during RAM activities had arsenic concentrations above the imminent hazard threshold. MassDEP approved an Immediate Response Action (IRA) for additional soil excavation. CEA removed approximately 419 tons of soil from the site and a Permanent Solution was achieved with a condition of No Significant Risk. Due to the relatively low mobility of arsenic in the environment and remedial actions conducted at the site, RTN 2-15982 is unlikely to affect the Subject Property.

Clark University – 18 Claremont Street (RTN 2-19471)
This site is located at 18 Claremont Street 0.084 miles southwest of the Subject Property. The University received a complaint of petroleum odor in the basement of the facility at 18 Claremont Street on April 10, 2015. The responding LSP took PID readings in the basement and around the building, hypothesizing that oil migrated into the waste pipe and into the basement through a drain. The LSP notified MassDEP of a two-hour reportable condition for which the site was assigned RTN 2-19471. The IRA uncovered a 1,000-gallon UST containing 125 gallons of fuel oil, which was cleaned and removed. The tank had heavy pitting, holes, and corrosion. The IRA also included soil excavation, dewatering, sub-slab air sampling, soil borings, and confirmation sampling. A Method 1 Risk Assessment confirmed a condition of No Significant Risk at the site. Due to the remedial actions conducted at the site, RTN 2-19471 is unlikely to affect the Subject Property.

No. 2 Fuel Oil Release – 838 Main Street (RTN 2-20351)

This site is located at 838 Main Street, 0.114 miles southeast of the Subject Property. On October 27, 2017, 500 gallons of fuel oil was released after two ASTs were damaged and the feed line between the tanks was severed. The Worcester Fire Department notified MassDEP who assigned RTN 2-20351 to the site. The LSP for the site submitted an IRA plan on December 28, 2017. Between March 2018 and August 2019, soil excavation, confirmatory sampling, soil borings, soil sampling, well installation, and groundwater sampling was performed at this site. A Method 3 Risk Characterization was conducted for this site and determined a condition of No Significant Risk and meet the requirements for a Permeant Solution with Conditions, the condition being that the 0 to 5 foot intervals of soil contain consistently elevated concentrations of polycyclic aromatic hydrocarbons (PAHs) attributable to anthropogenic background conditions. Due to the remedial actions and the closed status of the site, it is unlikely to affect the Subject Property.

The Catholic Charities of the Diocese of Worcester – 15 Ripley Street (RTN 2-10720)

This site is located at 15 Ripley Street 0.122 miles southeast of the Subject Property. In 1995, Zecco, Inc. (Zecco) removed a 10,000-gallon UST. Prior to removal, the contractors recovered 2,500 gallons of fuel oil from the UST. Upon removal, Zecco observed two holes in the base of the UST and LNAPL in the bottom of the excavation. Zecco notified MassDEP of the 72-hour release condition. MassDEP assigned RTN 2-10720 to the site. Between 1995 and 1999, several consultants performed remedial activities. Several feet of LNAPL was identified in monitoring wells adjacent to the UST and excavation areas. MassDEP assigned the site a new RTN, 2-11029. In April 1996, a belt skimmer was installed for automated passive recovery of LNAPL. GZA submitted a Phase IV report in February 2000 which outlined the design for a passive LNAPL recovery system. Subsequently, seven new recovery wells were installed. GZA submitted a Temporary Solution Statement in April 2002. A permanent solution could not be met due to the presence of greater than ½ inch of NAPL, and that the passive recovery system with quarterly removal of NAPL via hand bailing was effective to maintain a condition of No Substantial Hazard at the site. The most recent Post Temporary Solution Status and Remedial Monitoring Report from 2022 confirmed that manual recovery continues to be effective in keeping LNAPL thickness stable. Based on the southerly groundwater flow direction across the disposal area, this site is unlikely to affect the Subject Property.

Mailloux Residence - 106 Woodland Street (RTN 2-14901)

This site is located at 106 Woodland Street, 0.155 miles west of the Subject Property. In 2003 ENTECH Environmental Technicians removed fuel oil from a 1,000-gallon UST. ENSTRAT oversaw the removal of the UST and found a hole in the bottom, as well as evidence of leaking in the bottom of the excavation. PID readings constituted a 72-hour reportable condition. MassDEP assigned the site RTN 2-14901. ENSTRAT excavated impacted soil, however some was left in

place as it was too close to the building foundation to be excavated. Groundwater was not encountered above bedrock during the excavation. A Method 3 Risk Characterization determined that there is a condition of No Significant Risk at the site, and a Response Action Outcome (RAO) was submitted in January 2004. Due to the lack of groundwater in the area of contamination, this site is unlikely to affect the Subject Property.

