February 19, 2024

To All Bidders:

Subject: **Bid No. CR-8359-M5, Insertion Valves & Tapping Services / DPW&P**

## **ADDENDUM NO. 2**

To Whom It May Concern:

With reference to our bid request relative to the above subject, please refer to the changes/modifications/clarifications to the original proposal request.

### **General Bid Clarifications:**

1. The City will accept stainless steel insertion valves. We would consider the Hydra-Stop product an equal to the Easy Valve (EZ) system detailed in the bid specs.

### **Questions received by this office, with answers from the City:**

1. Q: Why does it matter if the valve turner is on a truck and not a trailer?

A: The City has valves in easement that may need to be exercised and operated. As long as the bidder can get the valve turner to where it is needed, it doesn't matter whether it is on a trailer or a truck.

Bidders are requested to acknowledge and/or include this addendum with submission. All other terms, conditions and specifications remain unchanged.

Very truly yours,

Stephen R. McDonald  
Assistant Purchasing Director
