44. It is understood and agreed that it shall be a material breach of any contract resulting from this bid for the Contractor to engage in any practice which shall violate any provisions of Massachusetts General Laws, Chapter 151B, relative to discrimination in hiring, discharge, compensation, or terms, conditions or privileges of employment because of race, color, religious creed, national origin, sex, age or ancestry.
45. The undersigned as bidder, declares that the only parties interested in this proposal as principals are named herein; that this proposal is made without collusion with any other person, firm or corporation, that no officer or agent of the City is directly or indirectly interested in this bid; and he/she proposes and agrees that if this proposal is accepted he/she will contract with the City in accordance with the specifications, also the terms and conditions as spelled out in this bid form.
46. No Person, including but not limited to corporations, partnerships, limited partnerships or limited liability corporations, shall be eligible to receive a contract under this invitation to bid and/or requires for proposal if that person has been convicted of any felony offense involving the distribution of controlled substances as that term is defined under Chapter 94C of the General Laws and, for contracts to be performed for on-site services to the Worcester Public Schools, if that person or any person to be employed by that person in the performance of such on-site services has been convicted of a "sex offense" or a "sex offense involving a child" or a "sexually violent offense" or would meet the definition of "sexually violent predator" as those terms are defined in Section 178C of the General Laws and who must register with the sex offender registry board.

47. The Contractor shall at all times enforce strict discipline and good order among his employees and shall not employ for work or services relating to this contract any unfit person or anyone not skilled in the task assigned to him. In light of the fact that the performance of this contract requires the Contractor and its employees to have significant interaction with the public, the Contractor shall require all employees who may perform services under this contract to conduct themselves in a courteous, professional manner. If the Contractor is notified by the Contract Officer that any person engaged upon the work is incompetent, unfaithful, disorderly, discourteous, or otherwise unsatisfactory, then such person shall be discharged from providing services or work pursuant to this contract. Without limiting the generality of the foregoing, intimidation, threats and/or violent conduct of any kind or nature directed to members of the public are absolutely prohibited. Failure to comply with this requirement shall be grounds for termination of the contract.
48. The Contractor's performance may be evaluated on an ongoing basis including but not limited to consideration of complaints received from members of the public. In order to facilitate this evaluation, the Contractor shall provide the City with documents and records upon request. The Contractor shall further obtain from its employees authorization that appropriate City personnel may obtain all available criminal offender information ("CORI") from the Criminal History Systems Board. A high number of unresolved complaints, any number of complaints that are particularly severe, or employment of individuals who have been convicted of assault or other violent crimes shall be grounds for the early termination or non-renewal of the contract by the City.
49. The procurement officer shall award the contract to the lowest responsible and responsive bidder. The term "responsible bidder" means "a person who has the capability to perform fully the contract requirements, and the integrity and reliability which assures good faith performance." Consistent with its duty to maintain public order and promote public safety, the City has determined that this contract is of a type and nature so as to be particularly sensitive due, at least in part, to the contractor's inherent access and dealings with the members of the general public. Therefore, the City has concluded that additional scrutiny is justified as it determines whether a particular bidder is responsible, having the integrity and reliability to properly perform the requested services. This may entail consideration of the contractor's system of oversight, training and supervision of its employees, including but not limited to its requirement of a high standard of customer service and courtesy in its dealings with the public. The bidder's care and diligence in hiring and assigning its employees will also be considered. In making its determination, the City reserves the right to examine any and all information at its disposal, including but not limited to prior City contracts, the experiences and information obtained from current and former customers (whether identified by the bidder as references or not), as well as other sources available to the City, including but not limited to court documents, newspapers, financial reports (such as DUNS), and certain police data and reports.
50. The Contractor, acting through its owner(s) or any of its employees, or its agents or sub-contractors and any of their employees, shall not engage in any behavior, whether during the course of its duties under this contract or at any other time, that is illegal, criminal or otherwise shocking or offensive to the general public. The determination whether any particular behavior is illegal, criminal or shocking to the general public shall rest in the sound judgment of the Contracting Officer or the City Manager. In making such determination, the Contracting Officer or the City Manager shall apply the general standards of the community. No criminal conviction or formal charges shall be required to make such determination. Such behavior need be something more than trivial and something which would cause the general public to have concerns either about the safety of individuals coming in contact with the Contractor or about the character and integrity of the individuals with which the City does business. Violation of this provision shall be grounds for immediate and unilateral termination of this contract by the City upon five days' notice as otherwise provided herein

Worcester Lakes & Ponds Water Quality Monitoring
Specifications for Algae and Cyanobacteria Monitoring

OVERVIEW

The City of Worcester Department of Sustainability and Resilience (DSR) seeks a qualified Contractor to monitor algae and cyanobacteria cell density and character as directed in various Worcester lakes and ponds between March and September of 2024.