4.3 Municipal Record Review

KGSNE visited the City of Worcester municipal offices on July 1, 2024, to obtain the Parcel Cards from the Assessor's office and view files at the Building and Inspections office. Observed documents included several utility permits for the current building, the 2020 Hazardous Materials Inspection Report, demolition permits for the former building, building plans for an upgrade in 1999, and building inspection reports. The Building and Inspections department did not have any other relevant environmental files pertaining to the Subject Property. In addition, KGSNE contacted the Health Department and the fire department, who did not have files or records of USTs or ASTs on the Subject Property, respectively.

4.4 Historical Use Information on the Site

KGSNE reviewed historical resources including available Sanborn Fire Insurance maps, historical aerial photographs, historical topographical maps, and historical city directories as follows. Historical resources obtained from EDR are provided in Appendix D. Below is a review of the historical information included in the database report.

4.4.1 Sanborn Fire Insurance Maps

EDR provided Historical Sanborn® Fire Insurance Maps for the years 1982, 1910, 1936, 1950, 1978. The EDR® Certified Sanborn Map Report is included in Appendix D. KGSNE obtained the following information during Sanborn Map review:

- **1892** – The Subject Property has a square building in the northeast corner of the parcel. A small 'hot house' is connected to the larger building. The hot house has a glass roof. The buildings around the Subject Property appear to be single or multi-family residences. A piano manufacturer is shown to the north, at the top of the same city block that the Subject Property is on.
- **1910** – The hot house is no longer shown on the Subject Property.
- **1936, 1950, 1978** – The building on the Subject Property is labeled as "Garage" and indicates capacity for 24 cars and that it was built in 1927. The labels also indicate the building has wood beams. An auto sales building is shown south of the Subject Property

on Main Street. The buildings on the two parcels bordering the Subject Property are labeled. One is an office, and the other an undertaker. The piano manufacturer building to the north is now labeled as a loft building.

4.4.2 Historical Aerial Photographs

Historical aerial photographs were provided by EDR® for the years 1938, 1952, 1960, 1966, 1972, 1975, 1985, 1995, 1996, 2006, 2010, 2014, and 2018. The EDR® Aerial Photo Decade Package is included in Appendix D. KGSNE obtained the following information from each aerial photograph:

- **1938, 1952** – The Subject Property is in a thickly settled area. There is a building in the northeast corner of the Subject Property.
- **1960** – Several cars are visible on the Subject Property.
- **1966** – It is hard to discern features on the Subject Property due to the scale of the photo.
- **1972** – The building is present on the Subject Property.
- **1975** - It is difficult to discern features on the Subject Property due to the scale of the photo.
- **1985** – The building is present on the Subject Property.
- **1995** – The western half of the photo is unmapped, and the edge of the photo runs through the center of the Subject Property, however, there appears to be a small corner of the building showing.
- **1996 and 2006** – The building is present on the Subject Property.
- **2010** - It is difficult to discern features on the Subject Property due to the scale of the photo; however, it appears that a structure stands in the place of the building. It is unknown if the building is still standing or if it is the foundation of the demolished building.
- **2014 and 2018** – The Subject Property and surrounding area reflect current conditions.

4.4.3 Historical Topographic Maps

EDR® provided Historical topographic maps for 1886 and 1889 (combined in one map), 1892, 1908, 1918, 1921, 1934 and 1935 (combined in one map), 1939, 1949, 1947 and 1950 (combined in one map), 1948, 1953, 1960, 1973 and 1974 (combined in one map), 1975, 1983, 1985, 2012, 1015, 2018, and 2021. The EDR® Historical Topographic Map Report is included in Appendix D. KGSNE obtained the following information during KGNE's map review:

- Few buildings are shown on the topographic maps, except for large landmarks.
- The topography of the Subject Property is confirmed to be around 540 feet.
- Many nearby features are shown on the earliest maps including Clark University, Main Street, and the City Hospital.

