To All Bidders:

Subject: **Bid No. CR-8096-W4, Traffic Signal Equipment / DTM**

ADDENDUM NO. 1

To Whom It May Concern:

With reference to our bid request relative to the above subject, please refer to the changes/modifications/clarifications to the original proposal request.

PLEASE SEE BELOW QUESTIONS RECEIVED AND RESPONSES FROM CITY

Q. Within the standard cabinet specification there is a requirement “each controller cabinet shall be equipped with an external multi-port signature modem to allow communications to a closed loop system”. Please clarify what this item needs to be. Is this an ethernet switch? If so, what are the requirements of this switch?

Answer: In Section 602.00 – CONTROLLER CABINET ASSEMBLY-TYPE P-PER SPEC, replace “Each controller cabinet shall be equipped with an external multi-port signature modem to allow communications to a Closed Loop system and communications with a Video Detection system,” with the following:

“Each controller cabinet shall be equipped with a ruggedized gigabit-class 4G (upgradeable to 5G) LTE router (Cradlepoint IBR1700-FIPS or approved equivalent) with wireless gigabit WAN connectivity, wired gigabit LAN connectivity, and either Wi-Fi 5 or Wi-Fi 6 LAN connectivity to allow communication to closed-loop monitoring and video service. Cabinet shall also include a compatible external weatherproof LTE router antenna with all necessary mounting hardware and weather-sealing materials.”

Bidders are requested to acknowledge and/or include this addendum with submission. All other terms, conditions and specifications remain unchanged.

Very truly yours,

Christopher J. Gagliastro
Purchasing Director
