To All Bidders:

Subject: **Bid #: 8689-M6, Network Upgrades – Durkin Administration Building / WPS**

ADDENDUM NO. 1

To Whom It May Concern:

With reference to our bid request relative to the above subject, please refer to the changes/modifications/clarifications to the original request.

- **PLEASE SEE BELOW PHASE B SCOPE OF SERVICES / DESCRIPTION**

Phase B: Wired network re-termination.

The contractor shall provide all labor, materials, and equipment required for the re-termination and testing of existing copper infrastructure to new keystone based patch panels in new or existing network cabinets / racks.

Contractor work includes the removal of old patch panels, installation of new keystone based patch panels, and the re-termination of existing copper wiring at patch panels in MDF and IDF locations. Work will also include WPS specified end points that have been pre-determined as faulty and need replacement.

Installation of a new network cabinet in basement IDF Room 010 will be required. Contractor will test all connections for full functionality.

Required hardware listed in parts/specifications section. MDF, and IDF locations are listed in Appendix A."

Bidders are requested to acknowledge and/or include this addendum with submission. All other terms, conditions and specifications remain unchanged.

Christopher J. Gagliastro
