

Woo Stories

EPISODE 3 RESOURCES

TOOLS AND TECHNOLOGY

What tools do I need to make a podcast?

- ✓ Access to a **cell phone** or a **computer** that you can use to store your recordings and any computer programs you use.
- ✓ A **microphone** which you can find built into a cell phone or computer!
- ✓ An **editing program**, like Audacity, that you can download on your computer.

Here is a link so you can download Audacity for free on your computer! Always ask an adult before you download anything on your computer or phone.

SOME OPTIONAL TIPS & TRICKS

If possible, save your audio files in two locations so that you don't have to worry about losing them.

However, audio files take up a lot of space! If that is a problem, try saving on Google Drive, an SD card, or a thumb drive. Ask an adult in your home if they can help you!

Finally, remember that you can always look at the FAQ web pages of the apps or programs you're using to see how they work.

Woo Stories is an educational podcast produced by the Worcester Division of Youth Opportunities.