4.4.4 City Directories

City Directory archives list the name of an occupant at an address. The EDR® City Directory Abstract is included in Appendix D. KGSNE reviewed directories dated 1968, 1973, 1979, 1984, 1988, 1992, 1995, 2000, 2005, 2010, 2014, 2017, and 2020. Occupants listed at the Subject Property Address include the following:

- **1968** – Arvco Inc Data Processing Services
- **1973, 1979** – Simplex Appliance Co.
- **1984, 1988** – Darling & Rhodes Co, Inc. Rest Sups
- **1992, 1995** – Central Air Inc.
- **2000, 2005, 2010, 2014, 2017, 2020** – The Subject Property address is not listed.

Additionally, KGSNE reviewed occupants of the abutting addresses. The buildings next to the Subject Property have consisted of multifamily residences. The buildings across Claremont Street have consisted of the Girl's Welfare Society of Worcester and assisted living for special needs adults.

4.4.5 Title Records

KGSNE attempted to establish an ownership and/or title history for the Subject Property using the Worcester Country Registry of Deeds. The table below outlines the Subject Property ownership history dating back to 1986:

Owner	Date of Ownership	Book/Page
City of Worcester	4/25/2013	50785/69
Paul B Richard	5/29/2009	44643/259
Paul B Richard	11/29/1994	16732/299
Paul B Richard and Stephen Westerman	12/31/1986	10117/24
Morton U Israel	--	--

According to the deed, the Subject Property was foreclosed upon after the owner failed to pay taxes.

4.4.6 Site History Summary

Sanborn maps show that the Subject Property was developed as early as 1892. According to Sanborn Maps, the Subject Property had a residential house in the early 1900s. By 1936, a new building had been constructed and was used as a garage. A representative of the City of Worcester indicated that the site was used for automotive repair and included the use of oil and automotive fluids. It's unknown how long the building was used as a garage, but Sanborn Maps indicate that it was still used as a garage in 1978. Additional businesses operated from the building beginning in 1968 including a data processing company, an appliance company, a restaurant supplier, and a central air company. No business is listed for the Subject Property after 2000. In 2013, the Subject Property was foreclosed on after the owner failed to pay taxes.

The Subject Property is in a residential area of Worcester that has been densely populated as early as 1892. Use of the surrounding area mainly includes residential buildings, and some commercial buildings including a piano manufacturer, an undertaker, offices, and auto repair.

5.0 SITE RECONNAISSANCE

KGSNE visited the subject property on July 1, 2024, to observe general site conditions. All portions of the subject property were made accessible during the site visit. General features for the Subject Property are shown on Figure 2. Site photographs are provided on Appendix E.

5.1 General Site Setting

The Subject Property is located in a residential area and is abutted by residential parcels as well as Claremont Street and Silver Street. The Subject Property is vacant and has no structures on it.

5.2 Site Observations

The Subject Property is a long, rectangular parcel off Claremont Street. Metal bollards and a chain prevent vehicular traffic on the Subject Property. The portion of the Subject Property closest to Claremont Street is paved. There is significant grass encroachment throughout the Subject Property making it difficult to tell where the pavement ends. Patches of concrete and pavement are visible in the grass. The grass is low and appears to get mowed periodically. Near Claremont Street is a rusted metal sign pole. A skinny driveway connects the Subject Property to Silver Street. The driveway is paved; however the asphalt is in poor condition. A chain link fence separates the

driveway and the abutting property on the north side. Heavy vegetation grows on the south side. Fences and retaining walls separate the Subject Property from neighboring parcels.

The Subject Property has two electrical poles. One, located near the driveway, has a transformer on it. The other, located in the northeast corner, has several low hanging lines.

The Subject Property has a sharp drop in it, with a slope down the middle. The northwestern half of the Subject Property slopes gently, in the middle the grade has a drastic drop, while the southeastern side is much lower in elevation and relatively flat.

KGSNE observed evidence of trespassers on the Subject Property including a couch, garbage, and bikes in the northeast corner.

