April 9, 2025

To All Bidders:

Subject: **Bid No. 8395-J5, Playground Renovations – Jacob Hiatt Magnet School / WPS**

## **ADDENDUM NO. 2**

To Whom It May Concern:

With reference to our bid request relative to the above subject, please refer to the changes/modifications/clarifications to the original proposal request.

## **Questions received by this office and responses from The City:**

1. Q: What is the Material under the current PIP Surfacing? Is it Crushed Stone or Asphalt?
  - a. Upon visual inspection, the material appears to be crushed stone/gravel mix.
2. Q: Are you able to provide us with the fall heights for the playground?
  - a. The fall height is 8'.
3. Q: There is no such category as 2-12. Also, CPSC is being required as the guideline within the docs and that does not allow basket swings on playgrounds considered for school or public use, will this be changed?
  - a. Per CPSC 2.3.1, Multiple Occupancy Swings are NOT RECOMMENDED. After a risk assessment, Worcester Public Schools wants to move forward with the basket swing, per specs.

## **General Bid Clarification:**

1. All equipment in Area A is Kompan Products. There is no LSI equipment.

Bidders are requested to acknowledge and/or include this addendum with submission. All other terms, conditions and specifications remain unchanged.

Very truly yours,

Jerry S. Kucera  
Buyer
