40. Each bidder must state the commercial name of the product quoted, name, and address of operator or agent from whom the product will be purchased and in addition shall furnish an analysis of the product, date of analysis, by whom made and their address.

42. The representative of the City taking the samples shall be given the opportunity, while sampling, to affix his or her signature to the delivery slip each item represented in his/her sample.
43. Any product after the sampling and analysis, not found meeting the requirements of the contract shall be sufficient cause for the cancellation of the contract at the option of the Purchasing Agent.
44. If any product is found that does not meet the analysis submitted by the bidder in his/her proposal, the Purchasing Agent may, at his or her option, exercise his/her right to reject the product and require that all or any part thereof shall be removed promptly by and at the expense of the contractor and replace it forthwith with a product satisfactory to the Purchasing Agent, or to retain the product and compensate the contractor in an amount as determined by the Purchasing Agent and the City Manager.
45. It is understood and agreed that it shall be a material breach of any contract resulting from this bid for the Contractor to engage in any practice which shall violate any provisions of Massachusetts General Laws, Chapter

151B, relative to discrimination in hiring, discharge, compensation, or terms, conditions or privileges of employment because of race, color, religious creed, national origin, sex, age or ancestry.

46. The undersigned as bidder, declares that the only parties interested in this proposal as principals are named herein; that this proposal is made without collusion with any other person, firm or corporation, that no officer or agent of the City is directly or indirectly interested in this bid; and he/she proposes and agrees that if this proposal is accepted he/she will contract with the City in accordance with the specifications, also the terms and conditions as spelled out in this bid form.
47. No Person, including but not limited to corporations, partnerships, limited partnerships or limited liability corporations, shall be eligible to receive a contract under this invitation to bid and/or requires for proposal if that person has been convicted of any felony offense involving the distribution of controlled substances as that term is defined under Chapter 94C of the General Laws and, for contracts to be performed for on-site services to the Worcester Public Schools, if that person or any person to be employed by that person in the performance of such on-site services has been convicted of a “sex offense” or a “sex offense involving a child” or a “sexually violent offense” or would meet the definition of “sexually violent predator” as those terms are defined in Section 178C of the General Laws and who must register with the sex offender registry board.
48. The Contractor shall at all times enforce strict discipline and good order among his employees and shall not employ for work or services relating to this contract any unfit person or anyone not skilled in the task assigned to him. In light of the fact that the performance of this contract requires the Contractor and its employees to have significant interaction with the public, the Contractor shall require all employees who may perform services under this contract to conduct themselves in a courteous, professional manner. If the Contractor is notified by the Contract Officer that any person engaged upon the work is incompetent, unfaithful, disorderly, discourteous, or otherwise unsatisfactory, then such person shall be discharged from providing services or work pursuant to this contract. Without limiting the generality of the foregoing, intimidation, threats and/or violent conduct of any kind or nature directed to members of the public are absolutely prohibited. Failure to comply with this requirement shall be grounds for termination of the contract.
49. The Contractor’s performance may be evaluated on an ongoing basis including but not limited to consideration of complaints received from members of the public. In order to facilitate this evaluation, the Contractor shall provide the City with documents and records upon request. The Contractor shall further obtain from its employees authorization that appropriate City personnel may obtain all available criminal offender information (“CORI”) from the Criminal History Systems Board. A high number of unresolved complaints, any number of complaints that are particularly severe, or employment of individuals who have been convicted of assault or other violent crimes shall be grounds for the early termination or non-renewal of the contract by the City.
50. The procurement officer shall award the contract to the lowest responsible and responsive bidder. The term “responsible bidder” means “a person who has the capability to perform fully the contract requirements, and the integrity and reliability which assures good faith performance.” Consistent with its duty to maintain public order and promote public safety, the City has determined that this contract is of a type and nature so as to be particularly sensitive due, at least in part, to the contractor’s inherent access and dealings with the members of the general public. Therefore, the City has concluded that additional scrutiny is justified as it determines whether a particular bidder is responsible, having the integrity and reliability to properly perform the requested services. This may entail consideration of the contractor’s system of oversight, training and supervision of its employees, including but not limited to its requirement of a high standard of customer service and courtesy in its dealings with the public. The bidder’s care and diligence in hiring and assigning its employees will also be considered. In making its determination, the City reserves the right to examine any and all information at its disposal, including but not limited to prior City contracts, the experiences and information obtained from current and former customers (whether identified by the bidder as references or not), as well as other sources available to the City, including but not limited to court documents, newspapers, financial reports (such as DUNS), and certain police data and reports.

51. The Contractor, acting through its owner(s) or any of its employees, or its agents or sub-contractors and any of their employees, shall not engage in any behavior, whether during the course of its duties under this contract or at any other time, that is illegal, criminal or otherwise shocking or offensive to the general public. The determination whether any particular behavior is illegal, criminal or shocking to the general public shall rest in the sound judgment of the Contracting Officer or the City Manager. In making such determination, the Contracting Officer or the City Manager shall apply the general standards of the community. No criminal conviction or formal charges shall be required to make such determination. Such behavior need be something more than trivial and something which would cause the general public to have concerns either about the safety of individuals coming in contact with the Contractor or about the character and integrity of the individuals with which the City does business. Violation of this provision shall be grounds for immediate and unilateral termination of this contract by the City upon five days' notice as otherwise provided herein

Holiday wreath decorations will adorn every other street light pole at approximately 10 feet – 15 feet up on the pole (depending on the style of the pole).

Strong attention to detail is necessary for proper and timely installation and removal.

The vendor will be responsible for the arrangement and payment of all in-road safety requirements including Police Detail, to work in the street safely, during installation, maintenance, and removal of the holiday wreath decorations.