5.3 Vapor Encroachment Screening

As specified in the ASTM E1527-21 standard, KGSNE completed a vapor encroachment screening (VES) for the Subject Property. The screening was prepared in general compliance with ASTM E2600-15, *Standard Guide for Vapor Encroachment Screening on Property Involved in Real Estate Transactions*. The objective of the VES was to determine if a vapor encroachment condition (VEC) exists or does not exist relative to the subject property. A VEC is defined as

> "*the presence or likely presence of chemical(s) of concern (COC) vapors in the vadose zone of the subject property caused by the release of vapors from contaminated soil and/or groundwater either on or near the subject property.*"

A VEC is a potential exposure pathway, specifically to building occupants, whereby volatile organic contamination present in soil and groundwater may partition into the vapor phase and migrate into soil gas and indoor air of a building, if present.

KGSNE did not identify any open, upgradient MCP sites within a half of a mile of the Subject Property. Since there is no history of past releases on the Subject Property or abutting properties, vapor encroachment is not a concern for the Subject Property.

6.0 INTERVIEWS

6.1 Interview with Current Property Owner

An interview was conducted with Mr. Peter Dunn, a representative of the City of Worcester on July 1, 2024, during the site visit. Mr. Dunn recalled the Subject Property being developed with buildings prior to the paved parking lot but could not recall the dates.

6.2 Interviews with Occupants

The Subject Property has no occupants.

6.3 Interviews with Local Government Officials

Refer to Section 4.3 for additional information collected from representatives of the City of Worcester.

6.4 Interviews with Others

KGSNE did not interview any others.

7.0 FINDINGS

KGSNE presents the following findings of the ASTM E1527-21 Phase I ESA for one parcel located at 6 Claremont Street in Worcester, Massachusetts. The parcel subject to this Phase I ESA is Parcel 06-036-00030, as identified by the City of Worcester Assessor's Office.

- The Subject Property is a one quarter acre parcel located at 6 Claremont Street in Worcester, MA, southwest of downtown.
- The Subject Property is a vacant lot.
- The Subject Property is in a mixed residential and commercial area of Worcester. The residential properties and Claremont Street abut the Subject Property. Surrounding properties include residences and some commercial buildings.
- The Subject Property was identified in the asbestos database since asbestos containing materials were identified in the previous building during a pre-demolition survey. This listing does not constitute a REC as the database is a historical record and does not indicate a release, and these materials were presumably abated prior to building

demolition. Furthermore, no residual building materials were noted during the site reconnaissance performed on July 1, 2024.

- KGSNE's review of conditions at adjoining and surrounding properties did not identify potential impacts to the Subject Property.
- The Subject Property was developed as early as 1892. By 1936, The Subject Property was used as a garage and for automotive repair. Additional businesses operated from the building on the Subject Property including a data processing company, an appliance company, a restaurant supplier, and a central air company.

  KGSNE observed the Subject Property to be a vacant lot and did not observe evidence of a REC during the site walk.

8.0 OPINION

The Opinion of the ASTM E 1527-21 Phase I ESA defines the environmental professional's determination of the impact to the subject property (i.e., REC, HREC, CREC, DMC) of the conditions identified in the Findings (Section 7.0) and presents the logic and reasoning for making that determination. KGSNEs opinions regarding the findings of this Phase I ESA, based upon our review of the municipal and historical information available for the Subject Property and adjoining properties, as well as the observations made during this Phase I ESA, are detailed below.

Recognized Environmental Conditions
One REC is associated with the Subject Property.

REC-1: The Subject Property was previously used for automotive storage and repairs. No reports for previous investigations were available for KGSNE to review to determine whether contamination exists at the Subject Property or not. The possible presence of hazardous materials in soil from historic automotive repair use constitutes a REC.

Historical Recognized Environmental Conditions
No Historical RECs were associated with the subject property.

Controlled Recognized Environmental Conditions
No Controlled RECs are associated with the subject property.

De Minimis Conditions
No DMCs were identified to be associated with the subject property.

9.0 CONCLUSIONS

In accordance with ASTM Practice E 1527-21 requirements, the Environmental Professionals that prepared this Phase I ESA provide the following Statement of Conclusion:

KGSNE has completed a Phase I Environmental Site Assessment in conformance with the scope and limitations of ASTM Practice E 1527-21 of the parcels identified by the City of Worcester as 6 Claremont Street. Any exceptions to, or deletions from, this practice are described in Sections 1.4 and 10.0 of this report.

This assessment revealed evidence of one REC, no HRECs, and no CRECs in connection with the Subject Property as described in Section 8.0.

10.0 DEVIATIONS

No substantive deviations from ASTM E 1527-21 were encountered during performance of this Phase I ESA. Limitations of this Phase I ESA are detailed in Section 1.4.

