February 28, 2025

To All Bidders:

Subject: **Bid No. 8369-M5 Door & Lock Replacement – Phase II / WPS**

ADDENDUM NO. 3

To Whom It May Concern:

With reference to our bid request relative to the above subject, please refer to the changes/modifications/clarifications to the original proposal request.

Questions Received by this Office & Answers from the City:

Questions regarding Worcester East Middle School:

1. Q: The door hardware schedule does not have any doors/door numbers listed. The floor plans do not call out what door gets what hardware set either. There is currently nothing listed that shows what hardware set is designated for each door. Can you provide the information that correlates what hardware set is required at which door? Or list door numbers on the respective hardware sets?

A: Please see attached Door Schedule below.

2. Q: Specification states that contractor is responsible for patch & paint. Can we get confirmation in writing that the preexisting conditions (specifically gouged, chipped and damaged areas on doors) are not a responsibility of the contractor?

A: The contractor will not be responsible for repairing any existing damage or conditions that are outside the scope of the project. Contractor should document the condition of the doors prior to any work being done.

3. Q: In regards to patch and paint specifications there are quite a few doors that are extremely old, have custom work and or damages that may be impossible to patch and or cover once existing hardware is removed (example is auditorium doors 166,167,168,208 that are encased in leather and have brass buttons, are we expected to match and or patch leather and brass buttons?)

A: No, the contractor will not be responsible for patching leather or replacing brass buttons.

4. Q: Some cylindrical lock doors do not have existing wrap plates. Do you expect the contractor to supply new door wraps for those doors to keep it uniform?

A: The contractor is responsible to meet the hardware specifications for each door, found in the door schedule.

5. Q: Door 149 is calling out for a cylindrical lock, but there is no door?

A: Please eliminate Door 149 from this project.

purchasing@worcesterma.gov

6. Q: Door 28 is calling out for a cylindrical lock, but there is an exit device on the door currently. Is it acceptable to replace the cylinder only on this door?

A: The Contractor should reference the Door Schedule and cross-reference with the Hardware Specifications for the hardware required for each door.

7. Q: Please confirm or deny that the square symbol ND on the print means New Door as there is no symbol legend for this?

A: Yes, "ND" represents a New Door installation.

8. The specs show this project has a completion date of June 30th, 2025. Is that a hard stop on June 30th, or would extra time be allowed if the installation is in progress? Possibly in coordination with Phase I bid of August 2025?

A: No, the project must be completed by June 30, 2025.

Bidders are requested to acknowledge and/or include this addendum with submission. All other terms, conditions and specifications remain unchanged.

Very truly yours,

Stephen R. McDonald
Assistant Purchasing Director
