To All Bidders:

Subject: **Bid No. 8637-M6, Lake View Playground Improvements / DPRC**

ADDENDUM NO. 2

To Whom It May Concern:

With reference to our bid request relative to the above subject, please refer to the changes/modifications/clarifications to the original proposal request.

General Bid Questions:

Question1: Special Conditions Article 41 “DPRC Standard Security Camera Appurtenances” paragraph B states to include in base bid furnishing, installing and testing 2000LF of fiber optic cable. Why is the quantity 2000LF when it scales off to be more like 550LF? Can we carry in our base bid the actual quantity required?

Answer: Include in bid the quantity that is needed to furnish and install as required for a complete operating system.

Question2: The same paragraph referenced above calls for the contractor to carry all vertical splices to cameras. Are we to carry vertical splices at all 8 pedestrian and sports lighting pole? Please be aware that the splicing is very costly, and it seems unlikely that every pole will have a camera.

Answer: Yes, cameras are planned for all eight locations, also refer to Sheet E2 for locations of corresponding eight communication handholes.

Question3: General Note 1 on drawing E-2 calls for 175' of conduit and cabling from the electrical cabinet to the utility pole. The actual distance from the cabinet to the utility pole is approximately 40' plus say 30' up the utility pole. Do we need to carry 175' in our bids when it is more like 70'?

Answer: Include in bid the quantity that is needed to furnish and install as required for a complete operating system.

Question4: Do the Holophane light poles require Field Installed Auxiliary Wire Exits and SiteLink TracNuts? The detail on drawing E-3 does not show these items.

Answer: Yes, they are required hardware for the complete install of security cameras on the six pedestrian light poles.

purchasing@worcesterma.gov

Question5: Are National Grid charges for the new electrical service paid by the City of Worcester?

Answer: Yes

Question6: Are City of Worcester electrical permit fees waived for this project?

Answer: No

Question6: Please confirm if the DPRC standard precast handholes for electric, and communication networks are to be used. If so please provide the DPRC drawings for standard handholes required.

Answer: Project standard Handholes attached.

Bidders are requested to acknowledge and/or include this addendum with submission. All other terms, conditions and specifications remain unchanged.

Very truly yours,

Stephen R. McDonald
Assistant Purchasing Director