11.0 ADDITIONAL SERVICES

Additional Services are assessments, recommendations, or other details beyond the scope of ASTM Practice E 1527-21. No additional services were conducted as part of this assessment.

13.0 QUALIFICATIONS OF ENVIRONMENTAL PROFESSIONALS

In accordance with ASTM Practice E 1527-21 12.13, KGSNE provides the following statements of qualification:

We declare that, to the best of our professional knowledge and belief, we meet the definition of *environmental professionals* as defined in §312.10 of 40 CFR 312. We have the specific qualifications based on education, training, and experience to assess a *property* of the nature, history, and setting of the subject property. We have developed and performed all the appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

The qualifications of the *environmental professionals* who prepared, or supervised the preparation of, this report, and who are signatories of this report, are provided below.

Adam Roy, LSP, CHMM
Senior Project Manager

- Over 23 years of experience conducting various investigations to identify the extent of airborne, soil, and groundwater organic and inorganic contamination at residential, commercial, and industrial sites. Researched historical federal, state, local, and commercial records to collect background information for numerous environmental projects.
- Performed or overseen numerous Phase I and Phase II ESAs and other environmental projects involving research, investigation, and data assessment of historical and current site conditions on current or former residential, commercial, and industrial properties. Investigations have included identification, assessment, and delineation of petroleum and hazardous substances released to the environment or with the potential for release to the environment.
- Project responsibilities have included interaction with clients and regulators; coordination and oversight of subcontractors; data collection, interpretation, and presentation; and report preparation. Acts as technical lead or senior project manager on numerous hazardous waste site investigations and remedial actions.

Patrick Moran
Staff Scientist

- Over 6 years as a scientist with project responsibilities that include collection of soil, groundwater, sediment, and surface water samples to identify the extent of airborne, soil, and groundwater contamination at residential, commercial, and industrial sites.
- Evaluation and interpretation of data and presentation of results to aid in the remedial process for contaminated sites.

Bridget Fortier, EIT
Project Engineer

- Over 4 years as an engineer with project responsibilities that include leading various investigations to identify the extent of airborne, soil, and groundwater contamination at residential, commercial, and industrial sites as well as the interpretation and presentation of results.
- Performed numerous Phase I ESAs involving research, investigation, and data assessment of historical and current site conditions on large and small properties.
- Trained and supervised staff performing Phase I Environmental Site Assessments, mixed media sampling, and data review.

APPENDICES

APPENDIX A

LIMITATIONS

1) These environmental services were performed in accordance with generally accepted practices of other consultants undertaking similar assessments at the same time and in the same geographical area. The results of this assessment are based on our professional judgment and are not scientific certainties. Specifically, KGSNE does not and cannot represent that the site contains no hazardous wastes, oil, or other latent conditions beyond those observed during this assessment. No other warranty, express or implied, is made.

2) The observations and conclusions presented in this report were made solely on the basis of conditions described in the report and not on scientific tasks or procedures beyond the scope of described services or the budgetary and time constraints imposed by the client. The work described in this report was performed in accordance with the terms and conditions of our contract. No other warranty, express or implied, is made.

3) Observations were made of the site as indicated in this report. Where access to portions of the site was unavailable or limited, KGSNE renders no opinion as to the presence of hazardous wastes or the presence of indirect evidence of hazardous wastes in that portion of the site.

4) No property boundary, site feature, or topographic surveys of the site were performed by KGSNE unless specifically indicated in the text of the report.

5) No sampling or testing was performed for the presence of dioxins, furans, pesticides, herbicides, radon, lead paint, urea-formaldehyde, asbestos, or polychlorinated biphenyls (PCBs) at the site unless specifically indicated in the text of the report.

6) Except as noted within the text of the report, no quantitative laboratory testing was performed as part of this assessment. Where such analyses have been conducted by an outside laboratory, KGSNE has relied upon the data provided and has not conducted an independent evaluation of the reliability of these data.

7) Chemical analyses have been performed for specific parameters during this site assessment, as described in the text of the report. Additional chemical constituents not searched for during the current study may be present in soil and/or groundwater at the site.

