To All Bidders:

Subject: **Bid No. 8726-J7 – Resurfacing – Ultra Thin Bonded Wearing Course / DPW**

ADDENDUM NO. 3

To Whom It May Concern:

With reference to our bid request relative to the above subject, please refer to the changes/modifications/clarifications to the original proposal request.

Questions Received by this Office and Answers from the City:

1. Q: Can the gutter milling item be a separate pay item? If not, what is the width mill that is required and is it expected to be the complete length of all the roads?
 - A: No, this item will remain incidental. The contractor will use a minimum 7' Mill run at 1" in the gutter to 0" in the lane. Plan to gutter mill all gutters lines that have driveways unless the engineer asks you to do less. The Milling Item 403. is used for mill and pave style road repairs when full depth is unnecessary.

Bidders are requested to acknowledge and/or include this addendum with submission. All other terms, conditions and specifications remain unchanged.

Very truly yours,

Jerry Kucera
Buyer