TASK BREAKDOWN

The Contractor will perform the following tasks:

- 1) **Sample Collection:** Upon request, the Contractor will collect a water sample from a designated location in the specified waterbody.
- 2) **Preliminary Assessment:** On the same day, the Contractor will use the sample to assess the immediate threat of a cyanobacterial or algal bloom in house; and report it to DSR.
- 3) **Professional Numeration and Characterization:** The Contractor will provide a list of the taxa found in the sample with corresponding density for each within two (2) weeks of the sample date.

Waterbodies will be sampled upon request by DSR. Monitoring under this contract is primarily focused on Indian Lake and Coes Reservoir; however, monitoring at other waterbodies within the city may be included upon request of DSR. The total number of samples to be taken will not exceed 40.

COST PROPOSAL

Bidders should include a cost per analysis for each of the above parameters and all associated costs including but not limited to sample container, preservative, courier fees, reporting, etc.

PROBLEM IDENTIFICATION/HISTORY

Indian Lake is a 190-acre, shallow lake in Worcester, MA that has been listed on the 2014 Massachusetts Impaired Waters 303d List for Dissolved Oxygen and noxious aquatic plants. In 2001, the Massachusetts Department of Environmental Protection drafted a Total Maximum Daily Load for phosphorous. A large-scale algal bloom in 2014 closed Indian Lake to recreational activity for the entire summer, and high levels of cyanotoxins were recorded. Coes Reservoir is on the 2014 Massachusetts Impaired Waters 303d list for having a Category 4c impairment for non-native plants, however, recent water quality monitoring has shown elevated levels of total phosphorus and low clarity that suggests that it may be at higher risk for harmful algal blooms. The City of Worcester seeks to better monitor cyanobacteria density and character to perform preventative treatment of symptoms of harmful algal blooms and to ensure that the lakes do not need to be closed.

PROJECT LOCATION AND PARAMETERS

Indian Lake is located north of Central Worcester, Massachusetts. It is bordered on the northeast by I-190 and on the southwest by Grove Street. The major tributary, Ararat Brook, enters from the north. The Lake is partially divided by Sears Island, which is connected by a low causeway in the southeastern portion. There are two public swimming beaches and a boat launch on the Lake. Coes Reservoir is a 87-acre reservoir in western Worcester, and is fed primarily by Tatnuck Brook, which enters from the North. It has public beach access off of Mill Street to the west. In addition to these, there are about 18 smaller lakes and ponds throughout the City, with and without public access.

Arrangements for bidders to view the sites can be made directly with Katie Liming, Lakes and Ponds Coordinator, DSR at 508-929-1300 x49353, or limingk@worcesterma.gov.

Figure 1. Project location and area.

MONITORING AREA

Algal and cyanobacterial monitoring will take place at a public beach where applicable, and at a place designated by DSR where no beach exists.

PERSONNEL

The Contractor will provide and be responsible for all labor, mobilization, demobilization, materials, equipment, and incidentals required to complete the work specified in this proposal including chemicals, application equipment, sampling equipment, storage equipment, spill containment equipment, etc.

MONITORING SCHEDULE

Monitoring will occur on an as-needed basis beginning in April 2024. All monitoring data must be shared with DSR in a timely manner so as to inform public health and management decisions.

PROJECT COORDINATION

Algal monitoring sampling protocol will be designed by the Contractor with approval by DSR. Once approved, the Contractor will work independently to complete assigned tasks, providing materials and personnel, providing reports to DSR with monitoring results.

SAFETY, STORAGE & HANDLING

The Contractor shall be responsible for all safety issues related to algal and cyanobacterial monitoring. This includes employee training, storage, handling and distribution of material. The Contractor shall be responsible for providing any temporary storage of equipment, materials or supplies.

EMERGENCY NOTIFICATIONS

The Contractor shall be responsible to provide notification to the DSR of any incidents with local property owners, accidents, and/or issues with sample collection.

REPORTING

On the day of sampling, the Contractor will use the sample to assess the immediate threat of a cyanobacterial or algal bloom in house, and report it to DSR via email or phone communication. Within two weeks, the Contractor will provide a list of the taxa found in the sample with corresponding density for each sample collected.