8) This report has been prepared for the exclusive use by the U.S. Environmental Protection Agency and/or the City of Worcester, Massachusetts solely for use in an environmental evaluation of the site. This report shall not, in whole or in part, be conveyed to any other party, other than those authorized by the U.S. Environmental Protection Agency and/or the City of Worcester, Massachusetts without prior written consent of KGSNE.

APPENDIX B

ASTM E 1527-21 PHASE I ENVIRONMENTAL SITE ASSESSMENT

USER QUESTIONNAIRE

Section 1 - General

The information requested in this section is intended to assist the environmental professional but is not necessarily required to qualify for one of the Landowner Liability Protections (See Section 2).

(1.) Why is the Phase I Environmental Site Assessment required?

We are preparing to offer this site for affordable housing redevelopment. Initial outreach to the development community have led to questions about environmental conditions in order for them to be interested in bidding. In addition any lender involved in the sale and/or project will require the report.

(2.) What is the type of property and type of property transaction (sale, purchase, exchange, etc.)?

Currently a vacant lot with asphalt in certain areas. After following the public procurement guidelines for the sale offering, we intend on granting a Quitclaim Deed to the successful bidder.

(3.) What is the complete and correct address of the property?

6 Claremont Street, Worcester, Masaschusetts

(4.) What is the scope of services desired for the Phase I?

As described in the contract / work scope Yes X No___

If No, please explain.

Are any considerations beyond the requirements of Practice E 1527 to be addressed?

Yes___ No X

If Yes, please explain.

(5.) Please identify all parties who will rely on the Phase I report.

City of Worcester
Prospective Purchaser
Future Sources of Capital

(6.) Please identify the site contact and how the site contact can be reached.

Peter Dunn
dunnp@worcesterma.gov
509-799-1400 x31419

(7.) Are there any special terms and conditions that must be agreed upon by the environmental professional?

No

(8.) Do you have any knowledge or experience with the property that may be pertinent to the environmental professional (prior environmental reports, documents, correspondence, etc. concerning the environmental condition of the property). Attach additional sheets if required.

No

(9) Does the user intend to retain a title company or title professional to review reasonable ascertainable title and judicial records for environmental liens or activity and use limitations (AULs)?

Yes___ No X

If Yes, will the results of the review be provided to the environmental professional?

Yes___ No___

Section 2 - Landowner Liability Protections

In order to qualify for one of the Landowner Liability Protections (LLPs)[1] offered by the Small Business Liability Relief and Brownfields Revitalization Act of 2001 (the "Brownfields Amendments"), the user must provide the following information (if available) to the environmental professional. Failure to provide this information could result in a determination that "all appropriate inquiry" is not complete.

(1.) Environmental cleanup liens that are filed or recorded against the site (40 CFR 312.25).

Are you aware of any environmental cleanup liens against the property that are filed or recorded under federal, tribal, state or local law?

No

[1] Landowner Liability Protections, or LLPs, is the term used to describe the three types of potential defenses to Superfund liability in EPA's Interim Guidance Regarding Criteria Landowners Must Meet in Order to Qualify for Bona Fide Prospective Purchaser, Contiguous Property Owner, or Innocent Landowner Limitations on CERCLA Liability ("Common Elements" Guide) issued on March 6, 2003.

(2.) Activity and land use limitations that are in place on the site or that have been filed or recorded in a registry (40 CFR 312.26).

Are you aware of any AULs , such as engineering controls, land use restrictions or institutional controls that are in place at the site and/or have been filed or recorded in a registry under federal, tribal, state or local law?

No

(3.) Specialized knowledge or experience of the person seeking to qualify for the LLP (40 CFR 312.28).

As the user of this ESA do you have any specialized knowledge or experience related to the property or nearby properties? For example, are you involved in the same line of business as the current or former occupants of the property or an adjoining property so that you would have specialized knowledge of the chemicals and processes used by this type of business? If “yes”, please explain.

No

(4.) Relationship of the purchase price to the fair market value of the property if it were not contaminated (40 CFR 312.29).

Does the purchase price being paid for this property reasonably reflect the fair market value of the property? If you conclude that there is a difference, have you considered whether the lower purchase price is because contamination is known or believed to be present at the property?

Purchase price is not yet known.

(5.) Commonly known or reasonably ascertainable information about the property (40 CFR 312.30).

Are you aware of commonly known or reasonably ascertainable information about the property that would help the environmental professional to identify conditions indicative of releases or threatened releases? For example, as user,

(a.) Do you know the past uses of the property?

