November 6, 2023

To All Bidders:

Subject: **Bid No. CR-8096-W4, Traffic Signal Equipment / DTM**

ADDENDUM NO. 2

To Whom It May Concern:

With reference to our bid request relative to the above subject, please refer to the changes/modifications/clarifications to the original proposal request.

PLEASE SEE BELOW QUESTIONS RECEIVED AND RESPONSES FROM CITY

Q. Item 610.85 is calling for RRFB Pedestrian Thermal Sensor. The specifications says that this sensor shall integrate directly with RRFB assembly specified in item 610.00.

Item 610.00 does not include the sensor and different panels are used when sensors are requested. Do you want these panels for thermal sensors to be included in the item 610.00?

Answer: The use of the RRFB Thermal Sensor would be a special order in place of the normal APS push button activation and it would be ordered and known in advance. Any specialized equipment needed for it to function should **not** be included in the bid price for the regular RRFB unit that the City typically purchases.

Bidders are requested to acknowledge and/or include this addendum with submission. All other terms, conditions and specifications remain unchanged.

Very truly yours,

Christopher J. Gagliastro
Purchasing Director
