| <i>No single construction job shall exceed \$10,000.</i> |                               |                                                                                                                                                                                                     | \$ <u>99,750<sup>-</sup></u> |                               |

\*Extended Price to be calculated as follows:

Extended Price = Estimated Annual Cost for Materials x (1+% Increase)

Example:      % Increase = 15%      Estimated Cost = \$25,000  
                     Extended Price      = \$25,000 x (1+.15)  
                                                  = \$25,000 x 1.15  
                                                  = \$28,750

Hourly and Annual cost estimates are for bidding purposes only and to establish service rates where applicable. Actual quantities will vary.

TERMS, PROMPT PAY DISCOUNT 0 % 30 DAYS, NET 45 DAYS.

| <i>No single construction job shall exceed \$10,000.</i> |                               |                                                                                                                                                                                                     |                       |                       |

\*Extended Price to be calculated as follows:

Extended Price = Estimated Annual Cost for Materials x (1+% Increase)

Example:      % Increase = 15%      Estimated Cost = \$25,000  
                  Extended Price      = \$25,000 x (1+.15)  
                                                 = \$25,000 x 1.15  
                                                 = \$28,750

Hourly and Annual cost estimates are for bidding purposes only and to establish service rates where applicable. Actual quantities will vary.