Parking Lot

(b.) Do you know of specific chemicals that are present or once were present at the property?

No

(c.) Do you know of spills or other chemical releases that have taken place at the property?

No

(d.) Do you know of any environmental cleanups that have taken place at the property?

No

(6.) The degree of obviousness of the presence of likely presence of contamination at the property, and the ability to detect the contamination by appropriate investigation (40 CFR 312.31).

As the user of this ESA, based on your knowledge and experience related to the property are there any obvious indicators that point to the presence or likely presence of contamination at the property?

No

User Signature

I have answered the above questions in good faith and based on my knowledge of the property.

Background
- Aerial Photography

MAP INFORMATION

The soil surveys that comprise your AOI were mapped at 1:20,000.

Warning: Soil Map may not be valid at this scale.

Enlargement of maps beyond the scale of mapping can cause misunderstanding of the detail of mapping and accuracy of soil line placement. The maps do not show the small areas of contrasting soils that could have been shown at a more detailed scale.

Please rely on the bar scale on each map sheet for map measurements.

Source of Map: Natural Resources Conservation Service
Web Soil Survey URL:
Coordinate System: Web Mercator (EPSG:3857)

Maps from the Web Soil Survey are based on the Web Mercator projection, which preserves direction and shape but distorts distance and area. A projection that preserves area, such as the Albers equal-area conic projection, should be used if more accurate calculations of distance or area are required.

This product is generated from the USDA-NRCS certified data as of the version date(s) listed below.

Soil Survey Area: Worcester County, Massachusetts, Northeastern Part
Survey Area Data: Version 18, Sep 10, 2023

Soil map units are labeled (as space allows) for map scales 1:50,000 or larger.

Date(s) aerial images were photographed: May 22, 2022—Jun 5, 2022

The orthophoto or other base map on which the soil lines were compiled and digitized probably differs from the background imagery displayed on these maps. As a result, some minor shifting of map unit boundaries may be evident.

Map Unit Legend

Map Unit Symbol	Map Unit Name	Acres in AOI	Percent of AOI

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E1527 - 21), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E2247 - 16), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E1528 - 22) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.
Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

EXECUTIVE SUMMARY

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal CERCLA sites with NFRAP

SEMS-ARCHIVE: SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

A review of the SEMS-ARCHIVE list, as provided by EDR, and dated 04/22/2024 has revealed that there is 1 SEMS-ARCHIVE site within approximately 0.5 miles of the target property.

Lists of Federal RCRA facilities undergoing Corrective Action

CORRACTS: CORRACTS is a list of handlers with RCRA Corrective Action Activity. This report shows which nationally-defined corrective action core events have occurred for every handler that has had corrective action activity.

A review of the CORRACTS list, as provided by EDR, and dated 06/03/2024 has revealed that there is 1 CORRACTS site within approximately 1 mile of the target property.

Lists of Federal RCRA generators

RCRA-VSQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Very small quantity generators (VSQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

A review of the RCRA-VSQG list, as provided by EDR, and dated 06/03/2024 has revealed that there is 1

RCRA-VSQG site within approximately 0.25 miles of the target property.

EXECUTIVE SUMMARY

Lists of state and tribal landfills and solid waste disposal facilities

MA SWF/LF: The Solid Waste Facilities/Landfill Sites records typically contain an inventory of solid waste disposal facilities or landfills in a particular state. The data come from the Department of Environmental Protection's Solid Waste Facility Database/Transfer Stations.

A review of the MA SWF/LF list, as provided by EDR, has revealed that there is 1 MA SWF/LF site within approximately 0.5 miles of the target property.

Lower Elevation	Address	Direction / Distance	Map ID	Page
DWORMAN PROPERTY	***30 HOLLIS ST***	***S 1/4 - 1/2 (0.310 mi.)***	***36***	***177***
Database: SWF/LF, Date of Government Version: 06/09/2023				
Current Operational Status: Inactive				

Lists of state and tribal leaking storage tanks

MA LAST: The Leaking Aboveground Storage Tanks database

A review of the MA LAST list, as provided by EDR, and dated 01/09/2024 has revealed that there are 7 MA LAST sites within approximately 0.5 miles of the target property.