Installation:

Installation must be completed between November 1 & the Third Friday in November, weather permitting, but shall not be illuminated until approved by the City of Worcester

Installation must be carried out during non-peak traffic hours (weekends and midday), as to avoid vehicle congestion. All work must be done to avoid all damage to these unique, custom-made holiday wreaths. Vendors shall be responsible for any damage caused due to their handling, installing and removing of wreaths, strings and/or custom storage boxes.

Installation of the holiday wreaths must be done during non-peak hours (weekends and midday), as to avoid traffic congestion.

Storage:

Holiday wreath decorations are currently stored in the City of Worcester, in custom storage boxes and will need to be retrieved by the awarded vendor for this installation effort. All holiday wreath decorations (230) must be returned to a site determined by the City of Worcester, re-stored properly in custom storage boxes, upon vendor removal.

Removal:

Removal of the holiday wreath decorations must be completed between the fourth Monday of February and the second week in March, weather permitting.

Removal of the holiday wreaths must be done during non-peak hours (weekends and midday), as to avoid traffic congestion.

Inventory:

Before installation and during removal, the contractor will conduct an inventory of holiday wreaths in need of repair or replacement (due to standard operation and conditions in the City environment) for the following year and will make all repairs if needed. The successful vendor will be required to provide the city the inventory report within 2 weeks from the completion of the installation and removal.

Maintenance and Repair:

The vendor will also be responsible for the safe and secure installation, the care and the condition of the holiday wreath decorations while under contract. Maintenance of lights, wreaths, and brackets, including repairs of any broken materials, is the responsibility of the vendor, and should be performed as needed. The successful vendor will be required to respond to all City requests within 48 hours.

Holiday wreaths plug into the existing 110V Ground Fault (GF) Plugs on poles. Vendor shall plug these in during the installation and notify City immediately of any GF Plugs without electric power (upon reset of GF Plug breaker by vendor).

All wreath repairs must be made within six weeks of the date that the wreaths were removed. Once all repairs have been completed, the successful vendor will notify the City of Worcester.

The vendor will be responsible for providing the necessary mounting hardware used to install the holiday wreath decorations.

The city will provide the contractor with detailed maps outlining which street light poles will require a holiday wreath decoration within the installation areas.

The Vendor shall restring all lighting on wreaths with new cool white minis in year one (1) of the contract. See pricing table.

**SPECIFICATIONS ~ LIGHTING RENTAL & INSTALLATION / CITY BID #
CR-8542-M6**

This bid covers the design, installation, maintenance, management, removal, supply and/or rental of lighting for the holiday season lighting program at the Worcester Common, DCU Center, and Federal Square (Area in front of the Hanover Theater) areas. The holiday tree lighting will adorn the trees on Federal Square Island, DCU Center, and the Worcester Common for the winter season. The lighting will be wrapped around the branches and trunks of the trees to cover as much of the tree as possible. **Installation must not begin until November 1 and be completed by the third Friday in November, weather permitting. Trees shall not be illuminated until approval by the City of Worcester.** Installation must be done during non-peak traffic hours (weekends and midday), as to avoid vehicle and/or pedestrian congestion. All work must be done to avoid all damage to the ground, property, and trees. The vendor shall be responsible for any damage caused due to their handling, installing and removing of string lighting.

It is the responsibility of the vendor to supply, repair, maintain and manage all lighting (winter cool white) and extensions to fully wrap and light the trees within the city environment. Repairs to vandalism or other damage to the light strings must be completed by the Festival of Lights event and/or then within 72 hours of notification to the contractor. **All these holiday string lights must be removed and work completed from the property/trees by the second week of March, weather permitting.** Removal of the holiday string lights must be done during non-peak hours (weekends and midday), as to avoid traffic and pedestrian congestion.

In Federal Square, all trees must receive lighting; the power is at the bottom of the trees. At the DCU Center, the following trees receive lighting: all trees on Foster Street (DCU Center Side), 11 trees in the front bed of the pavilion, and every other large tree on Major Taylor Boulevard (To MLK Blvd). On the Common, specific trees receive lighting, as depicted in the map; no shrubs receive lighting. To aid in installing the lights, bucket trucks are only allowed on the Common and at the DCU Center; ladders are required for all other locations.

The vendor will be responsible for the arrangement and payment of all in-road safety requirements including Police Detail, if necessary to work in the street safely, during installation, maintenance, and removal of the holiday string lights. The vendor is responsible for supplying all materials which include lights, extension cords, and electrical tape for the installation process. The vendor will also be responsible for the safe and secure installation, the care, condition and maintenance of the holiday string lights while on display. The string lights plug into the existing 110V Ground Fault (GF) Plugs on poles. Vendor shall plug these in during the installation and notify City of any GF Plugs without electric power (upon reset of GF Plug breaker by vendor).

The vendor will be responsible for providing the necessary mounting hardware or equipment used to install the string lighting decorations. Trees that will be decorated with string lights must be fastened using zip ties, if needed, rather than tape or any other adhesive materials. Weekly maintenance of lights including repairs of any broken materials is the responsibility of the vendor. Attention to detail is necessary, which includes no exposure of extension cords or perhaps limit to a minimum hanging wires. The arrangement of lights and use of extension cords will be at the discretion and approval of the City.

The city will provide the contractor with detailed maps outlining which trees will require holiday string lights, for the Worcester Common, DCU Center, and Federal Square areas. The City estimates that 75,000 lights are used for this contract. This is an estimate only; vendors will be required to supply enough lights to fully wrap and lighten the designated trees/areas.

Strong attention to detail is necessary for proper and timely installation and removal. Insurance certificates in amounts equal to or greater than those identified on page 3 of this bid document are required. The contractor shall submit the insurance certificates to the Purchasing Division prior to purchase order issuance.