State and tribal institutional control / engineering control registries

MA INST CONTROL: Activity and Use Limitations establish limits and conditions on the future use of contaminated property, and therefore allow cleanups to be tailored to these uses.

A review of the MA INST CONTROL list, as provided by EDR, and dated 01/09/2024 has revealed that there are 22 MA INST CONTROL sites within approximately 0.5 miles of the target property.

Lists of state and tribal brownfield sites

MA BROWNFIELDS: Under Massachusetts law, M.G.L. c. 21E is the statute that governs the cleanup of releases of oil and/or hazardous material to the environment. The Brownfields Act of 1998 amended M.G.L. c. 21E by establishing significant liability relief and financial incentives to spur the redevelopment of brownfields, while ensuring that the Commonwealth's environmental standards are met. Most brownfields are redeveloped with the benefit of liability protections that operate automatically under M.G.L. c. 21E.

A review of the MA BROWNFIELDS list, as provided by EDR, has revealed that there are 28 MA BROWNFIELDS sites within approximately 0.5 miles of the target property.

Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 06/03/2024 has revealed that there are 3 RCRA NonGen / NLR sites within approximately 0.25 miles of the target property.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

A review of the EDR MGP list, as provided by EDR, has revealed that there is 1 EDR MGP site within approximately 1 mile of the target property.

Lower Elevation	Address	Direction / Distance	Map ID	Page
COMMONWEALTH GAS CO	25-30 QUINSIGAMOND A	ESE 1/2 - 1 (0.604 mi.)	AP158	1251

EDR Hist Auto: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Auto list, as provided by EDR, has revealed that there is 1 EDR Hist Auto

site within approximately 0.125 miles of the target property.

Lower Elevation	Address	Direction / Distance	Map ID	Page
BRALEY SERVICE CENTE	6 MAY ST	NE 0 - 1/8 (0.083 mi.)	D7	19

EDR Hist Cleaner: EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Cleaner list, as provided by EDR, has revealed that there is 1 EDR Hist Cleaner site within approximately 0.125 miles of the target property.

Environmental Interest/Information System:

The Massachusetts - Environmental Protection Integrated Computer System (MA-EPICS) is the central repository for all environmental protection data for the State of Massachusetts.
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Environmental Interest/Information System:
The Massachusetts - Environmental Protection Integrated Computer System (MA-EPICS) is the central repository for all environmental protection data for the State of Massachusetts.
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Action Date: 12/8/2006
Response Action Outcome: Not reported

Action Type: Activity and Use Limitation
Action Status: Level II - Audit Inspection
Action Date: 4/19/2012
Response Action Outcome: Not reported

Action Type: Activity and Use Limitation
Action Status: Level I - Technical Screen Audit
Action Date: 4/5/2012
Response Action Outcome: Not reported

Action Type: Tier Classification
Action Status: Transmittal, Notice, or Notification Received
Action Date: 5/3/2004
Response Action Outcome: Not reported

Action Type: Tier Classification
Action Status: Tier 2 Classification
Action Date: 5/3/2004
Response Action Outcome: Not reported

Action Type: Tier Classification
Action Status: Level I - Technical Screen Audit
Action Date: 6/2/2004
Response Action Outcome: Not reported

Action Type: RLFA
Action Status: FOLFLD
Action Date: 9/25/2006
Response Action Outcome: Not reported

Action Type: RLFA
Action Status: FOLOFF
Action Date: 9/6/2006
Response Action Outcome: Not reported

Action Type: Release Disposition
Action Status: Reportable Release under MGL 21E
Action Date: 9/6/2006
Response Action Outcome: Not reported

Action Type: Immediate Response Action
Action Status: Oral Approval of Plan or Action
Action Date: 9/6/2006
Response Action Outcome: Not reported

Action Type: RLFA
Action Status: FLDD1U
Action Date: 9/8/2006
Response Action Outcome: Not reported

Environmental Interest/Information System:
The Massachusetts - Environmental Protection Integrated Computer System (MA-EPICS) is the central repository for all environmental protection data for the State of Massachusetts.
The Resource Conservation and Recovery Act Information System

BRAVO AUTO SALES & SERVICE (Continued) **1000319870**

(RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Environmental Interest/Information System:
The Massachusetts - Environmental Protection Integrated Computer System (MA-EPICS) is the central repository for all environmental protection data for the State of Massachusetts.
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.
